Prosper Independent School District

Mission, Vision, and Beliefs

Mission

The mission of Prosper Independent School District is to develop and graduate motivated, academically prepared individuals with the strength of character to make contributions to a rapidly changing society through an educational system that maintains high expectations, provides quality instruction, and establishes a safe, orderly, learning environment in the community that lives its name.

Vision

Grounded by Tradition - Soaring to New Beginnings

Beliefs

We believe...

- Students are first in all decisions
- In valuing all students and their success and well-being
- In innovation in curriculum and technology
- In being intentional in creating opportunities that will propel students forward
- In recruiting, hiring and retaining employees with the Prosper heart
- In the importance of a supportive and demanding community
- In our commitment to our Graduate Profile
- In protecting our small-town feel
- In providing a safe and nurturing environment for students and staff
- Our success is grounded in tradition

Graduate Profile

ACADEMIC READINESS

Throughout PreK - 12, the Prosper ISD student prepares for a successful transition to college, career, and workforce readiness. The student experiences challenging learning that aligns with their strengths and interests. Curriculum is designed to challenge the mind, inspire the imagination, and lead to the acquisition of social skills. The graduate thinks critically and expresses ideas clearly in a variety of innovative and creative modes. In the pursuit of excellence, the student learns to produce quality work by applying self-discipline, showing initiative, thinking creatively and critically while maintaining a sense of personal integrity.

WELL-ROUNDED

Throughout PreK - 12, the Prosper ISD student participates in numerous activities in the competitive arena that promote teamwork, leadership, responsibility, integrity, humility, physical, and emotional well-being which helps them understand that aesthetic and physical development is essential to an education. The graduate learns the value of fair play, collaboration, and respect for both teammates and adversaries through varied opportunities which may include: art, music, UIL, theatre, college/career preparation, and athletics.

HONORS AND RESPECTS OTHERS

Throughout PreK - 12, the Prosper ISD student interacts with students, teachers, administrators, parents and community members in a variety of settings. The student conscientiously chooses to act in accordance with the principle - "Treat others as you wish to be treated." These experiences lead the student to learn the importance and use of Respect, Encouragement, Appreciation, Communication and Honor. The student's overall experience teaches them to respect differing ideas and opinions, while maintaining their own set of beliefs.

OPPORTUNITIES AND CHALLENGES

Throughout PreK - 12, the Prosper ISD student participates in reflective and self-evaluative processes that provide opportunities to learn and grow. Experiencing every classroom and campus as a safe haven for the mistakes and false starts inherent in learning, the graduate understands that intellectual-risk taking and resilience are necessary for growth in an ever-changing digital learning and global society. The graduate values being viewed with respect and is prepared to manage complex responsibilities necessary for lifelong learning and the application of that learning.

COMMUNITY INVOLVEMENT

Throughout PreK - 12, the Prosper ISD student experiences the satisfaction of service to others by understanding and living the principle of responsibility to the community, which is gained through involvement in a cause or service that puts others before self. Ultimately, the Prosper ISD graduate responds in love and service to those in need and strives to move beyond self-interest or self-centeredness in relationships with others.

How to Use The Academic Guide and Course Catalog

The purpose of this catalog is to provide students and their families with important information that will enable them to make informed decisions about their academic paths and graduation options. Parents/guardians and students are encouraged to familiarize themselves with the graduation and endorsement requirements and work closely with teachers and counselors to help make the best possible choices.

The Texas Education Agency and Texas State Board of Education often update information throughout the school year. The information in this guide is accurate as of the time it was published and is updated as information becomes available.

The guide is intended as a reference and does not replace board policy. Any extenuating circumstances are determined at the discretion of the principal.

It is the policy of the Prosper Independent School District not to discriminate on the basis of race, color, national origin, sex, handicap, or age in its employment practices and/or its career and technical education programs, services or activities as required by Title VI of the Civil Rights Act of 1964, as amended; title IX of the Education Amendments of 1972, the Age Discrimination Act of 1975, as amended; and Section 504 of the Rehabilitation Act of 1973, as amended. For information about your rights or grievance procedures, contact the Title IX Coordinator, Jane Matthews (469)219-2000

Prosper ISD offers Career and Technical Education Programs for Prosper ISD students in Agriculture, Food & Natural Resources, Architecture, Arts, A/V Technology & Communications, Business Management & Administration, Education & Training, Finance, Health Science, Hospitality & Tourism, Human Services, Law, Public Safety, Corrections & Security, Manufacturing, Marketing, STEM, and Transportation, Distribution & Logistics. Admission to these programs is based on interest and aptitude, age appropriateness, and class space available.

The Prosper Independent School District will take steps to ensure that lack of English language skills will not be a barrier to admission and participation in all educational and career and technical education programs. The Prosper Independent School District offers a free and appropriate education to eligible students.

Academic Guide

Graduation Information and Requirements

Requirements

Graduation requirements include:

- 26 credits (Foundation High School Program with Endorsement - see below)
 - In rare cases, or by ARD Committee determination, students may graduate on the Foundation Only Program with parent/guardian, principal, and counselor approval. This decision can be decided after a student's sophomore year.
- Five End of Course Exams (English I, II; Algebra I; Biology; U.S. History)
 - Students who take an EOC course in middle school will be expected to take either the SAT or ACT prior to graduation. At least one of these tests will be offered during the school day at no cost to all students in the spring of their junior year.
- Students must complete one of the following:
 - Submit a Free Application for Federal Student Aid
 - Submit a Texas Application for State Financial Aid
 - Submit a signed opt-out form in Skyward in the parent portal

Endorsements

During 8th grade, students select an endorsement and create a personal graduation plan. We offer the following endorsement options:

- Arts & Humanities
- Business & Industry
- Multidisciplinary
- Public Services
- STEM

Students may change or add an endorsement at any time but will require a signature from the parent/guardian and student.

Distinguished Level of Achievement

In Prosper ISD, our students will be on the Foundation High School Graduation Program with Endorsement and earn the Distinguished Level of Achievement (DLA). This will best prepare our students for college, career, and the workforce.

A Distinguished Level of Achievement must be earned to be admitted into a Texas public university under the Top 10% law. A student may earn a Distinguished Level of Achievement by successfully completing:

- Four credits in mathematics that must include Algebra II
- Four credits in science
- Foundation High School Program with Endorsement curriculum requirements

Performance Acknowledgments

Students may earn **Performance Acknowledgments** through outstanding achievement in the following areas:

- Outstanding Performance in Dual Credit courses
 - Earn at least 12 hours of dual credit as part of the Texas core curriculum or advanced technical credit courses with a grade of the equivalent of 3.0 or higher on a scale of 4.0
- Outstanding Performance in Bilingualism and Biliteracy
 - Complete all English Language Arts requirements and maintain a minimum of an 80 average on a 100 point grading scale. Students must also complete one of the following:
 - Complete a minimum of 3 credits in the same language in a language other than English with an 80 average on a 100 point grading scale
 - Demonstrate proficiency in TEKS for Level IV or higher in a language other than English with an 80 average on a 100 point grading scale
 - Demonstrate proficiency in one or more World Languages (LOTE) through 1) a score of 3 or higher on a College Board Advanced Placement examination for a language other than English, 2) a score of 4 or higher on an International Baccalaureate examination for a language other than English, or 3) performance on a national assessment of language proficiency in a language other than English of at least Intermediate High or its equivalent.
- Outstanding Performance on a College Board Advanced Placement or International Baccalaureate Exam
 - A score of 3 or higher on a College Board Advanced Placement exam
 - A score of 4 or higher on an International Baccalaureate examination
- Outstanding Performance on a College Readiness Exam
 - Earning a score on the PSAT/NMSQT that qualifies the student for recognition as a commended scholar or higher by the College Board and National Merit Scholarship Corporation, as part of the National Hispanic Recognition Program (NHRP) of the College Board or as part of the National Achievement Scholarship Program of the National Merit Scholarship Corporation or as an awardee of the National Recognition Programs of the College Board
 - Earning a total score of at least 1350 on the SAT
 - Earning a composite score on the ACT examination of 29 (excluding the writing subscore)
- Outstanding Performance in Obtaining a Recognized Business or Industry Certification or License

Texas First Early High School Completion Program

Senate Bill 1888, 87th Texas Legislature, Regular Session, 2021, added [Texas Education Code §28.0253](#), which establishes the [Texas First Early High School Completion Program](#) to allow public high school students who demonstrate early readiness for college to graduate early from high school.

Prosper ISD 4-Year Plan

SUBJECT AREA	Foundation Plan plus Endorsement with Distinguished Level of Achievement			
ENGLISH 4 Credits	English I	English II	English III	English IV
MATH 4 Credits	Algebra I	Geometry	Advanced Math (Algebra II Required for DLA)	Advanced Math
SCIENCE 4 Credits	Biology	IPC or Chemistry	Chemistry, Physics or Advanced Science	Advanced Science
SOCIAL STUDIES 4 Credits	World Geography or Human Geography	World History, African American Studies, or Mexican American Studies	U.S. History	Government, Economics or Personal Financial Literacy and Economics
FINE ARTS 1 Credit				
WORLD LANGUAGES: LANGUAGES OTHER THAN ENGLISH (LOTE) 2 Credits in the Same Language				
PHYSICAL EDUCATION 1 Credit				
ADDITIONAL COURSES TO EARN ENDORSEMENT 6 Credits				
TOTAL 26 CREDITS				

^Foundation High School Program (without endorsement) requires administrator and parent/guardian approval.

Graduation Endorsement Options

Students are able to earn one or more endorsements as part of their graduation requirements. Endorsements consist of a related series of courses that are grouped together by interest or skill set. Students earn an endorsement by completing the curriculum requirements for the endorsement, including a 4th credit of math and science.

Arts and Humanities Endorsement

The Arts and Humanities Endorsement requires:

1. 4 credits of mathematics
2. 4 credits of science
3. **One of the following:**
 - a. 5 social studies credits
 - b. 4 credits of the same World Language (LOTE)
 - c. 2 credits in a World Language (LOTE) and 2 credits in a different World Language (LOTE)
 - d. A coherent sequence of 4 credits from one or two course areas in Fine Arts to include Art, Dance, Music, and Theatre

Business and Industry Endorsement

The Business and Industry endorsement requires:

1. 4 credits of mathematics
2. 4 credits of science
3. **One of the following:**
 - a. A coherent sequence of courses totaling 4 or more credits in Career and Technical Education (CTE) that includes at least 2 courses in the same career cluster and at least 1 advanced CTE course from a qualifying career cluster.
CTE career clusters include:
 - i. Agriculture, Food, and Natural Resources
 - ii. Architecture and Construction
 - iii. Arts, AV Technology, and Communications
 - iv. Business Management and Administration
 - v. Finance
 - vi. Hospitality and Tourism
 - vii. Information Technology
 - viii. Marketing
 - ix. Manufacturing
 - x. Transportation, Distribution, and Logistics
 - b. Complete a Business and Industry qualifying Program of Study: At least three courses for four or more credits, and at least one advanced CTE course in a single program of study.
 - c. Four English elective credits to include three levels of debate

Public Services Endorsement

The Public Services Endorsement requires:

1. 4 credits of mathematics
2. 4 credits of science
3. A coherent sequence of courses totaling 4 or more credits in CTE that includes at least 2 courses in the same career cluster and at least 1 advanced CTE course from a qualifying career cluster.
CTE career clusters include:
 - a. Education and Training
 - b. Law, Public Safety, Corrections, and Security
 - c. Health Science
 - d. Human Services
 - e. Junior Reserve Officer Training Corps (JROTC)
4. Complete a Public Services qualifying Program of Study: At least three courses for four or more credits, and at least one advanced CTE course in a single program of study.

Science, Technology, Engineering, and Mathematics (STEM) Endorsement

The STEM endorsement requires:

1. 4 credits of mathematics (Algebra II required)
2. 4 credits of science (Chemistry and Physics required)
3. **One of the following:**
 - a. A coherent sequence of courses totaling 4 or more credits in Career and Technical Education (CTE) that includes at least 2 courses in the same career cluster and at least 1 advanced CTE course in a STEM qualifying career cluster/program of study.
 - b. Coherent sequence of four courses in Computer Science
 - c. Five credits in Mathematics including Algebra I, Geometry, Algebra II, and two additional courses which require Algebra II as a prerequisite
 - d. Five credits in Science including Biology, Chemistry, Physics, and two additional advanced Science courses
 - e. Complete a STEM qualifying Program of Study: At least three courses for four or more credits, and at least one advanced CTE course in a single program of study.

Multidisciplinary Endorsement

The Multidisciplinary Endorsement requires:

1. Four credits of mathematics
2. Four credits of science (including Chemistry and/or Physics)
3. Four credits of English (including English IV or AP English Literature)
4. **One of the following:**
 - a. Four advanced courses that prepare a student to enter the workforce or postsecondary education without remediation from within one endorsement area or among endorsement areas that are not in a sequence
 - b. Four credits in each of the 4 foundation subject areas to include English IV, Chemistry, and/or Physics
 - c. Four credits in Advanced Placement or dual credit selected from English, mathematics, science, social studies, economics, World Languages (LOTE), or fine arts

College, Career, and Military Readiness (CCMR)

The Texas Education Agency (TEA) lists ways high school students can demonstrate readiness for college, career, and military endeavors after high school. CCMR readiness criteria are not required for high school graduation, but rather should be used as benchmarks to provide students with indications that they are adequately prepared for a variety of life experiences including college and the world of work.

CCMR is important from elementary to graduation and Prosper ISD provides a variety of educational opportunities that are structured to afford all students with a well-rounded educational foundation for life after high school. Our goal is to help students discover and plan for their futures through our:

- Engaging and challenging curriculum, including Advanced Placement, Dual Credit, and Honors courses
- Access to relevant resources and tools, including Xello and school counselor
- Planning events such as High School Transition Night, Advanced Academics Night, and College Fair
- Robust career pathways and certification opportunities in Career and Technical Education
- College testing paid for by the District (Fall PSAT for grades 9, 10, 11; Spring SAT for 11th grade)

Prosper ISD aspires for each graduate to meet at least one of the CCMR indicators through high school programming, and many students meet several of the criteria during their high school careers. School counselors partner with families to support CCMR goals by meeting with students yearly to review four-year plans and choose courses that will best prepare them to meet their graduation and post-secondary goals. As an important part of four-year planning, we encourage students and parents to review the list below to understand and plan for ways to meet CCMR benchmarks and readiness criteria.

Prosper ISD graduates can demonstrate college, career or military readiness in the following ways:

Accountability Criteria	Requirements
<i>A graduate must meet the TSI requirement for both reading and mathematics but does not necessarily need to meet them on the same assessment. For example, a graduate may meet the TSI criteria for college readiness in ELA/reading on the SAT and complete and earn credit for a college prep course in mathematics.</i>	
Meet TSI Criteria via SAT	Reading & Writing 480; Math 530
Meet TSI Criteria via ACT	Prior to 2/15/23; English 19; Math 19; Composite 23 After 2/15/23; English & Reading combined 40; Math 22
Meet TSI Criteria via TSIA2	ELAR 945; Math 950; 5 or higher on Essay

College Prep Course	These are college preparatory courses in English and math for high school seniors. These courses are intended for seniors who have not demonstrated college readiness in English Language Arts (ELAR) and/or math on the ACT, SAT or TSIA.
<i>Other criteria graduates may meet for College and Career Readiness</i>	
Advanced Placement (AP) Exam	Score 3, 4, or 5 on any exam
Earn Dual Course Credits	Earn credit for at least <u>three</u> hours in ELA or mathematics or at least <u>nine</u> hours in any subject
Earn an Industry-Based Certification	Review this chart for list of available Industry-Based Certifications
Graduate with Completed Individualized Education Program (IEP) and Workforce Readiness	A graduate receiving a graduation type code of 54 or 55, which indicates the student has completed his/her IEP and has either demonstrated self-employment with self-help skills to maintain employment or has demonstrated mastery of specific employability and self-help skills that do not require public school services.
Graduate Under an Advanced Diploma and be Identified as a Current Special Education Student.	A graduate who is identified as receiving special education services during the year of graduation and whose graduation plan type is identified as <i>Foundation High School Plan with Endorsement (FHSP-E)</i> or <i>Foundation High School Plan with Distinguished Level of Achievement (FHSP-DLA)</i> .
Earn a Level I or Level II Certificate	A graduate earning a level I or level II certificate in any workforce education area.
Enlist in the Armed Forces	A graduate enlisting in the US Army, Navy, Air Force, Coast Guard, or Marines. Students must complete a DD Form 4 for verification

College Prep Courses

College prep courses provide instruction in English and/or math for high school seniors to help students meet college and career readiness standards. These courses are intended for high school seniors who have not demonstrated college readiness in English Language Arts (ELAR) and/or math on the ACT, SAT or TSIA.

Career and Technical Programs of Study

Prosper ISD offers Career and Technical Education Programs for Prosper ISD students in Agriculture, Food & Natural Resources, Architecture, Arts, A/V Technology & Communications, Business Management & Administration, Education & Training, Finance, Health Science, Hospitality & Tourism, Human Services, Law, Public Safety, Corrections & Security, Manufacturing, Marketing, STEM, and Transportation, Distribution & Logistics. Admission to these programs is based on interest and aptitude, age appropriateness, and class space available.

US Army JROTC

The program is designed to teach high school students character education, student achievement, wellness, and leadership. The focus of all instruction is on the enhancement of responsible citizenship and leadership. Through the Corps of Cadets, students learn to take and respond to orders, prepare for higher positions of responsibility, develop self-discipline, pride, bearing, self-control, and teamwork. Students may participate in extracurricular activities such as color guard. Several extracurricular competitions and other activities involving all members of the Corps of Cadets are conducted throughout the school year. Rock Hill High School currently serves the program for all Prosper ISD students.

Advanced Academics

Honors and Advanced Placement Courses

Students are encouraged to take academically challenging courses that are of interest to them. Honors and Advanced Placement courses focus on increasing depth and complexity and move quickly from foundational knowledge to application of the state standards (Texas Essential Knowledge and Skills) and in the case of Advanced Placement, national standards set by College Board®.

Prosper ISD maintains an open enrollment policy for all students for Honors and AP courses, but encourages personal evaluation of course requirements and students' time commitments before enrollment. The district encourages students to become well-rounded and experience life outside of academics. To that end, students are advised to take advanced coursework in their area(s) of interest allowing time for extracurricular interests and time to spend with family and friends.

Advanced Placement® (AP) Courses

The AP program® offers students college-level, rigorous coursework while enrolled in high school. AP courses are offered in a variety of subject areas including the arts, English, history, math, computer science, physical and life sciences, and world languages. In May of each year, students are given the opportunity and are encouraged to take their corresponding AP exam. Students should check with individual colleges to determine college credit earned. Students can also confirm course credit earned and transfer opportunities of credit here: [AP Credit Policy Search](#). Exam fees for AP tests are the responsibility of the student; however, scholarship opportunities are available. Reach out to your counselor or testing coordinator for more information.

Prosper ISD offers the following Advanced Placement courses:

- Art 2-D Art and Design
- Art 3-D Art and Design
- Art History
- Biology
- Calculus AB
- Calculus BC
- Capstone Research
- Capstone Seminar
- Chemistry
- Chinese Language
- Computer Science A
- Computer Science Principles
- Drawing
- English Language & Composition
- English Literature & Composition
- Environmental Science
- European History
- French Language
- Government & Politics
- Human Geography
- Latin
- Macroeconomics
- Music Theory
- Physics 1
- Physics C
- PreCalculus
- Psychology
- Spanish Language
- Spanish Literature
- Statistics
- US History
- World History

Dual Credit

Dual Credit Courses

Prosper ISD offers dual credit opportunities with Collin College. Students enrolled in dual credit courses receive both high school credit and college credit simultaneously. Beginning the summer after the student's sophomore year, qualified high school students may enroll in specific dual credit courses as listed in the Prosper ISD Course Catalog. Beginning in a student's sophomore year, students may access opportunities available within Health Science. **Classes not listed in the Prosper ISD Course Catalog will not be approved for dual credit purposes.**

Students will be responsible for paying all tuition, books, and fees associated with Collin College Dual Credit courses. Students with financial need should reach out to their counselor for assistance. The Prosper Education Foundation provides scholarships to students for Dual Credit and applications open in the spring. For more information please check the Counseling Department's website or the Advanced Academics Department's website.

If a dual credit student is assigned to DAEP due to disciplinary consequences, the student will be dropped from the dual credit course. A student can be moved to an AP or on-level course if available. Campuses will handle cases where an equivalent AP or on level course is not available, on a case by case basis. Students will be responsible for contacting Collin with questions about college transcript grades if this occurs.

To be eligible to enroll in dual credit courses, students must meet college admission requirements. Students must complete the application and registration process, including taking the Texas Success Initiative Assessment (TSIA), unless exempt. Students can use the [Texas Common Course Numbering System](#) (TCCNS) to view the courses designed for transfer that each institution offers. Students can also use the TCCNS to view how universities will evaluate various community college courses at their particular 4-year institution.

Grades earned in Dual Credit courses taken in person during the fall and spring semester are weighted, calculated into the student's high school GPA, and appear on the student's high school and college transcript. Dual credit courses taken during summer school or online will not be calculated into the student's high school GPA but will appear on the high school and college transcript.

TSI Waiver

Students may be exempt from taking the TSIA by receiving a Texas Success Initiative (TSI) waiver or exemption. To receive a TSI Waiver (expires at high school graduation) a student would need one or more of the following scores:

- TSI ELAR waiver: PSAT Reading = 460+ or STAAR English 2 = 4000+
- TSI MATH waiver: PSAT Math = 510+ or STAAR Algebra 1 = 4000+ AND a final Algebra 2 grade of 70% or higher

Articulated Courses at Collin College

Prosper ISD and Collin College have an agreement to articulate college credit for the following college level high school courses. College credit hours shall only be awarded once a student enrolled in Collin College and successfully completes three additional credit hours. Students enrolled in Collin College or Dual Credit courses may apply credit hours earned with a C or better towards the fulfillment of the 3-credit requirement. Remedial or development courses taken may not be included in the total credit hours.

Collin College Course	Collin College Credit	Prosper ISD Course	PISD Credit
Chef 1305 Sanitation and Safety	3	Culinary Arts (CLAR1)	1
RSTO 2307 Catering	3	Culinary Arts (CLAR1)	1
HPRS 1201 Introduction of Health Care Systems <i>Not articulated prior to 9th grade</i>	2	Principles of Health Science (PRHSC)	1

Dual Credit Location Options

	Courses Offered	Considerations
Prosper ISD Campus	Most Core/CTE courses Exceptions: Practicum portions of Health Science courses are held at a hospital or other healthcare facility stipulated by Collin College Science Courses are only available at Celina Campus	These courses are staffed by Collin and are offered in person only; no online sections allowed.
Celina Campus	Students in the Celina Cohort will take two courses per day (Monday - Thursday) with a science lab section on Fridays. Schedule set by Collin College based on student interest	Class Times: Monday- Thursday - 9:15-12:10 Friday - 9:15-12:25
Online Courses (Summer Only)	All courses accepted for dual credit in Prosper ISD are eligible for summer online protected dual credit sections Students must choose 5 week or 10 week option	Online course grades are not calculated in GPA. *Courses taken outside of the designated dual credit sections will not be awarded high school credit.
Collin College Campus: Frisco	Students may take a course at these campuses if the course is a) offered by Prosper ISD, or b) does not have an in person section at Prosper ISD facilities or at the Celina campus; Students may take these for dual credit. Frisco Campus ITNW 1358 ITSY 1300	Students must have space in their schedule on the opposite day the course is offered- ie: M,W 8-9:15 class- student must have both 1st and 5th period free due to conflict between Collin College schedule and Prosper ISD rolling block These courses do calculate into GPA if taken face to face at Frisco or Allen campus.
*Additional information: Online courses and courses taken outside of the school day, other than specific dual credit sections offered in the summer, are considered concurrent enrollment. Concurrent enrollment courses operate independently of Prosper ISD.		

Concurrent Enrollment

In concurrent enrollment, students enroll in college courses for which they receive only college credit. Grades earned in concurrent enrollment courses are not reported to the high school since no high school credit is awarded. Contact Collin College if interested.

Grading and Reporting

Semesters and Nine Weeks

Prosper ISD divides the grading periods into two semesters, fall and spring. To receive credit for a course, students must be enrolled in PISD and:

- Earn a grade of 70 for a semester course
- Earn a grade of 70 for each semester for a year long course
- Earn a grade of 70 or above when both semester grades are averaged together.

When a student earns a passing grade in only one semester of a two-semester course and the combined grade for the two semesters is lower than 70, the District shall award the student credit for the semester with the passing grade. Average passing is only allowed during the academic school year in which the course was originally taken for initial credit. The student shall be required to retake only the semester in which he or she earned the failing grade.

Attendance for Credit or Final Grade (Kindergarten- Grade 12)

To receive credit or a final grade in a class, a student must attend at least 90 percent of the days the class is offered. A student who attends fewer than 90 percent of the days the class is offered will be referred to the attendance review committee to determine whether there are extenuating circumstances for the absences and how the student may regain credit [See policy FEC]. All absences, whether excused or unexcused, must be considered in determining whether a student has attended the required percentage of days.

Progress Reports and Report Cards

Progress Reports and Report Cards are posted to Skyward Family Access. Report cards are posted at the end of the nine weeks grading period. Parents/guardians may request a paper copy of progress reports and report cards.

Skyward Family Access

Skyward Family Access is a web-based information and communication center designed to provide parents/guardians with real-time information regarding student progress including:

- daily attendance
- individual assignment descriptions and grades
- progress reports, report cards, and notification of low grades
- missing assignments
- discipline

Transfer Grades

Per Board Policy (EIC), for students coming in with letter grades on their transcript the following grading translation will be used:

A+	98
A	95
A-	93
B+	88
B	85
B-	83

C+	78
C	75
C-	73
D (if previous district awarded credit)	70
D (if previous district did not award credit)	69
F	65

Grade Classification

Grade classification is determined prior to the start of each school year. Classification is for the entire school year. Students who are graduating a semester or year early must complete an application with their counselor prior to the start of the requested graduation year.

Freshman: A student entering high school for the first time or having fewer than 6 credits.

Sophomore: A student in the second year of high school who has earned a minimum of 6 credits will be classified as a sophomore.

Junior: A student in the third year of high school who has earned a minimum of 12 credits will be classified as a junior.

Senior: A student who has earned a minimum of 18 credits and who is enrolled in the correct courses that will allow for graduation.

Class Rank

Freshmen, sophomores, and juniors will have their GPA and class rank recalculated after each semester. Seniors are ranked at the end of each semester and after the third nine weeks to determine graduation honors. The seniors' official grade point average is determined at the end of the fourth nine weeks. Before GPA and class rank are calculated, new to Prosper ISD students must complete a full semester of district coursework. Please refer to [Board Policy](#) EIC Local for more information on class ranking.

Exclusions

The calculation of class rank shall exclude grades earned outside of the regular school day or school year, including summer school; any correspondence course; any online course not approved by the principal and monitored and proctored by a District employee; any local credit course; and grades earned through Credit by Examination (CBE).

Weighted Courses and Grade Point Average

The District shall categorize and weight eligible courses as Advanced Placement (AP)/Dual Credit, Honors, and On-Level courses in accordance with provisions of this policy and as designated in appropriate District publications. The District shall convert semester grades earned in eligible courses to grade points in accordance with the following chart and shall calculate a weighted grade point average (GPA):

Grade	On-Level	Honors Courses	AP/Dual Credit Courses
100	5	5.5	6
99	4.9	5.4	5.9
98	4.8	5.3	5.8
97	4.7	5.2	5.7
96	4.6	5.1	5.6
95	4.5	5	5.5
94	4.4	4.9	5.4
93	4.3	4.8	5.3
92	4.2	4.7	5.2
91	4.1	4.6	5.1
90	4	4.5	5
89	3.9	4.4	4.9
88	3.8	4.3	4.8
87	3.7	4.2	4.7
86	3.6	4.1	4.6
85	3.5	4	4.5
84	3.4	3.9	4.4
83	3.3	3.8	4.3
82	3.2	3.7	4.2
81	3.1	3.6	4.1
80	3	3.5	4
79	2.9	3.4	3.9
78	2.8	3.3	3.8
77	2.7	3.2	3.7
76	2.6	3.1	3.6
75	2.5	3	3.5
74	2.4	2.9	3.4
73	2.3	2.8	3.3
72	2.2	2.7	3.2
71	2.1	2.6	3.1
70	2	2.5	3
69 and below	No Grade Points Awarded	No Grade Points Awarded	No Grade Points Awarded

Dual Credit Grading

Dual credit grades are reported to the high school numerically. The numeric grade will be entered onto the transcript, weighted, and calculated in the student's high school GPA. In the event dual credit grades are reported as a letter grade, the following will apply:

A	95
B	85
C	75
D	70

Because colleges award credit for a letter grade D, the high school will award credit for a D.

*Dual Credit courses taken during summer school or online will not be calculated into the student's high school GPA but will appear on the high school and college transcript.

Valedictorian, Salutatorian, and Honor Students

The valedictorian and salutatorian shall be eligible students with the highest and second-highest rank, respectively. To be eligible for this local graduation honor, a student must:

1. Have been continuously enrolled in the District for the entire two school years immediately preceding graduation;
2. Be graduating after exactly eight semesters of enrollment in high school; and
3. Have completed the foundation program with at least one endorsement.

In case of a tie in weighted GPAs after calculation to the third decimal place, the District shall recognize all students involved in the tie as sharing the honor and title. The District shall recognize the ten highest ranking students who have completed the Foundation Program with the Distinguished Level of Achievement.

UIL Eligibility

UIL participants should be aware of the following:

- Eligibility requirements for the first six weeks of each academic year's credits are determined by state graduation requirements. Students in grades 9-12 may participate in extracurricular activities at the beginning of the school year if the grade specific eligibility criteria below are met:
 - Beginning the 9th grade: has been academically promoted to the 9th grade.
 - Beginning the 10th grade: has earned 5 credits toward state graduation.
 - Beginning the 11th grade: has earned 10 credits or a total of 5 credits in the last 12 months.
 - Beginning the 12th grade: has earned 15 credits or a total of 5 credits in the last 12 months.
- UIL eligibility is based on semesters of participation and not years in high school.
- A student shall be suspended from participation in any extracurricular activity sponsored or sanctioned by the district or the UIL after a grade evaluation period in which the student received a grade lower than a 70 in any academic class other than those designated courses exempt from "no pass no play":
 - 1) Students are evaluated every three weeks for eligibility status. Loss of eligibility occurs at the end of the first six weeks' progress report and, thereafter, only at the end of the nine-week grading period. Students can regain eligibility at the end of the six-week period and must be passing ALL courses.
 - 2) All students are academically eligible during Thanksgiving break, winter break and spring break.
 - 3) The grace period for eligibility is seven calendar days after evaluation, with the exception of holidays.
 - 4) Students lose eligibility from participation in extracurricular activities if, after a grade-evaluation period, the student receives a grade below 70 in any academic class other than an identified honors or advanced class.

Waived PISD Advanced Courses

Policy FM (Local) outlines the advanced courses in PISD that are exempt from the "no pass, no play" rule, as long as the student maintains a minimum of a 50 average in the course. The advanced courses in PISD and recognized by the Texas Education Agency defined as exempt from "no pass, no play" guidelines, minimum grade of 50 are:

English Language Arts

Honors English I, Honors English II, GT American Studies, GT Humanities, AP English Language, AP English Literature, Dual Credit ENGL 1301 and 1302 (English Composition/Rhetoric), ENGL 2322 and 2323 (British Lit I & II)

Fine Arts

AP Art: 2-D Design Portfolio, AP Art: 3-D Design Portfolio, AP Art: Drawing Portfolio, AP Music Theory and AP Art History

World Languages: Languages Other than English (LOTE)

Honors American Sign Language, Honors Chinese, Honors French, Honors Latin, Honors Spanish, AP Spanish Language, AP Spanish Literature, AP French Language, AP Latin, AP Chinese Language

Mathematics

Honors or GT Algebra I, Honors or GT Geometry, Honors Algebra II, Precalculus, AP Precalculus, AP Calculus AB, AP Calculus BC, AP Statistics, Dual Credit MATH 1314 (College Algebra), Dual Credit MATH 1342 (Elementary Statistical Methods), Dual Credit MATH 1324 (Mathematics for Business and Social Sciences), Dual Credit MATH 1325 (Calculus for Business and Social Sciences), Dual Credit MATH 2415 (Calculus III), Dual Credit MATH 2320 (Differential Equations),

Science

Anatomy & Physiology, Honors Biology, Honors Chemistry, AP Biology, AP Chemistry, AP Physics 1, AP Physics C, AP Environmental Science, Dual Credit Biology 1408 (Biology for Non-Science Majors I), Dual Credit Biology 1409 (Biology for Non-Science Majors I), Dual Credit GEOL 1403 (Physical Geology for Non-Science Majors), PHYS 1404 (Solar System for Non - Science Majors).

Social Studies

GT American Studies, GT Humanities, Honors World Geography, AP World History, AP US History, AP European History, AP Macroeconomics, AP U.S. Government and Politics, AP Psychology, AP Human Geography and Dual Credit ECON 2301 (Principles of Macroeconomics), GOVT 2301, HIST 1301 and 1302 (US History)

CTE

AP Computer Science A, AP Computer Science Principles

Other

AP Seminar, AP Research

Alternate Methods of Earning Course Credit: Recovering Credit

Correspondence Courses

Prosper ISD allows students who have failed courses to retake them as correspondence courses for credit; correspondence courses must be pre-approved and TEKS based. Prior to enrollment in correspondence courses, students must secure approval from the school counselor. Grades earned in correspondence courses are not calculated into the student's GPA, but credit is awarded and the grade will appear on the student's transcript. It is recommended that students only enroll in one correspondence course at a time. Seniors who are enrolled in correspondence courses to earn credit required for graduation must complete the correspondence course at least 30 days prior to graduation and submit the grade to their counselor for recording. The cost of enrolling in correspondence courses is the responsibility of the student. Contact the school counselor for more information. Helpful links for approved correspondence courses:

<http://www.depts.ttu.edu/k12/programs/supplemental/>

<https://highschool.utexas.edu/>

<https://www.txvsn.org/>

Summer School

Students who fail courses may retake them in summer school. Grades earned in summer school are not calculated into the student's GPA, but credit is awarded and the grade will appear on the student's transcript. If students attend summer school in another Texas school district, credit will be awarded upon receipt of course completion records. The cost of enrolling in summer school is the responsibility of the student. Prosper ISD's summer school information is posted on the district website in late March. Students with financial need should contact their counselor.

Credit by Examination

A student who has received prior instruction in a course, but failed the course, may be permitted to earn credit for the course by passing a Credit by Exam (CBE). The CBE assesses the essential knowledge and skills defined for the course. To receive credit, a student must score at least 70 on the CBE. The attendance review committee may allow a student with excessive absences to receive credit for a course in which credit was previously denied by passing a CBE. Grades earned on the CBE are not calculated into the student's GPA, but credit is awarded and the grade will appear on the student's transcript. The cost of taking a CBE is the responsibility of the student. CBE information is available from the campus testing coordinator, and study guides are available online. Exams will be given on campus or district assigned location.

Edgenuity

A student who has taken and failed a course, may replace an elective course for a credit recovery period, with prior approval. Students who take credit recovery will complete an online course through Edgenuity. Grades earned through Edgenuity are not calculated into the student's GPA, but credit is awarded and the grade will appear on the student's transcript. Contact the school counselor for more information.

Alternate Methods of Earning Course Credit: Accelerating Credit

Students who wish to earn credits for high school acceleration may want to consider some nontraditional ways to earn high school credit.

Enroll in Approved Summer School Courses for Credit

Students wishing to take summer classes through PISD approved online programs or at another Texas school district must first get approval from the counselor. Courses may not be taken during the summer for any EOC course except US history dual credit. Students must register for summer school, pay the required fees, successfully complete the course, and submit the grade to their counselor for recording to earn credit. Summer school courses must be completed before the first day of the academic semester. Students earn high school credit for summer school approved courses, but these grades are not calculated in the student's GPA.

Credit by Examination (CBE) for Acceleration

Prosper awards credit for students in grades 9-12 for an academic subject in which the student has received no prior instruction if the student scores 80 percent or above on a CBE. The student must earn at least 80% on both semester exams to receive credit. A completed application and counselor approval is required before a test will be ordered. The course and the CBE score will be entered on the student's transcript, but are not calculated into the student's GPA. A student may not attempt to earn credit by examination for a specific high school course more than two times. CBE information is available from the testing coordinator or on the district website. Exams are ordered and paid for by the district and will be given on campus or district assigned location.

Credit by Examination for World Languages (LOTE)

Prosper offers CBEs for students who have proficiency in a language other than English (LOTE) through Avant Assessment. These examinations are administered on predetermined dates. Contact the counseling office for more information. Exams will be given on campus or district assigned location.

Correspondence Courses

Prosper allows students to take certain courses through correspondence for acceleration with prior administrator or counselor approval; correspondence courses must be preapproved and TEKS based. Grades earned in correspondence courses are not calculated into the student's GPA, but credit is awarded and the grade will appear on the student's transcript. Seniors who are enrolled in correspondence courses to earn credit required for graduation must complete the course at least 30 days prior to graduation and submit the grade to the students' counselor for recording. Credit may be obtained through various approved programs. The cost of enrolling in correspondence courses is the responsibility of the student.

Helpful links for approved correspondence courses:

<http://www.depts.ttu.edu/k12/programs/supplemental/>

<https://highschool.utexas.edu/>

<https://www.txvsn.org/>

College Information

College Readiness Assessments

Prosper ISD recommends students take the SAT® and/or ACT® before the spring of their junior year of high school. Students needing accommodations for the ACT® or College Board® exams should visit the respective websites and apply at least 6 months prior to the test. Contact the campus testing coordinator for more information about tests and/or applying for testing accommodations.

ACT

The ACT® is a curriculum-based achievement test measuring what a student has learned in school. The ACT® is not an aptitude or an IQ test. Instead, the questions on the ACT® are directly related to what students have learned in high school English, mathematics, reading, and science courses. ACT provides college and career readiness indicators designed to show student achievement and preparedness in areas important to success after high school.

SAT

The SAT®, published by the College Board, measures critical thinking skills that are needed for academic success in college. The SAT® assesses how well test takers analyze and solve problems—skills they learned in school that they will need in college. The SAT® is typically taken in the junior and senior years of high school. The SAT®, in combination with high school grade point average (GPA) and the rigor of high school courses, provides a better indicator of success in college than high school grades alone.

Prosper ISD will offer the School Day SAT in the spring of students' junior year at no cost to the student.

Texas Success Initiative (TSIA2)

TSIA2 is a state-mandated placement test for Texas public colleges and universities. Students entering a Texas public college or university may need to take the Texas Success Initiative Assessment (TSI) and/or complete other testing requirements before enrolling in any college-level coursework. Students may be exempt from taking these college readiness exams if they meet the college's entrance standards. Students should contact either the testing office or the advising office at the Texas college or university they plan to attend to determine the requirements. Students may be exempt from TSI with the following criteria:

ACT:

- Prior to 2/15/23; English 19; Math 19; Composite 23
- After 2/15/23; English & Reading combined 40; Math 22

SAT:

- A minimum score of 530 on the Mathematics test for a TSI exemption in math (no combined score required);
- A minimum score of 480 on the Evidenced-Based Reading & Writing (EBRW) for a TSI exemption in both reading and writing (no combined score required)

PSAT/NMSQT

The Preliminary SAT®/National Merit Scholarship Qualifying Test, is a co-sponsored program by the College Board and National Merit Scholarship Corporation (NMSC). PSAT/NMSQT stands for Preliminary SAT/National Merit Scholarship Qualifying Test. It is a standardized test that provides first hand practice for the SAT Reasoning Test™. It also gives juniors a chance to enter National Merit Scholarship Corporation (NMSC) scholarship programs. The PSAT/NMSQT measures critical reading skills, math problem-solving skills, and writing skills. Prosper ISD administers the PSAT to all sophomores and juniors in the fall at no cost. Freshman sit for the PSAT 8/9. Students receive feedback in regards to strengths and weaknesses on skills necessary for college study so they can then focus their preparation on those areas that could most benefit from additional study or practice. The PSAT does not qualify to meet College and Career Readiness standards nor is it used as a substitute for the TSI for college admittance purposes.

Test Preparation

In order to prepare for success on college readiness tests, we encourage students to access free tools and take full advantage of test preparation opportunities for ACT, SAT, and TSIA. Click on the links below to explore the tools students can access:

- ACT, SAT and TSI Prep in [Edgenuity](#)—students register through the student portal and complete a free test prep course.
- [Khan Academy](#) (type SAT/ACT/TSIA in search; helpful modules populate)
- [TSI](#)
- [SAT](#)
- [ACT](#)

TEXAS Grant

The state legislature established the TEXAS (Towards Excellence, Access and Success) Grant to make sure that well-prepared high school graduates with financial need could go to college. For more information: <http://www.collegeforalltexas.com/apps/financialaid/tofa2.cfm?ID=458>

FAFSA

Students in their final year of high school should apply for financial aid early in their final year and each following year, as long as they are in post-secondary education or training. Federally funded grants and loans are available to students through the completion of the [FAFSA application](#). FAFSA submission will be available starting in December 2023.

Students enrolled in 12th grade must do one of the following in order to graduate:

- Complete and submit a Free Application for Federal Student Aid (FAFSA),
- Complete and submit a Texas Application for State Financial Aid (TASFA), or
- Submit a signed opt-out form in Skyward Family Access

Texas' Top Ten Percent Rule

Students who are in the top 10 percent of their graduating class are eligible for [automatic admission](#) to most public universities in Texas. Currently, the University of Texas at Austin automatic admission rate is 6

percent. To be eligible for automatic admission, a student must graduate in the top 10 percent of his or her class at a public or private high school in Texas and enroll in college no more than two years after graduating from high school. However, SB175, passed by the State Legislature in 2009, allows the University of Texas at Austin to limit automatic admissions to 75 percent of the university's enrollment capacity. Students must submit an application to a Texas public university for admission before the institution's application deadline. Students admitted through this route may still be required to provide SAT® or ACT® scores, although these scores are not used for admissions purposes. Students must also take the TSI, unless exempted from the test requirement. Students should check with the admissions office regarding TSI, SAT®, and ACT® requirements. After a student is admitted, the university may review the student's high school records to determine if the student is prepared for college-level work. A student who needs additional preparation may be required to take a developmental, enrichment, or orientation course during the semester prior to the first semester of college. Admission to a university does not guarantee acceptance into a particular college of study or department.

Prospective College Athletes

High school students who intend to participate in Division I or Division II athletics in college must register with the National Collegiate Athletic Association (NCAA) after completion of the student's junior year of high school. The NCAA Eligibility Center certifies the academic and amateur credentials of all college-bound athletes who wish to compete in college. Ultimately, the individual student athlete is responsible for achieving and protecting his or her eligibility status. To access the NCAA resource page, student athletes may visit the website at www.eligibilitycenter.org.

Collin College Counselor

The Collin College Counselor serves as a bridge for the transition between high school and post-secondary pursuits. The college counselors work on each high school campus to help students as they navigate their college and career options and provide assistance to guide students through the college search and application process, financial aid and scholarships, and educational planning. The counselor also functions as a liaison to Collin College for dual credit student services, including admissions, testing, advising, ACCESS, and course registration.

Xello

All Prosper secondary students and their families have access to Xello through their Student/Parent Portals. Xello is a comprehensive interactive website that parents/guardians and students can use to help facilitate college, career and military exploration. The program also allows middle and high school students more control of their exploration and preparation for postsecondary success.

Xello has the following tools:

- Learning Styles inventory and course planning tools
- Four-year planning access during 7th and 8th grade
- Career interest surveys to help students define their personal preferences and align them with possible careers to explore
- Colleges and major search tools which allow students to take into account many different factors, including location, cost of attendance, programs offered, average admissions criteria, and more
- Resume creation
- Volunteer hours track

Academic Planning and Course Selection

Course Selection Guidelines

Parent/guardian and student informational meetings will be held during the course selection window. Students will choose courses online through Skyward. Students who do not submit their course selections will have courses scheduled for them by their counselor according to their academic needs, graduation plan, and course availability. Course offerings are subject to change due to enrollment and staffing.

Course Change Requests

The last day of the school year is the final day for any course change requests.

- **Changes Before 2024-2025 School Year Begins:**
 - Student schedules will not be changed to accommodate different teachers, lunch periods, or electives. Once a class schedule is created, the student is expected to follow the schedule.
 - Schedules may change to move students to a new course due to original course selections being no longer available.
- **Changes After the 2024-2025 School Year Begins:**

During the first week of school, schedule changes will be made for the following reasons:

 - Student is in a class for which he/she has already received credit.
 - Students need to be moved to balance classes.
 - Student's schedule has the same course listed twice or is missing a class.

Leveling Down

Students can request to level down from an Honors or AP course at the end of the sixth week of school and at the end of the first semester. Grades from the dropped class will be transferred to the new class. The grade the student earned in the first six-weeks will be transferred to the newly scheduled academic level class with a 10 point addition to the current grade, not to exceed 100. If a student remains in the course beyond the six week period, he/she will not be able to withdraw until the semester ends; please note, students dropping at semester will not receive a 10 point addition to the grade as the semester will have ended. This timeline applies to dropping a course to move into an early release/late arrival period.

*Students moving from GT Humanities I to Honors English I, GT Humanities II to AP World History, GT American Studies to AP English/AP US History, and GT Geometry to Honors Geometry do not get the 10 points since they are equivalent GPA levels courses.

*Students and parents/guardians must discuss a plan for success with their teacher by the due date and submit the form to the counselor. For students who are taking an AP level class that does not have a class to level down to (i.e. AP Biology, AP Chemistry, etc.), dropping the course is only allowed at the semester.

Leveling Up

Students may level up to an Honors or AP course through the end of the first three week period of the fall semester with teacher recommendation. The student may be required to complete additional work to close any learning gaps.

Elective Changes

Elective changes may not be requested during the school year. Students may request program changes ie: athletics, band, and choir. Counselors will require director/coach approval in writing prior to making the schedule change.

Special Education Courses

Placement in any special education class is dependent upon eligibility and the recommendation of the Admission, Review and Dismissal (ARD) Committee. The ARD Committee will assist the student and parent in choosing classes that are most appropriate based on the student's Individualized Education Plan (IEP).

4 Year Planning

Begin with the End in Mind

To assist students and parents/guardians in making important decisions about the high school sequence of courses, PISD has provided a Personal Graduation Plan worksheet in the back of this Course Catalog. Students should complete a four-year plan and select their endorsement prior to entering 9th grade. Students should begin with the end in mind—that is by projecting their post secondary plans in order to make the best possible decisions now. Once high school comes to an end, the student's course of study should have adequately prepared the student for post-secondary education and goals. .

Before high school begins, it is important to understand how grade point average (GPA) will be cumulatively calculated with every high school credit course. Students can begin to review the PISD GPA policy and learn about the importance of GPA, rank, and the high school transcript.

- Students can begin exploring different academic pathways and course options in Prosper ISD, including:
 - Advanced Placement (AP) courses
 - Athletics
 - Career and Technical Education (CTE) Programs
 - Dual Credit
 - Fine Arts
 - Junior Reserve Officer Training Corps (JROTC)
- Students earn one or more of five endorsements as part of their high school graduation requirements. Many students will earn additional endorsements by graduation simply by taking courses they are interested in. The endorsements are:
 - Arts and Humanities
 - Business and Industry

- Multidisciplinary Studies
- Public Service
- Science, Technology, Engineering, and Math (STEM)

During 9th Grade

- Join clubs and organizations. Your extracurricular involvement should highlight your passions, interests, and one day leadership skills.
- Build relationships with your teachers, counselors and clubs/organizations.
- Continue to review high school graduation requirements. Pass high school credit courses with a 70 or above in order to earn .5 credit each semester for each course!
- Passing End of Course (EOC) exams is also required for high school graduation. Many 9th graders take 3 EOC courses and exams (English 1, Algebra 1, Biology).
- Review your 4-year plan and make adjustments in course selections for 10th - 12th Grade.
 - If you really enjoy your CTE courses, have you planned to take additional courses in your chosen pathway?
 - Are you taking enough challenging courses or not enough? Think about the right balance for you! Consider an advanced course or one of the suggested initial AP courses.

During 10th Grade

- Get involved or stay involved in school activities.
- Plan junior and senior year with graduation requirements in mind.
- Consider career plans- take career assessments in Xello.
- Begin thinking about what you want in college.
- Start your resume in Xello.
- Pass the English 2 EOC.
- Take the PSAT in October.
- Practice for future PSAT/SAT/ACT tests by linking your College Board account (after PSAT scores are returned) to Khan Academy for individualized practice.
- Take the optional ASVAB exam when your campus advertises the opportunity.
- Industry Based Certificates (IBC) can provide students work-ready credentials and can be available to students who complete certain CTE pathways. Review your 4-year plan and make adjustments in course selections for 11th - 12th Grade.
 - If you are interested in Dual-Credit Courses, it's time to review the admission criteria so you are prepared to enroll when the time comes.
 - If you really enjoy your CTE courses, have you planned to take additional courses in your chosen pathway?

During 11th Grade (Fall)

- Take challenging classes and make good grades. Your end of year junior transcript is what you will use to apply to college in the fall of senior year.
- Continue to stay involved in school activities, community service, and outside work or education experiences. Update resume accordingly and add awards, etc.
- Attend any College Fair events.
- Plan College visits. Juniors can get two excused absences to do so.
- Take PSAT in October (juniors are testing for National Merit status)
- Practice for spring administration of ACT or SAT by linking your College Board account to Khan Academy for individualized practice.
- Take the optional ASVAB exam when your campus advertises the opportunity.
- Review your 4-year plan and make adjustments in course selections for 12th Grade.

During 11th Grade (Spring)

- Attend college events for juniors to learn more about admissions requirements and processes.
- Review the Automatic Admission criteria for Texas public colleges.
- Begin to narrow the college choices you are interested in.
- Register with the NCAA, if you are a potential college athlete.
- Take the ACT or SAT, if your college requires it for admission. SAT is administered to all PISD 11th grade students in the spring.
- Industry Based Certificates (IBC) can provide students work-ready credentials and can be available to students who complete certain CTE pathways.
- Pass the US History EOC.

During 12th Grade (Fall)

- Begin college applications. Apply to 3-5 colleges before Thanksgiving.
- Create a Parchment account using a personal email in order to send high school transcripts.
- Write down and keep up with deadlines (admissions, financial aid, scholarships, etc.).
- Retake ACT/SAT if needed. Send scores to colleges you will be applying to.
- Take the optional ASVAB exam when your campus advertises the opportunity.
- Review TSIA requirements and exemptions if you will be attending college in Texas.
- Submit the FAFSA. Seniors must submit the FAFSA, TASFA, or opt-out form in order to graduate.
- Begin applying for scholarships.

During 12th Grade (Spring)

- Apply for scholarships.
- Be aware of deadlines to submit deposits for fall.
- Select your college by May 1.
- Send the request for your final high school transcript to be sent to your college.
- Graduation.

Course Descriptions

English

Prosper ISD High School English Track

* If students earn a 3 or higher on the AP Language and Composition test as a Junior and then enrolls in Dual Credit English 1301/1302 as a Senior, they could potentially be earning duplicate college credit.

** The LPAC committee determines placement in ESOL courses based on TELPAS scores. Students should NOT enroll concurrently in English I/II and ESOL I/II

English Language Arts: Core Courses

English I

EN100A/B

Grade 9, 1 credit, On-Level weighted GPA

Building off of previously learned skills, students will read assorted texts in multiple genres, and will compose literary and informational texts. Additionally, students will use inquiry and research to locate relevant sources and to evaluate, synthesize, and present ideas and information.

Prerequisite: None

Honors English I

EN110A/B

Grade 9, 1 credit, Honors weighted GPA

In this Honors course, students cover the same standards as the English 1 course but with greater depth and complexity. Students will read assorted texts in multiple genres, and will compose literary and informational texts. Additionally, students will use inquiry and research to locate relevant sources and to evaluate, synthesize, and present ideas and information.

Prerequisite: None

Humanities I/English I GT (Honors English I)

GTHU1A/B

Grade 9 GT only, 1 credit, Honors weighted GPA

Humanities I/English I GT and Humanities II/World History AP GT are courses that provide identified gifted students with opportunities not available through on-level or advanced classes. The courses combine Honors English I with AP World History in a two-year interdisciplinary spiral. The basic content is a historical study of the commonalities of the fine arts, including literature, the visual arts, architecture, and music. Humanities I focuses on the period up to the Renaissance; Humanities II examines the Renaissance to modern times. Students will learn and practice the craft of writing through various products, including AP style writing. Literature from a variety of world traditions will also be a key focus. Ninth graders will earn Honors English I credit while tenth graders earn AP World History credit. At the conclusion of Humanities II, students can sit for the AP World History to possibly earn college credit.

Humanities does not fulfill the fine arts requirement for graduation.

Prerequisite: PISD GT Identification

English for Speakers of Other Languages (ESOL) I

EN150A/B

Grade 9, 1 credit, On-Level weighted GPA

ESOL I is a linguistically accommodated English I course for beginner and intermediate level Emergent Bilingual students receiving ESL services. The course is aligned to the English I TEKS and designed to provide differentiation, scaffolds, and targeted teaching strategies for English learners. Students will acquire academic language and develop listening, speaking, reading, and writing skills in English. *Completion of this course fulfills the state English I graduation requirement.*

Prerequisite: LPAC Recommendation

English II

EN200A/B

Grade 10, 1 credit, On-Level weighted GPA

This course builds on skills from freshman English. Students will read assorted texts in multiple genres with an emphasis on world literature. Additionally, students will compose literary and informational texts and will use inquiry and research to locate relevant sources and to evaluate, synthesize, and present ideas and information. *Completion of this course also fulfills the state requirement indicating proficiency in the major components of Speech.*

Prerequisite: None

Honors English II

EN210A/B

Grade 10, 1 credit, Honors weighted GPA

In this Honors course, students cover the same standards as the English 2 course but with greater depth and complexity. Students will read assorted texts in multiple genres with an emphasis on world literature. Additionally, students will compose literary and informational texts and will use inquiry and research to locate relevant sources and to evaluate, synthesize, and present ideas and information. *Completion of this course also fulfills the state requirement indicating proficiency in the major components of speech.*

Prerequisite: None

**Humanities II/ World History AP GT
(AP World History)**

GTHU2A/B

Grade 10 GT only, 1 credit, AP/DC weighted GPA

Humanities I/English I GT and Humanities II/World History AP GT are courses that provide identified gifted students with opportunities not available through on-level or advanced classes. The courses combine Honors English I with AP World History in a two-year interdisciplinary spiral. The basic content is a historical study of the commonalities of the fine arts, including literature, the visual arts, architecture, and music. Humanities I focuses on the period up to the Renaissance; Humanities II examines the Renaissance to modern times. Students will learn and practice the craft of writing through various products, including AP style writing. Literature from a variety of world traditions will also be a key focus. Ninth graders will earn Honors English I credit while tenth graders earn AP World History credit. At the conclusion of Humanities II, students can sit for the AP World History to possibly earn college credit.

Humanities does not fulfill the fine arts requirement for graduation.

Prerequisite: Humanities I and PISD GT Identification

English for Speakers of Other Languages (ESOL) II

EN250A/B

Grade 10, 1 credit, On-Level weighted GPA

ESOL II is a linguistically accommodated English II course for beginner and intermediate level Emergent Bilingual students receiving ESL services. The course is aligned to the English II TEKS and designed to provide differentiation, scaffolds, and targeted teaching strategies for English learners. Students will acquire academic language and develop listening, speaking, reading, and writing skills in English. *Completion of this course fulfills the state English II graduation requirement. Completion of this course also fulfills the state requirement indicating proficiency in the major components of speech.*

Prerequisite: LPAC recommendation

English III

EN300A/B

Grade 11, 1 credit, On-Level weighted GPA

This course builds on skills from previous years. Students will read assorted texts in multiple genres with an emphasis on American literature. Additionally, students will compose literary and informational texts and will use inquiry and research to locate relevant sources and to evaluate, synthesize, and present ideas and information.

Prerequisite: None

AP English III

EN320A/B

Grade 11, 1 credit, AP/DC weighted GPA

Advanced Placement English Language and Composition engages students in becoming skilled readers of complex prose written in a variety of rhetorical contexts while providing students opportunities to compose prose of sufficient complexity commensurate with a college freshman. Students will read critically, think analytically, and communicate clearly. This course includes AP preparation, test taking strategies, and outside readings.

Prerequisite: None

GT American Studies

GTEN3A/B

Grade 11, 2 credits, AP/DC weighted GPA

American Studies is a one-year, double-blocked course that combines the Advanced Placement US History (APUSH) and Advanced Placement English Language and Composition (APLANG) courses with the study of American humanities and culture. As the next step after 9th/10th grade Humanities in the Prosper ISD Gifted and Talented program, it focuses on the philosophical underpinnings of American writing and thought, along with an understanding of the historical climate associated with that writing. The materials used by the teachers result in cognition on many levels; lecture, inquiry, group activities, and computer assignments address different learning styles. Discussion participation, careful writing and critical reading are significant elements for this course, along with the implementation of Gifted and Talented strategies.

Prerequisite: PISD GT Identification

English IV

EN400A/B

Grade 12, 1 credit, On-Level weighted GPA

This course builds on skills from previous years. Students will read assorted texts in multiple genres with an emphasis on British literature. Additionally, students will compose literary and informational texts and will use inquiry and research to locate relevant sources and to evaluate, synthesize, and present ideas and information.

Prerequisite: None

English IV - CCR

EN400A/B

Grade 12, 2 credits, 1 credit On-Level weighted GPA and 1 credit Pass/Fail

EN4CPA/B

English IV College and Career Ready is developed in conjunction with Collin College to prepare students for college level English while still addressing the English IV TEKS. *Completion of this course fulfills the state English IV graduation requirement.* Successful completion of this course waives the requirement to take the Texas Success Initiative (TSI) placement test (entrance exam) at Collin College. *Students who have met TSI criteria in English are not eligible to enroll in this course.

Prerequisite: English III and Counselor Approval*

AP English IV

EN420A/B

Grade 12, 1 credit, AP/DC weighted GPA

Advanced Placement Literature and Composition engages students in the critical analysis of imaginative literature, deepening their understanding of a work's structure, style, and themes. Writing instruction includes developing and organizing ideas in clear, coherent, and persuasive language, characteristics commensurate with the stylistic maturity of a college sophomore. This course includes AP preparation, test taking strategies and outside readings.

Prerequisite: None

**Dual Credit English IIIA or IVA
(Composition I ENGL 1301)**

EN3210

EN431A

Grade 11-12, 0.5 credit, AP/DC weighted GPA, 3 College Hours

This course takes the place of English 3 or 4, depending on which year it is taken. This is a college freshman English course divided into two semesters with an emphasis on expository writing, development of paragraphs and the whole composition, extensive theme writing, individual conferences and a departmental final exam. The second course continues with the development of critical thinking skills in argumentation, analysis and interpretation of various types of literature, extensive reading and writing, MLA documentation, study of research methods and materials, and preparation of a research paper. Students are expected to write extensively, both in and out of class.

Prerequisite: College acceptance and registration required

Corequisites: If you take this course, you must also take EN3220/EN431B - (ENGL 1302)

**Dual Credit English IIIB or IVB
(Composition II ENGL 1302)**

EN3220

EN431B

Grade 11-12, 0.5 credit, AP/DC weighted GPA, 3 College Hours

This course takes the place of English 3 or 4, depending on which year it is taken. This is a college freshman English course divided into two semesters with an emphasis on expository writing, development of paragraphs and the whole composition, extensive theme writing, individual conferences and a departmental final exam. The second course continues with the development of critical thinking skills in argumentation, analysis and interpretation of various types of literature, extensive reading and writing, MLA documentation, study of research methods and materials, and preparation of a research paper. Students are expected to write extensively, both in and out of class.

Prerequisite: College acceptance and registration required

Corequisites: If you take this course, you must also take EN3210/EN431A -(ENGL 1301)

Dual Credit English IVA

EN430A

(ENGL 2322 British Literature I)

Grade 12, 0.5 credit, AP/DC weighted GPA. 3 College Hours

A survey of the development of British literature from the Anglo-Saxon period to the Eighteenth Century. Students will study works of prose, poetry, drama, and fiction in relation to their historical, linguistic, and cultural contexts. Texts will be selected from a diverse group of authors and traditions.

Prerequisite: ENGL 1302, college acceptance and registration required

Corequisites: If you take this course, you must also take ENGL 2323.

Dual Credit English IVB

EN430B

(ENGL 2323 British Literature II)

Grade 12, 0.5 credit, AP/DC weighted GPA, 3 College Hours

A survey of the development of British literature from the Romantic period to the present. Students will study works of prose, poetry, drama, and fiction in relation to their historical and cultural contexts. Texts will be selected from a diverse group of authors and traditions.

Prerequisite: ENGL 2322, college acceptance and registration required

Corequisites: If you take this course, you must also take ENGL 2322.

English Language Arts: Electives**Debate I**

DEBA1A/B

Grade 9-12, 1 credit, Honors weighted GPA

Students will learn the basics of Lincoln Douglas, Congress, Cross Examination, and Public Forum debates. Students will be introduced to major theories of philosophy and the fundamentals of government policymaking. Students involved in the class will be required to work all Prosper UIL and TFA Academic and Speech/Debate tournaments and attend and compete in multiple tournaments at other locations throughout the year. Advanced research and writing are part of the course which will greatly benefit students in high school, college, and beyond.

Prerequisite: None

Debate II

DEBA2A/B

Grade 10-12, 1 credit, Honors weighted GPA

This class is an intensive study and participation in the art of speech and debate. Students involved in the class will be required to work all Prosper UIL and TFA Academic and Speech/Debate tournaments and to attend and compete in multiple tournaments at other locations throughout the year. Advanced research and writing are part of the course which will greatly benefit students in high school, college, and beyond.

Prerequisite: Debate I

Debate III

DEBA3A/B

Grade 11-12, 1 credit, Honors weighted GPA

This class is an intensive study and participation in the art of speech and debate. Students involved in the class will be required to work all Prosper UIL and TFA Academic and Speech/Debate tournaments and attend and compete in multiple tournaments at other locations throughout the year. Advanced research and writing are part of the course which will greatly benefit students in high school, college, and beyond.

Prerequisite: Debate II

Debate IV

DEBA4A/B

Grade 11-12, 1 credit, Honors weighted GPA

This class is an intensive study and participation in the art of speech and debate. Students involved in the class will be required to work all Prosper UIL and TFA Academic and Speech/Debate tournaments and attend and compete in multiple tournaments at other locations throughout the year. Advanced research and writing are part of the course which will greatly benefit students in high school, college, and beyond.

Prerequisite: Debate III

Creative Writing

CREAWA/B

Grade 11-12, 1 credit, On-Level weighted GPA

This course, which serves as an elective, is a rigorous composition course where students hone their writing skills in a variety of forms and genres through a writing workshop environment. The course has two sections with each section lasting one semester: creative writing and publication. The creative writing semester emphasizes the use of the writing process and the effective application of the conventions of language along with self- and peer-evaluation and goal-setting. The publication semester works with students on the business of writing- how to find your audience, the rewrite process, and the process of publishing a work. The students will create and publish a school literary journal each semester to showcase their learning in addition to submitting works to various contests and magazines. This class can count as English IV under the Foundation Plan or Distinguished Level of Achievement Plan.

Prerequisite: None

Mathematics

Prosper ISD Math Program

- *AP Statistics can be taken concurrently with any math course after Algebra 2, and is a great AP option for students considering non-STEM fields.
- **These courses are intended for seniors only, fulfilling the fourth math credit requirement.

Mathematics Core Classes

Algebra I

MA100A/B

Grade 9, 1 credit, On-Level weighted GPA

This course is designed to transfer understanding of properties and operations of the real number system, as well as proportionality, to the use of algebraic expressions, equations, and inequalities. Students use the graphs of linear, quadratic, and exponential functions, and their equations, to solve problems using concrete manipulatives, calculator and computer technology, and algebraic thinking and problem solving.

Prerequisite: Math 8

Honors Algebra I

MA110A/B

Grade 9, 1 credit, Honors weighted GPA

This course addresses all of the concepts presented in the Algebra 1 class described above with a great emphasis on depth and complexity and moving quickly through foundational knowledge to application of the standards.

Prerequisite: Math 8

Geometry

MA200A/B

Grade 9-10, 1 credit, On-Level weighted GPA

Geometry is designed to develop an understanding of the basic structure of plane and spatial geometry. Students will develop the ability to analyze geometric relationships, make and verify conjectures, apply logical reasoning to justify and prove mathematical statements, and use a variety of representations to describe geometric relationships and solve problems. This course allows students to apply algebraic skills in a logical and concrete manner.

Prerequisite: Algebra I

Honors Geometry

MA210A/B

Grade 9-10, 1 credit, Honors weighted GPA

This course addresses all of the concepts presented in the Geometry class described above with a great emphasis on depth and complexity and moving quickly through foundational knowledge to application of the standards.

Prerequisite: Algebra I

GT Geometry

MA212A/B

Grade 9, 1 credit, Honors weighted GPA

This course offers identified GT students the opportunity to work with GT peers in a Geometry class. It contains all the concepts presented in the Geometry course with a great emphasis on depth and complexity and moving quickly through foundational knowledge to application of the standards. Students will learn to appreciate the moral, social, and ethical questions arising from the work of mathematicians and the application of mathematics.

Prerequisite: Algebra I and Prosper ISD GT Identification

Algebra II

MA300A/B

Grade 10-12, 1 credit, On-Level weighted GPA

Students will build on the knowledge and skills for mathematics learned in Algebra I to broaden their knowledge of quadratic functions, exponential functions, and systems of equations. They will expand their knowledge of functions to include logarithmic, radical, polynomial, absolute value, rational functions, and their related equations. Students will connect functions to their inverses and associated equations and solutions in both mathematical and real-world situations. In addition, students will extend their knowledge of data analysis and numeric and algebraic methods.

Prerequisite: Algebra I

Recommended Prerequisite: Geometry

Honors Algebra II

MA310A/B

Grade 9-12, 1 credit, Honors weighted GPA

This course addresses all of the concepts presented in the Algebra 2 class described above with a great emphasis on depth and complexity and moving quickly through foundational knowledge to application of the standards.

Prerequisite: Algebra I

Recommended Prerequisite: Geometry

Algebraic Reasoning

MA3ARA/B

Grade 11, 1 credit, On-Level weighted GPA

Students will continue to develop understanding of algebraic relationships, representations, and processes, in this course, that will strengthen their foundation for studies in subsequent mathematics courses. They will broaden their knowledge of functions and relationships, including linear, quadratic, square root, rational, cubic, cube root, exponential, absolute value, and logarithmic functions. Students will study these functions through analysis and application that includes explorations of patterns and structure, number and algebraic methods, and modeling from data using tools that build workforce and college readiness such as probes, measurement tools, and software tools, including spreadsheets.

This course must be taken before Algebra II. Enrollment is limited to students who have demonstrated that they are at risk of not passing Algebra II.

Prerequisite: Algebra I

Advanced Quantitative Reasoning

MA4QRA/B

Grade 12, 1 credit, On-Level weighted GPA

Students will develop and apply the skills necessary for college, careers, and life. Course content consists primarily of applications of high school mathematics concepts. Students will develop and apply reasoning, planning, and communication, to make decisions and solve problems in situations involving numerical reasoning, probability, statistical analysis, finance, mathematical selection, and modeling with algebra, geometry, trigonometry, and discrete mathematics.

Prerequisites: Geometry and Algebra II

Statistics

MA4STA/B

Grade 11-12, 1 credit, On-Level weighted GPA

This course will cover the basics of statistics, which is a branch of mathematics required in almost all college majors. This course is recommended for students who need to fulfill a 4th math credit and are planning to attend college.

Prerequisite: Algebra I

Recommended Prerequisites: Geometry and Algebra II

AP Statistics

MA4ASA/B

Grade 10-12, 1 credit, AP/DC weighted GPA

The AP Statistics course introduces students to the major concepts and tools for collecting, analyzing, and drawing conclusions from data. Students are exposed to four broad conceptual themes: exploring data; sampling and experimentation; anticipating patterns; and statistical inference. This course fulfills the fourth credit of math.

Prerequisites: Algebra I, Geometry and Algebra II

Precalculus

MA400A/B

Grade 11-12, 1 credit, On-Level weighted GPA

This course is designed to strengthen and enhance conceptual understanding and mathematical reasoning used when modeling and solving mathematical and real-world problems. Students systematically work with functions and their multiple representations. The study of Precalculus deepens students' mathematical understanding and fluency with algebra and trigonometry and extends their ability to make connections and apply concepts and procedures at higher levels. Students investigate and explore mathematical ideas, develop multiple strategies for analyzing complex situations, use technology to build understanding, make connections between representations, and provide support in solving problems.

Prerequisites: Algebra I, Geometry and Algebra II

AP Precalculus

MA422A/B

Grade 10-12, 1 credit, AP/DC weighted GPA

AP Precalculus centers on functions modeling dynamic phenomena. This research-based exploration of functions is designed to better prepare students for college-level calculus and provide grounding for other mathematics and science courses. In this course, students study a broad spectrum of function types that are foundational for careers in mathematics, physics, biology, health science, social science, and data science. Furthermore, as AP Precalculus may be the last mathematics course of a student's secondary education, the course is structured to provide a coherent capstone experience and is not exclusively focused on preparation for future courses.

Prerequisites: Algebra I, Geometry and Algebra II

AP Calculus AB

MA420A/B

Grade 11-12, 1 credit, AP/DC weighted GPA

This course is designed to introduce students to the four major topics in calculus: functions and graphs, limits and continuity, differential calculus and integral calculus. At the end of this course, students can take the Advanced Placement examination for an opportunity to earn college credit in Calculus. Upon completion of AP Calculus AB, students who are not pursuing a STEM field in college are recommended to take AP Statistics.

Prerequisites: Precalculus or AP Precalculus

AP Calculus BC

MA421A/B

Grade 11-12, 1 credit, AP/DC weighted GPA

Calculus BC is a full-year course in the calculus of functions of a single variable. Calculus BC covers all the topics in Calculus AB, but is more extensive. Students cover the additional topics of vector functions, polar coordinates, and Epsilon-delta proofs. The course represents college-level mathematics for which most colleges grant advanced placement and/or credit in Calculus. It is not recommended for students to take both AP Calculus AB and AP Calculus BC as students who previously completed AP Calculus AB will repeat content during the first semester of AP Calculus BC.

Prerequisite: AP Precalculus

MATH 1314 College Algebra - Dual Credit

MA435A

Grade 11-12, 0.5 credit, AP/DC weighted GPA, 3 College Hours

College Algebra focuses on relations and functions: linear, polynomial, rational, exponential, logarithmic and inverse functions, composition of functions, absolute value, theory and systems of equations, complex numbers, matrices, sequences, and the binomial theorem. College Acceptance is required.

Prerequisite: Geometry and Algebra II, MATH 0314 with a grade of C or better, or MATH 0324 with a grade of C or better, or meet TSI college-readiness standard for Mathematics; or equivalent. College acceptance and registration required.

Recommended Corequisite: MATH 1342 Elementary Statistical Methods (Spring Semester)

MATH 1342 Elementary Statistical Methods - Dual Credit

MA435B

Grade 11-12, 0.5 credit, AP/DC weighted GPA, 3 College Hours

College Statistics focuses on data collection and tabulations, measures of central tendency, correlation, linear regression, statistical distributions, probability, and hypothesis testing with applications in various fields. College acceptance and registration required.

Prerequisite: Geometry and Algebra II, MATH 0314 with a grade of C or better, or MATH 0324 with a grade of C or better, or meet TSI college-readiness standard for Mathematics; or equivalent.

Recommended Corequisite: MATH 1314 College Algebra (Fall Semester)

MATH 1324 Mathematics for Business and Social Sciences - Dual Credit

MA4222

Grade 11-12, 0.5 credit, AP/DC weighted GPA, 3 College Hours

The application of common algebraic functions, including polynomial, exponential, logarithmic, and rational, to problems in business, economics, and the social sciences are addressed. The applications include mathematics of finance, including simple and compound interest and annuities; systems of linear equations; matrices; linear programming; and probability, including expected value. Graphing calculator required. Lab required.

Prerequisite: MATH 0314 with a grade of C or better, or MATH 0324 with a grade of C or better, or meet TSI college-readiness standard for Mathematics; or equivalent; college acceptance and registration required.

Recommended Corequisite: MATH 1325 Calculus for Business and Social Sciences (Spring Semester)

MATH 1325 Calculus for Business and Social Sciences - Dual Credit

MA4223

Grade 11-12, 0.5 credit, AP/DC weighted GPA, 3 College Hours

This course is the basic study of limits and continuity, differentiation, optimization and graphing, and integration of elementary functions, with emphasis on applications in business, economics, and social sciences. Graphing calculator required. Lab required.

Prerequisite: MATH 1314, or MATH 1324; or equivalent. college acceptance and registration required.

Recommended Corequisite: MATH 1324 Calculus for Business and Social Sciences (Fall Semester)

MATH 2415 Calculus III - Dual Credit

MA4220

Grade 12, 0.5 credit, AP/DC weighted GPA, 4 College Hours

Calculus III focuses on advanced topics in Calculus including vectors and vector-valued functions, partial differentiation, Lagrange multipliers, multiple integrals, and Jacobians; application of the line integral, including Green's Theorem, the Divergence Theorem, and Stokes' Theorem.

Prerequisite: AP score of 4 or 5 on Calculus (BC), college acceptance and registration required

Corequisite: MATH 2320 Differential Equations (Spring Semester)

MATH 2320 Differential Equations - Dual Credit

MA4221

Grade 12, .5 credit, AP/DC weighted GPA, 3 College Hours

Differential Equations focuses on linear equations, systems of equations, equations with variable coefficients, existence and uniqueness of solutions, series solutions, singular points, transform methods, and boundary value problems; application of differential equations to real-world problems.

Prerequisite: AP score of 4 or 5 on Calculus (BC), college acceptance and registration required

Corequisite: MATH 2415 Calculus III (Fall Semester)

College and Career Ready Math

MA4CPA/B

Grade 12, 1 credit, On-Level weighted GPA

College and Career Ready Math is designed in conjunction with Collin College to cover the content of the Collin College developmental (remedial, non-credit) math courses. Topics include a study of relations, functions, inequalities, algebraic expressions and equations (linear, polynomial, radical, rational), with a special emphasis on linear and quadratic expressions and equations. This course fulfills students' requirement for a fourth mathematics credit under the Foundation Plan or Distinguished Level of Achievement Plan. Successful completion of this course earns a Texas Success Initiative (TSI) exemption at Collin College. Students will also take the Texas Success Initiative Assessment (TSIA). *Students who have met TSI criteria in math are not eligible to enroll in this course.

Prerequisite: Algebra II and Counselor Approval*

CTE Courses for Math Credit**AP Computer Science A**

MA520A/B

Grade 10-12, 2 credits, AP/DC weighted GPA

FCSAPA/B

This course offers an emphasis on object-oriented programming methodology with a concentration on problem solving and algorithm development, and is meant to be the equivalent of a first semester college-level course in Computer Science. The course includes the study of data structures, design, and abstraction using the Java programming language. Students who take AP courses should take the AP exam in May. This course fulfills the fourth credit of math. Course Note: Two credits in computer programming which includes, Computer Science I, II, AP Computer Science Principles, and AP Computer Science A may be used to satisfy the World Languages graduation requirements. Check with the college you plan on attending to see if this will count for admissions.

Recommended Prerequisite: Honors Computer Science I

Prerequisite: Algebra I

Accounting II

ACCT2A/B

Grade 11-12, 1 credit, On-Level weighted GPA

Students create, analyze, and interpret financial information including the creation of financial statements and financial ratios. This course provides opportunities to earn a certification in QuickBooks. This course fulfills the fourth math credit.

Prerequisite: Accounting I

Manufacturing Engineering Technology II

MENT2A/B

Grade 11-12, 1 credit, On-Level weighted GPA

The study of Manufacturing Engineering Technology II will allow students to reinforce, apply, and transfer academic knowledge and skills to a variety of interesting and relevant activities, problems, and settings. Students will use metal lathe, CNC vertical milling machines. Past year examples projects are machinist hammer, stirring engine, chess pieces, as well as several parts to be used in the Solar Car or FIRST Robotic Competition. This course fulfills the fourth math credit

Prerequisite: Manufacturing Engineering I

Science

Prosper ISD Science Track

Science Core Courses

Biology

SC100A/B

Grade 9, 1 credit, On-Level weighted GPA

Biology focuses on patterns, processes, and relationships of living organisms through four main concepts: biological structures, functions, and processes; mechanisms of genetics; biological evolution; and interdependence within environmental systems. The scientific process and laboratory skills are emphasized along with connections to other scientific disciplines. *Completion of this course also fulfills the state requirement for cardiopulmonary resuscitation (CPR) training.*

Prerequisite: None

Honors Biology

SC110A/B

Grade 9, 1 credit, Honors weighted GPA

Honors Biology covers the same objectives as Biology in more depth and complexity. This course also prepares students for Advanced Placement Biology. *Completion of this course also fulfills the state requirement for cardiopulmonary resuscitation (CPR) training.*

Prerequisite: None

Chemistry

SC200A/B

Grade 10, 1 credit, On-Level weighted GPA

Chemistry is a laboratory science course that focuses on characteristics of matter, energy transformations, atomic structure, behavior of gasses, bonding, solutes, and chemical reactions. The scientific process and laboratory skills are emphasized along with connections to other scientific disciplines.

Prerequisite: One high school science and Algebra I

Honors Chemistry

SC210A/B

Grade 10, 1 credit, Honors weighted GPA

Chemistry is a laboratory science course that focuses on characteristics of matter, energy transformations, atomic structure, behavior of gasses, bonding, solutes, and chemical reactions. The scientific process and laboratory skills are emphasized along with connections to other scientific disciplines. Honors Chemistry covers the same objectives as Chemistry in more depth and complexity.

Prerequisite: One high school science and Algebra I

AP Biology

SC120A/B

Grade 11-12, 1 credit, AP/DC weighted GPA

AP Biology is an advanced, lab-based course that provides a college-level foundation to support future advanced coursework in life science. Students cultivate their understanding of biology through inquiry-based investigations as they explore the following topics: evolution, cellular processes, energy and communication, genetics, information transfer, ecology, and interactions.

Prerequisite: Biology or Honors Biology and Chemistry or Honors Chemistry

Integrated Physics & Chemistry (IPC)

SC000A/B

Grade 10, 1 credit, On-Level weighted GPA

In Integrated Physics and Chemistry, students conduct laboratory investigations and draw conclusions using critical thinking and scientific problem solving. This course covers the foundational concepts of physics and chemistry. Students must be recommended for placement in IPC as extra preparation for chemistry and physics courses.

Prerequisite: None

Earth Systems Science

ESSCIA/B

Grade 11-12, 1 credit, On-Level weighted GPA

Earth Systems Science is designed to build on students' prior scientific and academic knowledge and skills to develop their understanding of Earth's systems. These systems (the atmosphere, hydrosphere, geosphere, and biosphere) interact through time to produce the Earth's landscapes, climate, and resources. Students explore the geologic history of individual dynamic systems through the flow of energy and matter, their current states, and how these systems affect and are affected by human use.

Note: With the implementation of our new TEKS in 2024, the Earth and Space Science course becomes Earth Systems Science which does not include a space science component.

Prerequisite: Algebra I and two credits of high school science

AP Chemistry

SC220A/B

Grade 11-12, 1 credit, AP/DC weighted GPA

AP Chemistry is an advanced, lab-based course that provides a college-level foundation to support post-secondary coursework in chemistry. Students cultivate their understanding of chemistry through inquiry-based investigations as they explore topics such as: atomic structure, intermolecular forces and bonding, chemical reactions, kinetics, thermodynamics, and equilibrium.

Prerequisite: Chemistry or Honors Chemistry and Algebra II

Physics

SC300A/B

Grade 11-12, 1 credit, On-Level weighted GPA

Physics is a laboratory science course that covers laws of motion, conservation of energy and momentum, force, thermodynamics, characteristics and behavior of waves, electricity and magnetism, and quantum physics. This course provides students with a conceptual and mathematical foundation of physics content in addition to building analytical and scientific skills.

Prerequisite: Algebra 1

AP Physics 1

SC321A/B

Grade 10-12, 1 credit, AP/DC weighted GPA

AP Physics 1 is an advanced, lab-based course that provides a college-level foundation to support future advanced coursework in physical science. Students cultivate their understanding of physics through inquiry-based investigations as they explore these topics: kinematics, dynamics, circular motion and gravitation, energy, momentum, simple harmonic motion, torque and rotational motion, electric charge and electric force, DC circuits, and sound. AP Physics 1 is a first year, algebra-based physics course.

Prerequisite: Algebra I and Geometry

Corequisite: Chemistry and PreCalculus or Algebra II

Environmental Systems

ENVSYA/B

Grade 11-12, 1 credit, On-Level weighted GPA

In Environmental Systems, students conduct field and laboratory investigations and draw conclusions using critical thinking and scientific problem solving. Students study a variety of topics that include: biotic and abiotic factors in habitats, ecosystems and biomes, interrelationships among resources and an environmental system, sources and flow of energy through an environmental system, relationship between carrying capacity and changes in populations and ecosystems, and changes in environments.

Prerequisite: Biology and either IPC or Chemistry

AP Physics C

SC320A/B

Grade 12, 2 credits (1 period), AP/DC weighted GPA

AP Physics C is a calculus-based course that provides a college-level foundation to support post-secondary coursework in physical science. Investigations include topics in classical mechanics during the fall and studies of electricity and magnetism in the spring. This course will prepare students to take both the Physics C: Mechanics and Physics C: Electricity and Magnetism examinations offered by the College Board.

Prerequisite: AP Physics 1 or Physics

Corequisite: Calculus

AP Environmental Science

SC420A/B

Grade 11-12, 1 credit, AP/DC weighted GPA

AP Environmental Science is a lab-based course that provides students with the scientific principles, concepts, and methodologies required to understand the interrelationships of the natural world. Students will be expected to identify and analyze environmental problems both natural and human-made, evaluate the relative risks associated with these problems, and examine alternative solutions for resolving or preventing them. Environmental science is interdisciplinary and embraces a wide variety of topics from different areas of study.

Prerequisite: Biology and Chemistry

Biology for Non-Science Majors: BIOL 1408- Dual Credit

SC130A

Grade 11-12, 0.5 credit, AP/DC weighted GPA, 4 College Hours.

Lecture: Provides a survey of biological principles with an emphasis on humans, including chemistry of life, cells, structure, function, and reproduction. Lab: Laboratory activities will reinforce a survey of biological principles with an emphasis on humans, including chemistry of life, cells, structure, function, and reproduction. This course includes a lab and is taught at Collin College in Celina.

Prerequisite: College acceptance and registration required

Corequisites: If you take this course, you must also take BIOL 1409

Biology for Non-Science Majors II: BIOL 1409- Dual Credit

SC130B

Grade 11-12, 0.5 credit, AP/DC weighted GPA, 4 College Hours.

Lecture: This course will provide a survey of biological principles with an emphasis on humans, including evolution, ecology, plant and animal diversity, and physiology. Lab: Laboratory activities will reinforce a survey of biological principles with an emphasis on humans, including evolution, ecology, plant and animal diversity, and physiology. Lab required. Prerequisite: BIOL 1408. 4 college hours. Note: This course includes dissection in the lab and is taught at Collin College in Celina.

Prerequisite: College acceptance and registration required

Corequisites: If you take this course, you must also take BIOL 1408

GEOL 1403 Physical Geology for Non-Science Majors - Dual Credit

SC430A

Grade 11-12, 0.5 credit, AP/DC weighted GPA, 4 College Hours.

Lecture: Introduction to the study of the materials and processes that have modified and shaped the surface and interior of Earth over time. These processes are described by theories based on experimental data and geologic data gathered from field observations. Lab: Laboratory activities will cover methods used to collect and analyze earth science data. Lab required. This course includes a lab and is taught at Collin College in Celina.

Prerequisite: TSI Math score of 910-949 with a diagnostic score of 5, and TSI college-readiness standard for Reading and Writing; or equivalent. College acceptance and registration required

Recommended Corequisite: PHYS 1404 Solar System for Non - Science Majors

PHYS 1404 Solar System for Non - Science Majors- Dual Credit

SC430B

Grade 11-12, 0.5 credit, AP/DC weighted GPA, 4 College Hours.

Introduction to the solar system; basic tools and concepts in astronomy and physics are discussed. Subjects studied include planets, moons, asteroids, comets, solar system formation, and solar system exploration. Laboratory exercises, night observations, planetarium and observatory visits combine to enhance lecture material. Lab required. This course includes a lab and is taught at Collin College in Celina.

Prerequisite: TSI Math score of 910-949 with a diagnostic score of 5, and TSI college-readiness standard for Reading and Writing; or equivalent. College acceptance and registration required

Recommended Corequisite: GEOL 1403 Physical Geology for Non-Science Majors

CTE Courses for Science Credit**Anatomy & Physiology**

ANPHYA/B

Grade 10-12, 1 credit, Honors weighted GPA

In Anatomy and Physiology, students conduct laboratory and field investigations and make informed decisions using critical thinking and scientific problem solving. Students study a variety of topics, including the structure and function of the human body and the interaction of body systems for maintaining homeostasis.

Prerequisite: Biology

Engineering Science

PRENGA/B

Grade 11-12, 1 credit, Honors weighted GPA

Students explore a broad range of engineering topics including mechanisms, strength of structure and materials, and automation, and then they apply what they know to take on challenges

Prerequisite: Introduction to Engineering Design, Algebra I, Biology

Forensic Science

FORSCA/B

Grade 11-12, 1 credit, On-Level weighted GPA

Forensic science is the application of multiple scientific disciplines to the investigation of criminal or civil questions of the law. Students combine the use of biology, human anatomy, chemistry, and physics to analyze and interpret evidence within the realm of our legal system. Students use scientific inquiry and the process of forensic investigation and apply knowledge of investigation to the analysis of trace evidence (hair, fiber, etc.), fingerprints, DNA, and blood. Students will use scientific inquiry, social ethics, science ethics and scientific study for analysis.

Prerequisite: Biology and Chemistry

Pathophysiology

PATHPA/B

Grade 11-12, 1 credit, Honors weighted GPA

Students study disease processes and how humans are affected. Emphasis is placed on prevention and treatment of disease. Students will differentiate between normal and abnormal physiology.

Prerequisite or concurrent enrollment: Anatomy and Physiology

Social Studies

Prosper ISD Social Studies Track

Prosper ISD Social Studies Electives

Grades 9-12	Grades 10-12	Grades 11-12
Old & New Testament Studies	*Mexican American Studies	AP Psychology
	*African American Studies	
	Psychology	
	Sociology	
	AP European History	
	Personal Financial Literacy	

***can be taken as an elective or in place of World History**

*Social studies electives can be taken concurrently with the required social studies classes. Through PISD social studies course work, students will demonstrate proficiency in: delivering clear verbal messages, choosing effective nonverbal behaviors, listening for desired results, applying valid critical-thinking and problem-solving processes, identifying, analyzing, developing, and evaluating verbal and non-verbal communication skills needed for professional and social success in interpersonal situations, group interactions, and personal and professional presentations.

Social Studies Core Classes

World Geography

SS100A/B

Grade 9, 1 credit, On-Level weighted GPA

This course examines people, places, and environments at local, regional, national, and international scales from the spatial and ecological perspectives of geography. Students describe the influence of geography on the events of the past and present with an emphasis on contemporary issues. A significant portion of the course centers around the physical processes that shape patterns in the physical environment. *Completion of this course also fulfills the state requirements regarding Instruction on Proper Interaction with Peace Officers.*

Prerequisite: None

Honors World Geography

SS110A/B

Grade 9, 1 credit, Honors weighted GPA

This course examines people, places, and environments at local, regional, national, and international scales from the spatial and ecological perspectives of geography. Students describe the influence of geography on the events of the past and present with an emphasis on contemporary issues. A significant portion of the course centers around the physical processes that shape patterns in the physical environment. Content is presented with more depth and breadth than World Geography, with an emphasis on learning, writing, and analytical skills. *Completion of this course also fulfills the state requirements regarding Instruction on Proper Interaction with Peace Officers.*

Prerequisite: None

AP Human Geography

SS120A/B

Grade 9-12, 1 credit, AP/DC weighted GPA

AP Human Geography is a college-level course that introduces students to the systematic study of patterns and processes that have shaped human understanding, use, and alteration of Earth's surface. Students employ spatial concepts and landscape analysis to examine human social organization and its environmental consequences. They also learn about the methods and tools geographers use in their science and practice. This course fulfills the world geography requirement.

Completion of this course also fulfills the state requirements regarding Instruction on Proper Interaction with Peace Officers.

Prerequisite: None

World History

SS200A/B

Grade 10, 1 credit, On-Level weighted GPA

This course is a survey of the history of humankind. The major emphasis is on the study of significant people, events, and issues from the earliest times to the present. Traditional historical points of reference in world history are identified as students analyze important events and issues in western civilization as well as in civilizations in other parts of the world.

Prerequisite: None

AP World History

SS220A/B

Grade 10, 1 credit, AP/DC weighted GPA

In AP World History, students investigate significant events, individuals, developments, and processes from 1200 to the present. Students develop and use the same skills, practices, and methods employed by historians: analyzing primary and secondary sources; developing historical arguments; making historical connections; and utilizing reasoning about comparison, causation, and continuity and change over time. The course provides six themes that students explore throughout the course in order to make connections among historical developments in different times and places: humans and the environment, cultural developments and interactions, governance, economic systems, social interactions and organization, and technology and innovation.

Prerequisite: None

Ethnic Studies: African American Studies

SSAASA/B

Grade 10-12, 1 credit, On-level weighted GPA

In this course, students will learn about the history and cultural contributions of African Americans. This course is designed to assist students in understanding issues and events from multiple perspectives. This course develops an understanding of the historical roots of African American culture, especially as it pertains to social, economic, and political interactions within the broader context of United States history. It requires an analysis of important ideas, social and cultural values, beliefs, and traditions. Knowledge of past achievements provides citizens of the 21st century with a broader context within which to address the many issues facing the United States. **This course can be substituted for World History in 10th Grade or taken as an elective.**

Ethnic Studies: Mexican American Studies

SSMASA/B

Grade 10-12, 1 credit, On-level weighted GPA

In this course, students will learn about the history and cultural contributions of Mexican Americans from an interdisciplinary perspective. Students will interact with a variety of primary and secondary sources such as relevant videos, literature, art, songs and other media. The course emphasizes events in the 20th and 21st centuries, but students will also engage with events prior to the 20th century. **This course can be substituted for World History in 10th Grade or taken as an elective.**

Humanities I/English I GT (Honors English I)

GTHU1A/B

Grade 9 GT only, 1 credit, Honors weighted GPA,

Humanities I/English I GT and Humanities II/World History AP GT are courses that provide gifted students with opportunities not available through regular or advanced classes. The courses combine Honors English I with AP World History in a two-year interdisciplinary spiral. The basic content is a historical study of the commonalities of the fine arts, including literature, the visual arts, architecture, and music. Students will learn and practice the craft of writing through various products, including AP style writing. Literature from a variety of world traditions will also be a key focus. Ninth graders will earn Honors English I credit while tenth graders earn AP World History credit. At the conclusion of Humanities II, students can sit for the AP World History to possibly earn college credit.

Humanities does not fulfill the fine arts requirement for graduation.

Prerequisite: PISD GT Identification

**Humanities II/ World History AP GT
(AP World History)**

GTHU2A/B

Grade 10 GT only, 1 credit, AP/DC weighted GPA

Humanities I/English I GT and Humanities II/World History AP GT are courses that provide gifted students with opportunities not available through regular or advanced classes. The courses combine Honors English I with AP World History in a two-year interdisciplinary spiral. The basic content is a historical study of the commonalities of the fine arts, including literature, the visual arts, architecture, and music. Students will learn and practice the craft of writing through various products, including AP style writing. Literature from a variety of world traditions will also be a key focus. Ninth graders will earn Honors English I credit while tenth graders earn AP World History credit. At the conclusion of Humanities II, students can sit for the AP World History to possibly earn college credit.

Humanities does not fulfill the fine arts requirement for graduation.

Prerequisite: Humanities I and PISD GT Identification

US History

SS300A/B

Grade 11, 1 credit, On-Level weighted GPA

In this course students study the history of the United States from 1877 to the present. The course content is based on the founding documents of the US government, which provide a framework for its history. Historical content focuses on the political, economic, and social events and issues related to industrialization and urbanization, major wars, domestic and foreign policies, and reform movements including civil rights. Students examine the impact of geographic factors on major events and eras and analyze their causes and effects.

Prerequisite: None

AP US History

SS320A/B

Grade 11, 1 credit, AP/DC weighted GPA

The AP US History course provides students with the analytic skills and factual knowledge necessary to deal critically with the problems and materials in US history. Students will learn to assess historical materials--their relevance to a given interpretive problem, reliability, and importance--and to weigh the evidence and interpretations presented in historical scholarship. AP US History develops the skills necessary to arrive at conclusions on the basis of an informed judgment and to present reasons and evidence clearly and persuasively in a variety of formats.

Prerequisite: None

Dual Credit US History: HIST 1301

SS335A

Grade 11-12, 0.5 credit, AP/DC weighted GPA, 3 College Hours.

These two courses focus on the history of the United States and the development of American characteristics and institutions, including the forging of a new society from European, African, and American cultures. Emphasis is on the colonial and early national periods through the Civil War and Reconstruction in the first course and the development of American society in the 20th century from 1877 to the present.

Corequisites: If you take this course, you must also take SS335B - Dual Credit US History: HIST 1302

Prerequisite: College acceptance and registration required.

Dual Credit US History: HIST 1302

SS335B

Grade 11-12, 0.5 credit, AP/DC weighted GPA, 3 College Hours.

These two courses focus on the history of the United States and the development of American characteristics and institutions, including the forging of a new society from European, African, and American cultures. Emphasis is on the colonial and early national periods through the Civil War and Reconstruction in the first course and the development of American society in the 20th century from 1877 to the present.

Corequisite: If you take this course, you must also take SS335A - Dual Credit US History: HIST 1301

Prerequisite: College acceptance and registration required.

GT American Studies

GTHU3A/B

Grade 11, 2 credits, AP/DC weighted GPA

American Studies is a one-year, double-blocked course that combines the Advanced Placement US History (APUSH) and Advanced Placement English Language (APLANG) courses with the study of American humanities and culture. As the next step after 9th/10th grade Humanities in the Prosper ISD Gifted and Talented program, it focuses on the philosophical underpinnings of American writing and thought, along with an understanding of the historical climate associated with that writing. Discussion participation, reading, writing and critical thinking are significant elements for this course, along with the implementation of Gifted and Talented strategies.

Prerequisite: PISD GT Identification

US Government

SS4100

Grade 12, 0.5 credit, On-Level weighted GPA

The US Government course focuses on the principles and beliefs upon which the United States was founded and on the structure, functions, and powers of government at the national, state, and local levels. Students learn major political ideas and forms of government in history. A significant focus of the course is on the US Constitution, its underlying principles and ideas, and the form of government it created. Students analyze major concepts of republicanism, federalism, checks and balances, separation of powers, popular sovereignty, and individual rights and compare the US system of government with other political systems.

Prerequisite: None

Economics

SS4200

Grade 12, 0.5 credit, On-Level weighted GPA

Economics, with emphasis on the free enterprise system and its benefits, focuses on the basic principles concerning production, consumption, and distribution of goods and services, including the problem of scarcity, in the United States and a comparison with those in other countries around the world. Students analyze the interaction of supply, demand, and price, and investigate the concepts of specialization and international trade, economic growth, key economic measurements, and monetary and fiscal policy.

Prerequisite: None

Personal Financial Literacy and Economics

SS4220

Grade 12, 0.5 credit, On-level weighted GPA

Personal Financial Literacy and Economics is a hybrid course that emphasizes the economic way of thinking. This course provides a foundation in both microeconomics and macroeconomics as well as personal financial literacy concepts. The course requires that students demonstrate critical thinking by exploring how to invest in themselves with education and skill development, earn income, and budget for spending, saving, investing and protecting. Students will examine their individual responsibility for managing their personal finances and understand the impact on standard of living and long-term financial well-being. Further, students will connect how their financial decision making impacts the greater economy.

Students may not receive credit for this course and Personal Financial Literacy.

Prerequisite: none

AP Economics

SS4230

Grade 12, .5 credit, AP/DC weighted GPA

These classes will be taught concurrently.

AP Macroeconomics gives students a thorough understanding of the principles of economics that apply to an economic system as a whole. This course places particular emphasis on the study of national income and price-level determination and also develops students' familiarity with economic performance measures, the financial sector, stabilization policies, economic growth, and international economics.

Prerequisite: None

AP Government

SS4231

Grade 12, .5 credit, AP/DC weighted GPA

AP US Government & Politics will give students an analytical perspective on government and politics in the United States. This course includes both the study of general concepts used to interpret US government and politics and the analysis of specific examples. It also requires familiarity with the various institutions, groups, beliefs, and ideas that constitute US government and politics. Students will become acquainted with the variety of theoretical perspectives and explanations for various behaviors and outcomes.

Prerequisite: None

Dual Credit US Government

SS4310

(Federal Government GOVT 2305)

Grade 12, 0.5 credit, AP/DC weighted GPA, 3 College Hours

This is a college freshman government course with an introduction to politics and government in the United States. It includes the origin and development of constitutional democracy in the United States, emphasizing the constitutions of the State of Texas, United States, federalism and intergovernmental relations, local government, and the political process. Students must stay in the course the entire semester to receive high school and college credit.

Prerequisite: College acceptance and registration required.

Dual Credit Economics

SS4320

(Principles of Macroeconomics ECON 2301)

Grade 12, 0.5 credit, AP/DC weighted GPA, 3 College Hours

This is a college freshman economics course with an introduction to decision-making in the public sector, economic analysis of inflation, unemployment, economic growth, national income measures, money and banking, monetary and fiscal policy, competing economic theories, and international economics. Students must stay in the course the entire semester to receive high school and college credit but can take microeconomics or macroeconomics to fulfill the requirements.

Prerequisite: College acceptance and registration required.

Social Studies Electives

AP European History

SS520A/B

Grade 10-12, 1 credit, AP/DC weighted GPA

The AP European History course focuses on developing students' understanding of European history from approximately 1450 to the present. The course has students investigate the content of European history for significant events, individuals, developments, and processes in four historical periods, and develop and use the same thinking skills and methods (analyzing primary and secondary sources, making historical comparisons, chronological reasoning, and argumentation) employed by historians when they study the past. The course also provides five themes (interaction of Europe and the world; poverty and prosperity; objective knowledge and subjective visions; states and other institutions of power; and individual and society) that students explore throughout the course in order to make connections among historical developments in different times and places.

Prerequisite: None

AP Psychology (Includes Social Studies – Advanced Studies)

PSYAPA/B

Grade 11-12, 1 credit, AP/DC weighted GPA

The AP Psychology course is designed to introduce students to the systematic and scientific study of the behavior and mental processes of human beings and other animals. Through the textbook, class discussions, and classroom activities, students are exposed to the psychological facts, principles, and phenomena associated with each of the major subfields within psychology. This is a college level course, designed to replace Introduction to Psychology in a student's freshman year of college. Students will prepare for further studies in psychology and life sciences.

Prerequisite: None

Influences of the New Testament on History and Literature

SSBIBN

Grade 9-12, 0.5 credit, On-Level weighted GPA

The course will teach students basic biblical knowledge about the New Testament that includes religion, literature, culture, art, music, and history. It will provide a basic knowledge of the Bible as a sourcebook and demonstrate the influence that it has on the development of works of culture, on the development of language, and on historical perspective. The Bible is not only considered a sacred text, but is also considered by many scholars to be the “most influential text in all of Western Culture.” Knowledge gained from this study will help students understand both classical and contemporary works. In addition, students can use their knowledge as a tool to understand some of the most inspiring rhetoric in American history.

Prerequisite: None

Influences of the Old Testament on History and Literature

SSBIBO

Grade 9-12, 0.5 credit, On-Level weighted GPA

The course will teach students basic biblical knowledge about the Old Testament that includes religion, literature, culture, art, music, and history. It will provide a basic knowledge of the Bible as a sourcebook and demonstrate the influence it has on the development of works of culture, on the development of language, and on historical perspective. The Bible is not only considered a sacred text, but is also considered by many scholars to be the “most influential text in all of Western Culture.” Knowledge gained from this study will help students understand both classical and contemporary works. In addition, students can use their knowledge as a tool to understand some of the most inspiring rhetoric in American history.

Prerequisite: None

Personal Financial Literacy

PERFIN

Grade 10-12, 0.5 credit, On-Level weighted GPA

This course will teach skills to make sound, informed financial decisions that will allow them to lead financially secure lifestyles and understand personal financial responsibility.

Prerequisite: None

Psychology

PSYCH

Grade 10-12, 0.5 credit, On-Level weighted GPA

In this elective course, students study the science of behavior and mental processes. Students examine the full scope of the science of psychology such as the historical framework, methodologies, human development, motivation, emotion, sensation, perception, personality development, cognition, learning, intelligence, biological foundations, mental health, and social psychology.

Prerequisite: None

Sociology

SOCIO

Grade 10-12, 0.5 credit, On-Level weighted GPA

This elective course is an introductory study in social behavior and organization of human society. This course will describe the development of the field as a social science by identifying methods and strategies of research leading to an understanding of how the individual relates to society and the ever changing world. Students will also learn the importance of and role of culture, social structure, socialization, and social change in today's society.

Prerequisite: None

World Languages (LOTE)

Classical Languages

Latin I

FL100A/B

Grade 9-12, 1 credit, On-level weighted GPA

Latin I is an introductory course to the Latin language with contextual study of Roman culture and civilization. Students will apply the communicative skills of listening, speaking, and writing to enhance the interpretive communication mode of reading comprehension of the Latin language through reading. The course addresses Latin prose and verse literature in its social and historical context, and encourages students to develop a personal response to what they read. Students develop an understanding of the social and political history of Pompeii, Roman Britain, and Alexandria, especially during the first century A.D. The expected outcome of this course is Novice Mid to Intermediate Low proficiency in writing and reading, respectively.

Prerequisite: None

Latin II

FL200A/B

Grade 9-12, 1 credit, On-level weighted GPA

Latin II continues to develop students' skills in order to read more advanced Latin text and relate it to the English language. Legal and science terminology will also be included. This course compares and contrasts Latin and Greek culture, religion, sports, science and history to our modern world. The expected outcome of this course is Novice Mid to Intermediate Mid proficiency in writing and reading, respectively.

Prerequisite: Latin I

Latin III Honors

FL310A/B

Grade 10-12, 1 credit, Honors weighted GPA

Honors Latin III utilizes higher-level/critical-thinking skills, stresses the development of oral skills, comprehension and interpretation of authentic Latin texts and expands the use of grammar and vocabulary. It emphasizes stylistic analysis and comprehension of literary techniques, and accurate reading and translation of original Latin literature. The expected outcome of this course is Novice Mid to Advanced Low proficiency in writing and reading, respectively.

Prerequisite: Latin II

Latin IV AP

FL420A/B

Grade 11-12, 1 credit, AP/DC weighted GPA

AP Latin IV focuses on the in-depth study of selections from Vergil's *Aeneid* and Caesar's *Gallic War*. Students will continue to read the original text of Roman authors with an emphasis on Students will to cultivate their understanding of the classics through many areas such as history, mythology, and culture. The expected outcome of this course is Novice Mid to Advanced Mid proficiency in writing and reading, respectively. This course is designed to prepare students to take the AP Latin exam.

Prerequisite: Latin III Honors

Modern Languages

American Sign Language I

FA100A/B

Grade 9-11, 1 credit, On-Level weighted GPA

American Sign Language I is an introductory course to the language and culture of the Deaf community. Students will develop expressive and receptive language skills to be able to communicate about highly familiar topics related to everyday student life. Students will demonstrate skills in the interpretive, interpersonal, and presentational modes of communication as defined by the TEKS. The culture and contributions of the Deaf community are discussed throughout the course. The expected outcome of this course is to develop Novice Mid to Novice High proficiency. The course is conducted in ASL (without voice) a significant part of the time.

Prerequisite: None

American Sign Language II

FA200A/B

Grade 10-12, 1 credit, On-Level weighted GPA

American Sign Language II is a continuation of ASL I focusing on the development of expressive and receptive skills by expanding their knowledge of vocabulary, syntax, and grammatical structures. Students will apply this knowledge across the three modes of communication on familiar topics related to everyday life. Students will be able to demonstrate extended cultural awareness of the Deaf Community. The expected outcome of this course is to develop Novice High to Intermediate Low proficiency. This course is conducted in ASL (without voice) a significant part of the time.

Prerequisite: American Sign Language I

American Sign Language III Honors

FA310A/B

Grade 11-12, 1 credit, Honors weighted GPA

Honors American Sign Language III continues the development of receptive and expressive language skills across the three modes of communication. Students will build on existing skills by adding more complex ASL grammatical features, syntax, and vocabulary. Students will continue the exploration of the culture of the Deaf community with an emphasis on ASL as a linguistic minority and particular attention to the effects on the individual. This course may require Deaf Community exposure and involvement. The expected outcome of this course is to develop Intermediate Low to Intermediate Mid proficiency. This course is conducted predominantly in ASL (without voice).

Prerequisite: American Sign Language II

American Sign Language IV Honors

FA410A/B

Grade 11-12, 1 credit, Honors weighted GPA

American Sign Language IV Honors builds on the expressive and receptive skills learned in American Sign Language (ASL) I, II and III. Students will refine their communicative skills by expanding their ability to understand and interact on a variety of topics within everyday situations. Students will analyze ASL literature and culturally significant topics. This course may require Deaf community exposure and involvement. The expected outcome of this course is to develop Intermediate Mid to Intermediate High proficiency. This course is conducted in ASL (without voice).

Prerequisite: American Sign Language III or III Honors

French I

FF100A/B

Grade 9-11, 1 credit, On-Level weighted GPA

French I is an introductory course to the French language and culture. Students will develop listening, speaking, reading, and writing skills to be able to communicate about highly familiar topics related to everyday student life. Students will demonstrate their language skills in the interpretive, interpersonal, and presentational modes of communication as defined by the TEKS. Students will recognize the interrelationships between cultures by identifying products and practices to understand cultural perspectives of the Francophone world. The outcome for French I is to develop Novice Mid to Novice High proficiency. This course is conducted in French for a significant amount of time.

Prerequisite: None

French II

FF200A/B

Grade 9-12, 1 credit, On-Level weighted GPA

French II continues to introduce students to the French language and culture. Students will develop listening, speaking, reading, and writing skills to be able to communicate about familiar topics related to everyday student life. Students will demonstrate their language skills in the interpretive, interpersonal, and presentational modes of communication as defined by the TEKS. Students will recognize the interrelationships between cultures by identifying products and practices to understand cultural perspectives of the Francophone world. The outcome for French II is to develop Novice High to Intermediate Low proficiency. This course is conducted in French for a significant amount of time.

Prerequisite: French I

French III Honors

FF310A/B

Grade 10-12, 1 credit, Honors weighted GPA

In French III Honors students will continue developing their abilities across the three modes of communication. Students increase the complexity of their communication by demonstrating an ability to respond to tasks requiring high cognition and creative thinking using more complex grammatical structures and applicable vocabulary to discuss academic topics beyond everyday situations. Students will read, listen, and view authentic materials to deepen their understanding of the cultural practices and perspectives of various parts of the Francophone world. The outcome for French III Honors is to develop Intermediate Low to Intermediate High proficiency. This course is conducted predominantly in French.

Prerequisite: French II

French IV AP Language and Culture

FF420A/B

Grade 11-12, 1 credit, AP/DC weighted GPA

The Advanced Placement French IV Language and Culture course engages students in an exploration of culture in both contemporary and historical contexts. The course develops students' awareness and appreciation of cultural products, practices, and perspectives while emphasizing communication by applying interpersonal, interpretive, and presentational skills. This course prepares students to sit for the Advanced Placement French Language and Culture exam. The outcome for French IV AP is to develop Intermediate Mid to Advanced Low proficiency. This course is conducted exclusively in French.

Prerequisite: Honors French III

Chinese I

FM100A/B

Grade 9-11, 1 credit, On-Level weighted GPA

Chinese I is an introductory course to Mandarin Chinese language and culture. Students will develop listening, speaking, reading, and writing skills on highly familiar topics related to everyday student life. Students will demonstrate their language skills in the interpretive, interpersonal, and presentational modes of communication as defined by the TEKS with an emphasis placed on listening and speaking skills. Students will recognize the interrelationships between cultures by identifying products and practices to understand cultural perspectives of the Mandarin Chinese-speaking world. The outcome for Chinese I is to develop Novice Mid to Novice High proficiency. This course is conducted in Chinese for a significant amount of time.

Prerequisite: None

Chinese II

FM200A/B

Grade 9-12, 1 credit, On-Level weighted GPA

Chinese II continues to introduce students to the Mandarin Chinese language and culture. Students will further develop listening and speaking skills with an increased emphasis on reading and writing Simplified Chinese characters. Students will demonstrate their language skills in the interpretive, interpersonal, and presentational modes of communication on topics expanded beyond the everyday life of a student. Students will recognize the interrelationships between cultures by identifying products and practices to understand cultural perspectives of the Mandarin Chinese-speaking world. The outcome for Chinese II Honors is to develop Novice High to Intermediate Low proficiency. This course is conducted in Chinese for a significant amount of time.

Prerequisite: Chinese I or Chinese I Honors

Chinese III Honors

FM310A/B

Grade 11-12, 1 credit, Honors weighted GPA

Chinese III Honors builds on Chinese I and II with additional vocabulary and grammar are introduced to further develop reading and writing skills.. Students will demonstrate their language skills in the interpretive, interpersonal, and presentational modes of communication on topics expanded beyond the everyday life of a student. Students will read, listen, and view authentic materials to deepen their understanding of the cultural practices and perspectives of various Chinese regions. The outcome for Chinese III Honors is to develop Intermediate Low to Intermediate Mid proficiency. This course is conducted predominantly in Chinese.

Prerequisite: Chinese II or Chinese II Honors

Chinese IV AP Language and Culture

FM420A/B

Grade 12, 1 credit, AP/DC weighted GPA

The Advanced Placement Chinese IV Language and Culture course engages students in an exploration of culture in both contemporary and historical contexts. The course develops students' awareness and appreciation of cultural products, practices, and perspectives while emphasizing communication by applying interpersonal, interpretive, and presentational skills. This course prepares students to sit for the Advanced Placement Chinese Language and Culture exam. The outcome for Chinese IV AP is to develop Intermediate Mid to Advanced Low proficiency. This course is conducted exclusively in Mandarin.

Prerequisite: Chinese III or Chinese III Honors

Spanish I

FS100A/B

Grade 9-12, 1 credit, On-Level weighted GPA

Spanish I is an introductory course to the language and culture of the Spanish-speaking world. Students will develop listening, speaking, reading, and writing skills to be able to communicate about highly familiar topics related to everyday student life. Students will demonstrate their language skills in the interpretive, interpersonal, and presentational modes of communication as defined by the TEKS. Students will recognize the interrelationships between cultures by identifying products and practices to understand cultural perspectives of the Spanish-speaking world. The outcome for Spanish I is to develop Novice Mid to Novice High proficiency. This course is conducted in Spanish for a significant amount of time.

Prerequisite: None

Spanish II

FS200A/B

Grade 9-12, 1 credit, On-Level weighted GPA

Spanish II continues to introduce students to the Spanish language and culture. Students will develop listening, speaking, reading, and writing skills to be able to communicate about familiar topics related to everyday student life. Students will demonstrate their language skills in the interpretive, interpersonal, and presentational modes of communication. Students will recognize the interrelationships between cultures by identifying products and practices to understand cultural perspectives of the Spanish-speaking world. The outcome for Spanish II is to develop Novice High to Intermediate Low proficiency. This course is conducted in Spanish for a significant amount of time.

Prerequisite: Spanish I

Spanish II Honors

FS210A/B

Grade 11-12 (Graduation Cohorts 2025 and 2026 only), 1 credit, Honors weighted GPA

Spanish II Honors continues to introduce students to the Spanish language and culture. Students will develop listening, speaking, reading, and writing skills to be able to communicate about familiar topics related to everyday student life. Students will demonstrate their language skills in the interpretive, interpersonal, and presentational modes. Students will read, listen, and view authentic materials to deepen their understanding of the cultural practices and perspectives of various parts of the Spanish-speaking world. The outcome for Spanish II Honors is to develop Novice High to Intermediate Mid proficiency. This course is conducted in Spanish for a significant amount of time.

Prerequisite: Spanish I

Spanish III

FS300A/B

Grade 10-12, 1 credit, On-Level weighted GPA

In Spanish III students will continue developing their abilities across the three modes of communication. Students will be able to express meaning in a variety of academic contexts beyond everyday situations. Students will read, listen, and view authentic materials to deepen their understanding of the cultural practices and perspectives of various parts of the Spanish-speaking world. The outcome for Spanish III is to develop Intermediate Low to Intermediate Mid proficiency. This course is conducted predominantly in Spanish.

Prerequisite: Spanish II or Spanish II Honors

Spanish III Honors

FS310A/B

Grade 10-12, 1 credit, Honors weighted GPA

In Spanish III Honors students will continue developing their abilities across the three modes of communication. Students increase the complexity of their communication by demonstrating an ability to respond to tasks requiring high cognition and creative thinking using more complex grammatical structures and applicable vocabulary to discuss academic topics beyond everyday situations. Students will read, listen, and view authentic materials to deepen their understanding of the cultural practices and perspectives of various parts of the Spanish-speaking world. The outcome for Spanish III Honors is to develop Intermediate Low to Intermediate High proficiency. This course is conducted predominantly in Spanish.

Prerequisite: Spanish II or II Honors

Spanish IV AP Language and Culture

FS420A/B

Grade 11-12, 1 credit, AP/DC weighted GPA

The Advanced Placement Spanish IV Language and Culture course engages students in an exploration of culture in both contemporary and historical contexts. The course develops students' awareness and appreciation of cultural products, practices, and perspectives while emphasizing communication by applying interpersonal, interpretive, and presentational skills. This course prepares students to sit for the Advanced Placement Spanish Language and Culture exam. The outcome for Spanish IV AP is to develop Intermediate Mid to Advanced Low proficiency. This course is conducted exclusively in Spanish.

Prerequisite: Spanish III or Honors Spanish III

Spanish Seminar I

FS510A/B

Grade 11-12, 1 credit, Honors weighted GPA

Spanish Seminar I is designed to foster deep inquiry into specialized areas of study. This course will deepen students' understanding of the cultures and histories of countries and groups representing the Spanish language. Students will dive deep into cultural products and practices, comparing and contrasting with their own and those of other cultures. Through oral presentations, written compositions, and class discussions, students will work toward advanced levels of proficiency. This course is conducted entirely in Spanish.

Prerequisite: AP Spanish Language and Culture

Spanish Seminar II

FS610A/B

Grade 11-12, 1 credit, Honors weighted GPA

Spanish Seminar II is designed to foster deep inquiry into specialized areas of study. This course will deepen students' understanding of the cultures and histories of countries and groups representing the Spanish language. Students will dive deep into cultural products and practices, comparing and contrasting with their own and those of other cultures. Through oral presentations, written compositions, and class discussions, students will work toward advanced levels of proficiency. This course is conducted entirely in Spanish.

Prerequisite: Spanish Seminar I - must be taken in consecutive years

Spanish V AP Literature and Culture

FS421A/B

Grade 11-12, 1 credit, AP/DC weighted GPA

Spanish V AP Spanish Literature and Culture uses a thematic approach to introduce students to a variety of representative texts from Peninsular Spanish, Latin American, and U. S. Hispanic literature. Through careful examination of the texts, students develop critical reading and analytical writing skills. Literature is explored within the contexts of its time and place, and students gain insights on the many voices, historical periods, and cultures represented in the. The course also includes a strong focus on cultural, artistic, and linguistic connections and comparisons, which is supported by the exploration of various media. The outcome for Spanish V AP is to develop Intermediate High to Advanced Low proficiency. This course is conducted exclusively in Spanish.

Prerequisite: AP Spanish Language and Culture or Spanish Seminar I

CTE Courses for Languages Other than English (LOTE) Credit

* Two credits in computer programming which includes, Honors Computer Science I, II, AP Computer Science Principles, and AP Computer Science A may be used to satisfy the World Languages graduation requirements. Check with the college you plan on attending to see if this will count for admissions.

Honors Computer Science I

FC110A/B

Grade 9-12, 1 credit, Honors weighted GPA

This is an introductory course to the fundamental concepts of Computer Science. This object-oriented programming class uses the Python programming language to discuss basic concepts of programming.

Corequisite: Algebra I

AP Computer Science A

MA520A/B

Grade 10-12, 2 credits, AP/DC weighted GPA

FCSAPA/B

This course offers an emphasis on object-oriented programming methodology with a concentration on problem solving and algorithm development, and is meant to be the equivalent of a first semester college-level course in Computer Science. The course includes the study of data structures, design, and abstraction using the Java programming language. Students who take AP courses should take the AP exam in May. This course fulfills the fourth credit of math.

Recommended Prerequisite: Honors Computer Science I

Prerequisite: Algebra I

AP Computer Science Principles

T9820A/B

Grade 9-12, 1 credit, AP/DC weighted GPA

AP Computer Science Principles introduces students to the breadth of the field of computer science. In this course, students will learn to design and evaluate solutions and to apply computer science to solve problems through the development of algorithms and programs. They will incorporate abstraction into programs and use data to discover new knowledge. Students will also explain how computing innovations and computing systems, including the Internet, work, explore their potential impacts, and contribute to a computing culture that is collaborative and ethical.

Prerequisite: Algebra I

Computer Science II

FC210A/B

Grade 10-12, 1 credit, Honors weighted GPA

This course offers an emphasis on object-oriented programming methodology with a concentration on problem solving and algorithm development using Python programming language.

Prerequisite: Algebra I and Computer Science I

Computer Science III

FC320A/B

Grade 11-12, 1 credit, AP/DC weighted GPA

Computer Science III will foster students' creativity and innovation by presenting opportunities to design, implement, and present meaningful programs through a variety of media. Students will collaborate with one another, their instructor, and various electronic communities to solve the problems presented throughout the course. Through data analysis, students will identify task requirements, plan search strategies, and use computer science concepts to access, analyze, and evaluate information needed to solve problems.

Prerequisite: Computer Science II or Advanced Placement (AP) Computer Science A

Fine Arts

AP Music Theory

E3200A/B

Grade 11-12, 1 credit, AP/DC weighted GPA

Students enrolled in this course must already have the ability to read and write music notation. In addition, students should already be competent at performing in voice or on an instrument. Students enrolled in this course will study melody, harmony, texture, rhythm, form, musical analysis, and composition. Students will also develop listening skills, such as sight-singing and melodic, rhythmic, and harmonic dictation. This course is designed for serious music students. Students who take AP courses are expected to take the AP exam in May.

Prerequisite: None

The History of Popular Music in the United States

E3100A/B

Grade 9-12, 1 credit, On-Level weighted GPA

This course is an exploration of the history and evolution of musical genres in America. European, African, and Caribbean roots will be traced as the end of the Civil War yields military brass bands and the beginning roots of Jazz, Tin Pan Alley, Broadway, Musical Theatre, and the foundation of music in radio, tv, and film. Students will have the opportunity to explore the vocabulary, musical terms, instrumentation, genres, musical hybrids, and basic musical forms that evolve into the rock and roll of the 1950's to current. Weekly listening assignments, analysis, and writing assignments will be required.

Prerequisite: None. Students enrolled in band, choir, or orchestra will require program director permission.

Music Production

EMUSPA/B

Grade 10-12, 1 credit, On-Level weighted GPA

In the field of Music Production in the twenty-first century, traditional roles of songwriter, composer, arranger, musician, musical director, producer, recording technician, mixing engineers and mastering engineers are increasingly blurred. The changes in both working practices and the affordability of music technologies, musically and technically creative individuals can cover several of these roles in a music project. Music Production will explore the terminology, concepts of production, and the creation of music through the utilization of MIDI, basic and advanced audio, virtual instruments, and digital audio editing. Pre-production, studio production, editing and pre-mixing, mixing, and mastering processes will all be explored, developed, and assessed.

Prerequisite: Student Application. Students enrolled in band, choir, or orchestra will require program director permission.

Art

Art I

E1010A/B

Grade 9-12, 1 credit, On-Level weighted GPA

Art I is a survey course allowing students the opportunity to apply the elements of art and principles of design to an array of original works, while studying artists and art periods. Various studio areas to be covered include drawing, printmaking, painting, ceramics, sculpting, and textiles.

Prerequisite: None

Honors Art I

E1110A/B

Grade 9-11, 1 credit, Honors weighted GPA

Honors Art I is a survey course providing learning opportunities beyond those available in the Art I course. The Art I curriculum will be followed, however students will be required to produce a body of work at a more advanced level in both quality and quantity. Students are expected to complete a “mini-concentration” and at least six pieces for consideration in next year’s AP studio art class. This class will require an estimated 6 hours outside class participation.

Prerequisite: None

Basic Drawing and Design

E1021A/B

Grade 10-12, 1 credit, On-Level weighted GPA

Drawing and Design will focus on mark making and composition. Students will work in various styles and genres while developing technical skills. The majority of the work will be mixed media and two dimensional. Students should anticipate two hours a week of outside work. Art supplies and fees will be required.

Prerequisite: Art I

Intermediate Drawing and Design

E1121A/B

Grade 11-12, 1 credit, On-Level weighted GPA

This is an intermediate course focusing on mark making and composition. Students will work in various styles and genres while developing technical skills. The majority of the work will be mixed media and two dimensional. Students should anticipate two hours a week of outside work. Art supplies and fees will be required.

Prerequisite: Basic Drawing and Design

Advanced Drawing and Design

E1221A/B

Grade 11-12, 1 credit, On-Level weighted GPA

This is an advanced course focusing on mark making and composition. Students will concentrate on voice, exploration and experimentation within the medium. The majority of the work will be mixed media and two dimensional. Students will create a portfolio of their original works of art, and will be expected to demonstrate basic framing and presentation processes. Students should anticipate two hours a week of outside work. Art supplies and fees will be required.

Prerequisite: Intermediate Drawing and Design

AP Art History

E1233A/B

Grade 10-12, 1 credit, AP/DC weighted GPA

AP Art History is taught at the same level as an introductory college art history survey. The course involves critical thinking and should develop an understanding and knowledge of diverse historical and cultural contexts of art. In this course, students examine and critically analyze major forms of artistic expression from the past and the present from a variety of cultures. Students will be strongly encouraged to take the AP Art History Test.

Prerequisite: None

Dual Credit Art Appreciation: ARTS 1301

E13000

Grade 11-12, 0.5 credit, AP/DC weighted GPA, 3 College Hours.

A general introduction to the visual arts designed to create an appreciation of the vocabulary, media, techniques, and purposes of the creative process. Students will critically interpret and evaluate works of art within formal, cultural, and historical context.

Prerequisite: College acceptance and registration required. *Please note that this is a one semester course; students are encouraged to consider Dual Credit Business Communications for the alternate semester.*

Basic Painting

E1022A/B

Grade 10-12, 1 credit, On-Level weighted GPA

This course will focus on painting techniques and styles. Students will work with a variety of paints, surfaces and genres. While striving for mastering of application, students will inflect personal voice into the works. Students should expect about two hours of work outside the class period. Art supplies and fees will be required.

Prerequisite: Art I

Intermediate Painting

E1122A/B

Grade 11-12, 1 credit, On-Level weighted GPA

This is an intermediate course focusing on painting techniques and styles. Students will work with a variety of paints, surfaces and genres. While striving for mastering of application, the student will inflect personal voice or intent into multifaceted works. Students should expect about two hours of work outside the class period. Art supplies and fees will be required.

Prerequisite: Basic Painting

Advanced Painting

E1222A/B

Grade 11-12, 1 credit, On-Level weighted GPA

This is an advanced course focusing on color manipulation and composition. Students will concentrate on voice, exploration and experimentation within the medium. The majority of the work will be mixed media and two dimensional. Students will create a portfolio of their original works of art, and will be expected to demonstrate basic framing and presentation processes. Students should anticipate two hours a week of outside work. Art supplies and fees will be required.

Prerequisite: Intermediate Painting

AP Drawing

E1130A/B

Grade 11-12, 1 credit, AP/DC weighted GPA

This course is intended to address a very broad interpretation of drawing issues and media. Line quality, light and shade, rendering of form, composition, surface manipulation, the illusion of depth and mark-making are drawing issues that will be addressed through a variety of means, which could include painting, printmaking, and mixed media among others. Students who take AP art courses are required to submit a portfolio. Art supplies and fees will be required.

Prerequisite: Art I and a level II art class

AP Art 2-D Art and Design

E1131A/B

Grade 11-12, 1 credit, AP/DC weighted GPA

This course is intended to address two-dimensional designs which involve purposeful decision making about how to use the elements and principles of art in an integrative way. For this AP portfolio, students demonstrate mastery of a 2-D design through any two dimensional medium or process, including: graphic design, digital imaging, photography, collage, fabric design, weaving, fashion design, fashion illustration, painting and printmaking. Students who take AP art courses are required to submit a portfolio. Art supplies and fees will be required.

Prerequisite: Art I, Recommended prerequisite: AP Art Drawing Portfolio

AP Art 3-D Art and Design

E1132A/B

Grade 11-12, 1 credit, AP/DC weighted GPA

This course is intended to address sculptural design that involves purposeful decision making about using the elements and principles of art in an integrative way. For this AP portfolio, students demonstrate mastery of design principles as they relate to the integration of depth and space, volume and surface. The principles of design can be articulated through the visual elements of mass, volume, color/light, form, plane, line, and texture. Students who take AP art courses are required to submit a portfolio. Art supplies and fees will be required.

Prerequisite: Art I, Recommended prerequisite: AP Art Drawing Portfolio

Basic Ceramics

E1024A/B

Grade 10-12, 1 credit, On-Level weighted GPA

This is an introduction to hand building and wheel throwing techniques to create functional and sculptural work which demonstrates their understanding of the elements and principles of design. Students should anticipate an additional two hours of studio time beyond class per week. Art supplies and fees will be required.

Prerequisite: Art I

Intermediate Ceramics

E1124A/B

Grade 11-12, 1 credit, On-Level weighted GPA

This is an intermediate course combining both hand building and wheel throwing techniques to create functional and sculptural work which demonstrates an understanding of the elements and principles of design. Students should anticipate an additional two hours of studio time beyond class per week. Art supplies and fees will be required.

Prerequisite: Basic Ceramics

Advanced Ceramics

E1224A/B

Grade 11-12, 1 credit, On-Level weighted GPA

This is an advanced course focusing on a variety of handbuilding, wheel throwing, and alternative firing techniques. Students will concentrate on voice, exploration and experimentation within the medium. The majority of the work will be mixed media and three dimensional. Students will create a portfolio of their original works of art, and will be expected to demonstrate basic kiln operations. Students should anticipate two hours a week of outside work. Art supplies and fees will be required.

Prerequisite: Intermediate Ceramics

Basic Sculpture

E1025A/B

Grade 10-12, 1 credit, On-Level weighted GPA

This course is an introductory course in additive and subtractive techniques using a variety of tools and materials. Students will demonstrate their understanding of the design principles through informed decision making in their work. Anticipate two hours of additional studio time beyond the classroom each week. Art supplies and fees will be required.

Prerequisite: Art I

Intermediate Sculpture

E1125A/B

Grade 11-12, 1 credit, On-Level weighted GPA

This is an intermediate course in which students will combine additive and subtractive techniques using a variety of tools and materials. Students will demonstrate their understanding of the design principles through informed decision making in their work. Anticipate two hours of additional studio time beyond the classroom each week. Art supplies and fees will be required.

Prerequisite: Basic Sculpture

Advanced Sculpture

E1225A/B

Grade 11-12, 1 credit, On-Level weighted GPA

This is an advanced course focusing on a combination of additive and subtractive sculpting techniques. Students will concentrate on voice, exploration and experimentation within a variety of materials. The majority of the work will be mixed media and three dimensional. Students will create a portfolio of their original works of art. Students should anticipate two hours a week of outside work. Art supplies and fees will be required.

Prerequisite: Intermediate Sculpture

Band

Color Guard/Winter Guard I	EL001A/B
Color Guard/Winter Guard II	EL002A/B
Color Guard/Winter Guard III	EL003A/B
Color Guard/Winter Guard IV	EL004A/B

Grade 9-12, 1 credit, On-Level weighted GPA

The Color and Winter Guard are both part of the high school band program. Color Guard occurs in the fall semester when students will be part of the marching band. Winter guard occurs in the spring semester and builds on the skills learned from the marching field in an indoor setting. All students will acquire skills in dance and several varieties of equipment including flag, rifle, and saber. All students are welcome to audition for the Color and Winter Guard including non-band members. This course will require rehearsals, performances, and competitions outside of the school day. All students can earn up to 1 PE credit for participation in the fall semester of marching band during high school. The PE credit will be Pass/Fail and not receive GPA points.

Prerequisite: Audition and director approval

- Students participating in Prosper ISD Color/Winter Guard are **REQUIRED** to have an annual physical and complete all appropriate paperwork prior to participation in tryouts, practices, and games.
- Physicals must be dated on or after April 1, 2024 for participation for the 2024-2025 school year. Physicals must be completed on the official UIL physical form. PISD athletics will provide an opportunity for students to receive a physical for a nominal fee in May each year. Student athletes meeting all of the free or reduced lunch requirements will be given the opportunity to receive a physical for free or at a reduced rate.
- Guard members must be able to attend practices and games before school, after school, Saturdays and some Holidays - winter break, spring break, etc.
- All students involved in extracurricular activities follow co-curricular guidelines that hold students to a higher standard regarding personal conduct.
- According to UIL rules, students must maintain a 70 average in all of their classes to remain eligible for competition.

Wind Ensemble I	E7001A/B
Wind Ensemble II	E7002A/B
Wind Ensemble III	E7003A/B
Wind Ensemble IV	E7004A/B

Grade 9-12, 1 credit, On-Level weighted GPA

This class is the top level band and consists of students that play brass and woodwind instruments. In this course, students will work on beginning through advanced instrument-specific technique, skill development, and fundamentals. The class will participate in a variety of ensembles including marching band, concert band, and various small ensembles. Students will also work on individual projects such as All-Region, etudes, and solos as part of the course curriculum and may qualify to participate in individual competitions. All students can earn up to 1 PE credit for participation in the fall semester of marching band during high school. The PE credit will be Pass/Fail and not receive GPA points. Wind Ensemble Applied Music is required for students in Wind Ensemble.

Prerequisite: Audition and director approval

Wind Ensemble Applied Music I	E7110A/B
Wind Ensemble Applied Music II	E7120A/B
Wind Ensemble Applied Music III	E7130A/B
Wind Ensemble Applied Music IV	E7140A/B

Grade 9-12, 1 credit, On-Level weighted GPA

This class serves as the second required block and extension of 'Wind Ensemble', the varsity level band. While 'Wind Ensemble' focuses on group activities, 'Wind Ensemble Applied Music' will focus on the development of individual musicianship and performance qualities. In this course, students will work on intermediate through advanced instrument-specific technique, skill development, and fundamentals. Students will also work on individual projects such as All-Region, etudes, and solos as part of the course curriculum.

Prerequisite: Audition and director approval

Honors Wind Ensemble Applied Music IV	E7141A/B
--	----------

Grade 12, 1 credit, Honors weighted GPA

In addition to the requirements of Wind Ensemble Applied Music IV, advanced requirements include field-based internships, teaching experiences, a research paper with oral defense, concert reviews, elevated performance opportunities, and participation in PISD All District Fine Arts Academy Honor Ensembles.

Prerequisite: Concurrent enrollment in Wind Ensemble, application and director approval required. Students will enroll for Applied Music IV and will be placed into Honors Applied Music by their director.

Symphonic Band I	E6001A/B
Symphonic Band II	E6002A/B
Symphonic Band III	E6003A/B
Symphonic Band IV	E6004A/B

Grade 9-12, 1 credit, On-Level weighted GPA

This class is the second level band and consists of students that play brass and woodwind instruments. In this course, students will work on beginning through advanced instrument-specific technique, skill development, and fundamentals. The class will participate in a variety of ensembles including marching band, concert band, and various small ensembles. Students will also work on individual projects such as All-Region, etudes, and solos as part of the course curriculum and may qualify to participate in individual competitions. All students can earn up to 1 PE credit for participation in the fall semester of marching band during high school. The PE credit will be Pass/Fail and not receive GPA points.

Prerequisite: Audition and director approval

Symphonic Band Applied Music I	E6110A/B
Symphonic Band Applied Music II	E6120A/B
Symphonic Band Applied Music III	E6130A/B
Symphonic Band Applied Music I	E6140A/B

Grade 9-12, 1 credit, On-Level weighted GPA

This class serves as the second required block and extension of 'Symphonic Band', the non-varsity level band. While 'Symphonic Band' focuses on group activities, 'Symphonic Band Applied Music' will focus on development of individual musicianship and performance qualities. In this course, students will work on tailored, ability-based intermediate through advanced instrument-specific technique, skill development, and fundamentals. Students will also work on individual projects such as All-Region, etudes, and solos as part of the course curriculum and may qualify to participate in individual competitions.

Prerequisite: Audition and director approval

Honors Symphonic Band Applied Music IV	E6141A/B
---	----------

Grade 12, 1 credit, Honors weighted GPA

In addition to the requirements of Symphonic Band Applied Music IV, advanced requirements include field-based internships, teaching experiences, a research paper with oral defense, concert reviews, elevated performance opportunities, and participation in PISD All District Fine Arts Academy Honor Ensembles .

Prerequisite: Concurrent enrollment in Symphonic Band, application and director approval required. Students will enroll for Applied Music IV and will be placed into Honors Applied Music by their director.

Concert Winds I	E7009A/B
Concert Winds II	E7010A/B
Concert Winds III	E7011A/B
Concert Winds IV	E7012A/B

Grade 9-12, 1 credit, On-Level weighted GPA

This class is the third level band and consists of students that play brass and woodwind instruments. In this course, students will work on beginning through advanced instrument-specific technique, skill development, and fundamentals. The class will participate in a variety of ensembles including marching band, concert band, and various small ensembles. Students will also work on individual projects such as All-Region, etudes, and solos as part of the course curriculum and may qualify to participate in individual competitions. All students can earn up to 1 PE credit for participation in the fall semester of marching band during high school. The PE credit will be Pass/Fail and not receive GPA points.

Prerequisite: Audition and director approval

Concert Band I	E7005A/B
Concert Band II	E7006A/B
Concert Band III	E7007A/B
Concert Band IV	E7008A/B

Grade 9-12, 1 credit, On-Level weighted GPA

This class is the fourth level band and consists of students that play brass and woodwind instruments. In this course, students will work on beginning through advanced instrument-specific technique, skill development, and fundamentals. The class will participate in a variety of ensembles including marching band, concert band, and various small ensembles. Students will also work on individual projects such as All-Region, etudes, and solos as part of the course curriculum and may qualify to participate in individual competitions. All students can earn up to 1 PE credit for participation in the fall semester of marching band during high school. The PE credit will be Pass/Fail and not receive GPA points.

Prerequisite: Audition and director approval

Percussion I	E7017A/B
Percussion II	E7018A/B
Percussion III	E7019A/B
Percussion IV	E7020A/B

Grade 9-12, 1 credit, On-Level weighted GPA

This class consists of students that play percussion instruments. In this course, students will work on beginning through advanced instrument-specific technique, skill development, and fundamentals. The class will participate in a variety of ensembles including marching band, concert band, winter drumline, and various small ensembles. Students will also work on individual projects such as All-Region, etudes, and solos as part of the course curriculum and may qualify to participate in individual competitions. All students can earn up to 1 PE credit for participation in the fall semester of marching band during high school. The PE credit will be Pass/Fail and not receive GPA points. Percussion Students selected for Wind Ensemble, will be required to take Wind Ensemble OR Wind Ensemble Applied.

Prerequisite: Audition and director approval

Choir

Varsity Treble Choir I	E5101A/B
Varsity Treble Choir II	E5102A/B
Varsity Treble Choir III	E5103A/B
Varsity Treble Choir IV	E5104A/B

Grade 9-12, 1 credit, On-Level weighted GPA

This is the UIL and TMEA competition choir for treble voices. Its membership is by audition only. This choir prepares and performs music of various styles. Repertoire consists of traditional choral, folk, American, and pop music. Many pieces will be performed a cappella. Performance and sight-reading techniques will be taught. Students may participate in individual competitions in addition to performing seasonal concerts.

Prerequisite: None

Varsity Mixed Choir I	E5201A/B
Varsity Mixed Choir II	E5202A/B
Varsity Mixed Choir III	E5203A/B
Varsity Mixed Choir IV	E5204A/B

Grade 9-12, 1 credit, On-Level weighted GPA

This is the UIL and TMEA competition choir for mixed voices. Its membership is by audition only. This choir prepares and performs music of various styles. Repertoire consists of traditional choral, folk, American, and pop music. Many pieces will be performed a cappella. Performance and sight-reading techniques will be taught. Students may participate in individual competitions in addition to performing seasonal concerts.

Prerequisite: None

Chamber Choir I	E5301A/B
Chamber Choir II	E5302A/B
Chamber Choir III	E5303A/B
Chamber Choir IV	E5304A/B

Grade 9-12, 1 credit, On-Level weighted GPA

Chamber Choir is for students with advanced vocal skills and a serious approach to music. Special attention is given to proper part singing, historical performance practice and music theory. Students are expected to prepare individual voice parts outside of class time, and scheduled rehearsals and concert participation is required. Performances include regularly scheduled school concerts, community appearances, assemblies, festivals and contests. This ensemble focuses primarily on choral works from the Renaissance and Baroque through Classical periods. Since student enrollment is capped at a relatively small number, prospective members prepare audition material, and bios in anticipation for the audition. Membership in an additional choir is required.

Prerequisite: None

Bel Canto I	E5105A/B
Bel Canto II	E5106A/B
Bel Canto III	E5107A/B
Bel Canto IV	E5108A/B

Grade 9-12, 1 credit, On-Level weighted GPA

This is the non-varsity UIL and TMEA competition choir for treble voices. Proficiency in sight-reading and vocal tone production are required for this ensemble. Members are selected by the Choral Director only. This choir prepares and performs music of various styles for choral competitions and UIL Concert & Sight-reading. Some rehearsals and performances will take place outside of school hours, and are required by enrollment in this year-long course. Repertoire consists of traditional choral, folk, Americana, and pop music. Performance and sight-reading techniques will be taught. Students may participate in individual competitions in addition to performing seasonal concerts.

Prerequisite: None

Show Choir II	E5002A/B
Show Choir III	E5003A/B
Show Choir IV	E5004A/B

Grade 10-12, 1 credit, On-Level weighted GPA

This is an auditioned, elite group of singers/dancers. Students in this group perform a wide variety of popular and jazz music with intricate harmonies and choreography. Students learn advanced vocal and performance technique. Students in this choir may also participate in individual competitions during the year. This group performs their own show each winter and spring. Membership in an additional choir is required.

Prerequisite: None

Chorale I	E5205A/B
Chorale II	E5206A/B
Chorale III	E5207A/B
Chorale IV	E5208A/B

Grade 9-12, 1 credit, On-Level weighted GPA

This is the non-varsity UIL and TMEA competition choir for mixed voices. Proficiency in sight-reading and vocal tone production are required for this ensemble. Members are selected by the Choral Director only. This choir prepares and performs music of various styles for choral competitions and UIL Concert & Sight-reading. Some rehearsals and performances will take place outside of school hours, and are required by enrollment in this year-long course. Repertoire consists of traditional choral, folk, Americana, and pop music. Performance and sight-reading techniques will be taught. Students may participate in individual competitions in addition to performing seasonal concerts.

Prerequisite: None

Tenor-Bass Choir I	E5601A/B
Tenor-Bass Choir II	E5602A/B
Tenor-Bass Choir III	E5603A/B
Tenor-Bass Choir IV	E5604A/B

Grade 9-12, 1 credit, On-Level weighted GPA

This is the non-varsity UIL and TMEA competition choir for bass voices. Proficiency in sight-reading and vocal tone production are required for this ensemble. Members are selected by the Choral Director only. This choir prepares and performs music of various styles for choral competitions and UIL Concert & Sight-reading. Some rehearsals and performances will take place outside of school hours, and are required by enrollment in this year-long course. Repertoire consists of traditional choral, folk, Americana, and pop music. Performance and sight-reading techniques will be taught. Students may participate in individual competitions in addition to performing seasonal concerts.

Prerequisite: None

Choir Applied Music I	E5710A/B
Choir Applied Music II	E5720A/B
Choir Applied Music III	E5730A/B
Choir Applied Music IV	E5740A/B

Grade 9-12, 1 credit, On-Level weighted GPA

This class serves as the second-block, an extension of any of the three Choir Classes: 'Bel Canto', 'Chorale', or 'Varsity Mixed and Treble'. While 'Bel Canto', 'Chorale', and 'Varsity Mixed and Treble' focus on group activities, 'Applied Music' will focus on individual singing. In this course, students will work on intermediate through advanced vocal technique, skill development, and fundamentals. Students will also work on individual projects such as All-Region, choral etudes, solos, and ensemble as part of the course curriculum and may qualify to participate in individual competitions.

Prerequisite: Audition and director approval

Honors Choir Applied Music IV	E5410A/B
--------------------------------------	----------

Grade 12, 1 credit, Honors weighted GPA

In addition to the requirements of Choir Applied Music IV, advanced requirements include field-based internships, teaching experiences, a research paper with oral defense, concert reviews, elevated performance opportunities, and participation in PISD All District Fine Arts Academy Honor Ensembles .

Prerequisite: Concurrent enrollment in audition-placed choir, application and director approval required. Students will enroll for Choir Applied Music IV and will be placed into Honors Applied Music by their director.

Prerequisite: Concurrent enrollment in auditioned choir, application, and director approval required. Students will enroll for Applied Music IV and will be placed into Honors Applied Music by their director.

Orchestra

Chamber Orchestra I	E8021A/B
Chamber Orchestra II	E8022A/B
Chamber Orchestra III	E8023A/B
Chamber Orchestra IV	E8024A/B

Grade 9-12, 1 Credit, On-Level weighted GPA

The Chamber Orchestra is the top orchestra and is offered to all incoming 9th - 12th grade students who meet the necessary requirements based on prior orchestral experience and an audition. This orchestra provides the members an opportunity to study advanced small group ensemble music and orchestra literature. Chamber Orchestra offers students great variety and challenge in musical performance. Students will continue the advanced development of instrumental technique, music reading and comprehension skills, independent musicianship, style, critical thinking skills, a deeper understanding of small group ensemble music, and orchestra literature. A wide variety of music is explored, music theory and music history are introduced, and analysis and composition allow the orchestra student to learn how to create their own music. In addition, students will develop a strong sense of musicality and a team mentality that will set them up for success as they graduate from high school and enter the workforce. Students are required to practice at home daily and attend all required performances. The Chamber Orchestra will perform outside of class on a regular basis.

Prerequisite: Recommendation of Middle School Orchestra Director or an interview/audition with the instructor.

Symphonic Orchestra I	E8011A/B
Symphonic Orchestra II	E8012A/B
Symphonic Orchestra III	E8013A/B
Symphonic Orchestra IV	E8014A/B

Grade 9-12, 1 Credit, On-Level weighted GPA

Symphonic Orchestra is offered to entering 9th grade orchestra students who display the proper amount of proficiency on one of the four standard orchestral string instruments (violin, viola, cello, and bass) and 10th-12th grade students as a continuation of their previous orchestral experience. Educational emphasis is placed on the advancement of instrumental technique, further development of music reading and comprehension skills, independent musicianship, style, and a deeper understanding of small group ensemble music, and orchestral literature. A wide variety of music is explored, music theory and music history are introduced, and analysis and composition allow the orchestra student to learn how to create their own music. In addition, students will develop a strong sense of musicality and a team mentality that will set them up for success as they graduate from high school and enter the workforce. Students are required to practice at home daily and attend all required performances.

Prerequisite: Recommendation of Middle School Orchestra Director or an interview/audition with the instructor.

Philharmonic Orchestra I	E8031A/B
Philharmonic Orchestra II	E8032A/B
Philharmonic Orchestra III	E8033A/B
Philharmonic Orchestra IV	E8034A/B

Grade 9-12, 1 Credit, On-Level weighted GPA

The Philharmonic Orchestra is offered to entering 9th grade orchestra students who display the proper amount of proficiency on one of the four standard orchestral string instruments (violin, viola, cello, and bass) and 10th-12th grade students as a continuation of their previous orchestral experience. Educational emphasis is placed on the advancement of instrumental technique, further development of music reading and comprehension skills, independent musicianship, style, and a deeper understanding of small group ensemble music, and orchestral literature. A wide variety of music is explored, music theory and music history are introduced, and analysis and composition allow the orchestra student to learn how to create their own music. Students will develop a strong sense of musicality and a team mentality that will set them up for success as they graduate from high school and enter the workforce. Students are required to practice at home daily and attend all required performances. In addition, all students in this class will spend considerable time focusing on many of the intermediate and advanced techniques first offered in their middle school strings class.

Prerequisite: Recommendation of Middle School Orchestra Director or an interview/audition with the instructor.

Orchestra Applied Music I	E8041A/B
Orchestra Applied Music II	E8042A/B
Orchestra Applied Music III	E8043A/B
Orchestra Applied Music IV	E8044A/B

Grade 9-12, 1 credit, On-Level weighted GPA

This class serves as the second-block, an extension of any of the three Orchestra Classes 'Chamber', 'Symphonic', or 'Philharmonic'. While 'Chamber', 'Symphonic', or 'Philharmonic' focus on group activities, 'Applied Music' will focus on individual playing. In this course, students will work on intermediate through advanced instrument-specific technique, skill development, and fundamentals. Students will also work on individual projects such as All-Region, etudes, and solos as part of the course curriculum and may qualify to participate in individual competitions.

Prerequisite: Audition and director approval

Honors Orchestra Applied Music IV	E8045A/B
--	----------

Grade 12, 1 credit, Honors weighted GPA

In addition to the requirements of Orchestra Applied Music IV, advanced requirements include field-based internships, teaching experiences, a research paper with oral defense, concert reviews, elevated performance opportunities, and participation in PISD All District Fine Arts Academy Honor Ensembles.

Prerequisite: Concurrent enrollment in audition-placed orchestra, application, and director approval required. Students will enroll for Orchestra Applied Music IV and will be placed into Honors Applied Music by their director.

Dance

Drill Team I	E0001A/B
Drill Team II	E0002A/B
Drill Team III	E0003A/B
Drill Team IV	E0004A/B

Grade 9-12, 1 credit, On-Level weighted GPA

Students in the Drill Team class are auditioned members of their respective HS Dance and Drill Team. Tryouts are held late in the spring and commitment lasts for a full school year. Members concentrate on dance and kick technique, drill team etiquette, performance fundamentals, and development as trained precision and competition dancers. Students will receive an additional credit in physical education when taking Dance 1/Drill Team 1. The PE credit will be Pass/Fail and not count towards GPA.

Prerequisite: Audition

- Students participating in Prosper ISD Drill Team are **REQUIRED** to have an annual physical and complete all appropriate paperwork prior to participation in tryouts, practices, and games.
- Physicals must be dated on or after April 1, 2024 for participation for the 2024-2025 school year. Physicals must be completed on the official UIL physical form. PISD athletics will provide an opportunity for students to receive a physical for a nominal fee in May each year. Student athletes meeting all of the free or reduced lunch requirements will be given the opportunity to receive a physical for free or at a reduced rate.
- Drill Team members must be able to attend practices and games before school, after school, Saturdays and some Holidays - winter break, spring break, etc.
- All students involved in extracurricular activities follow co-curricular guidelines that hold students to a higher standard regarding personal conduct.
- According to UIL rules, students must maintain a 70 average in all of their classes to remain eligible for competition.

Drill Team Prep I and II	E001PA/B E002PA/B
---------------------------------	----------------------

Grade 9-11, 1 credit, On-Level weighted GPA

Drill Team Preparation Class is designed for developing dancers who are interested in auditioning for the drill team in an upcoming school year. This course also allows students to develop these skills while experiencing what the drill team offers before committing to the intensive schedule and responsibilities involved in being on the team. Students may earn a fine arts credit and Lifetime Fitness and Wellness PE credit for Drill Team Prep I if not enrolled in another physical education course.

Prerequisite: None

Dance I

E1001A/B

Dance II

E1002A/B

Grade 9-12, 1 credit, On-Level weighted GPA

Dance I & II students will work to develop basic dance technique and skills. The classes will cover different styles of dance throughout the year with assessments focusing on individual student growth in technique and choreography. This class will help develop perceptual thinking and movement abilities that promote understanding of themselves and others; consequently, students enrolled in Dance I/II should emerge as versatile movers and technicians. By mastering movement principles and skills, students develop self-discipline and healthy bodies that move expressively, efficiently, and safely through space and time with controlled energy. Dance attire: Any activewear within the school dress code guidelines. Students may earn a fine arts credit and Lifetime Fitness and Wellness PE credit for Dance I if not enrolled in another physical education course.

Prerequisite: Dance I is required for a student to take Dance II

Dance III

E1003A/B

Dance IV

E1004A/B

Grade 11-12, 1 credit, On-Level weighted GPA

Dance III & IV students will develop advanced dance techniques and skills through training, movement, conditioning, and choreography. The classes will cover different styles of dance. This class will help prepare students for dance beyond high school and in developing concepts through movement and music to enhance the understanding of dance as an art of communication. Dance will promote understanding of themselves and others and allow them to utilize dance as an artistic medium. By mastering movement principles and skills, students develop self-discipline, self-esteem, and healthy bodies that move expressively, efficiently, and safely through space and time with controlled, purposeful energy.

Prerequisite: Dance I and Dance II

Theatre

**All Theatre Arts Courses are On-Level weighted GPA*

Theatre Arts I

E2001A/B

Grade 9-12, 1 credit, On-Level weighted GPA

This course of study is designed as an introductory survey in the fundamentals of theatre, including the role of the actor, the role of the technician, the interpretation of dramatic literature, the development of the physical theatre, and the historical movements and trends in theatre. Through performance and evaluation, the student develops physical, vocal, and mental processes with an emphasis on interpretation, body movement, and characterization.

Prerequisite: None

Theatre Arts II

E2012A/B

Grade 9-12, 1 credit, On-Level weighted GPA

This course of study is designed to further develop the student as an actor through performing and analyzing quality dramatic literature, as well as successfully evaluating and critiquing dramatic works. The primary focus of this course includes learning the principles of acting, exploring comedic and dramatic theory, developing stage movement, and increasing experience in scene work and/or play production.

Prerequisite: Theatre Arts I OR director approval if in 9th grade

Theatre Arts III

E2013A/B

Grade 10-12, 1 credit, On-Level weighted GPA

This course of study is designed as an advanced acting course, and builds upon previously learned content to help students achieve mastery in theatrical performance. The primary focus of this course includes refining the techniques of acting, analyzing culturally relevant works, preparing scenes from classical and modern eras, and increasing experience in scene work and/or play production.

Prerequisite: Theatre Arts II

Theatre Arts IV

E2014A/B

Grade 11-12, 1 credit, On-Level weighted GPA

This course of study is designed as a mastery level course in acting for the stage. Students will utilize their knowledge of technique and method in class performances, play productions, critical evaluations, and portfolio development for college/career preparation. The primary focus of this course includes playwriting and directing as well. Students will learn the fundamentals of playwriting, directing, producing, and managing for the theatre, culminating in an original play script, a self-directed one-act play, or similarly rigorous capstone project.

Prerequisite: Theatre Arts III

Technical Theatre I

E3001A/B

Grade 9-12, 1 credit, On-Level weighted GPA

This course of study is designed as an introductory survey in the fundamentals of technical theatre, including safety, terminology, history, as well as the exploration of all tech theatre disciplines. Through production design and project-based learning, the student will study the application of set, lighting, sound, costumes, props, makeup, publicity, and house/stage management.

Prerequisite: None

Technical Theatre II - Stagecraft II	E3006A/B
Technical Theatre III - Stagecraft III	E3007A/B
Technical Theatre IV - Stagecraft IV	E3008A/B

Grade 10-12, 1 credit, On-Level weighted GPA

This course of study is designed for the student who wants to continue to pursue scenic, lighting, sound, prop, and/or management disciplines within Technical Theatre. This course will allow students to explore focuses among these technical disciplines, as well as improve upon more specific skills and techniques. These students may build, hang and focus lighting fixtures, acquire and manipulate theatrical soundscapes, and design/construct props. The curriculum will be extensively hands-on and project-based.

Prerequisite: Technical Theatre I

Technical Theatre II - Costume Construction II	E2007A/B
Technical Theatre III - Costume Construction III	E2008A/B
Technical Theatre IV - Costume Construction IV	E2009A/B

Grade 10-12, 1 credit, On-Level weighted GPA

This course of study is designed to build upon students' learning of basic sewing skills from Technical Theatre I, and explore more complex stitches and techniques. Throughout the year students will build costume pieces, design costume plots, and will have the opportunity to work backstage for a production. This class will cover costume history, drawing, design, construction, color palettes, and portfolio building for college and career readiness. Students in this class typically hold a costume crew position in extracurricular theatrical productions.

Prerequisite: Technical Theatre I OR Theatre Arts I with director approval

Technical Theatre II - Theatrical Make-Up II	E2016A/B
Technical Theatre III - Theatrical Make-Up III	E2017A/B
Technical Theatre IV - Theatrical Make-Up IV	E2018A/B

Grade 10-12, 1 credit, On-Level weighted GPA

This course of study is designed to build upon students' learning of basic stage makeup from Technical Theatre I, and explore more complex techniques for old age, fantasy, gore, and multi-media makeup. Students may also have opportunities to use cake make-up, HD make-up, grease paint, and SFX makeup. In this course, students are expected to purchase various supplies that will be intended for their personal use only. Students in this class typically hold a makeup/hair crew position in extracurricular theatrical productions.

Prerequisite: Technical Theatre I OR Theatre Arts I with director approval

Directing I	E4009A/B
--------------------	----------

Grade 11-12, 1 credit, On-Level weighted GPA

This course of study is designed for the student seriously interested in directing for theatre arts. Students will build upon their knowledge of acting and tech theatre in order to analyze scripts, evaluate critically, effectively delegate, and artistically lead, all while building a portfolio for college/career preparation. The main focus of this course includes directing intermediate level acting students, primarily in a theatrical setting, with supplemental explorations of directing for film and television. Students will learn the fundamentals of directing, producing, and managing for the theatre, culminating in a self-directed one-act play, or similarly rigorous capstone project.

Prerequisite: Theatre Production or Theatre Arts II

Directing II

E4010A/B

Grade 12, 1 credit, On-Level weighted GPA

This course of study is designed for the student seriously interested in directing for theatre arts. Students will build upon their knowledge of acting and tech theatre in order to analyze scripts, evaluate critically, effectively delegate, and artistically lead, all while building a portfolio for college/career preparation. The main focus of this course includes directing intermediate level acting students, primarily in a theatrical setting, with supplemental explorations of directing for film and television. Students will learn the fundamentals of directing, producing, and managing for the theatre, culminating in a self-directed one-act play, or similarly rigorous capstone project.

Prerequisite: Directing I

Theatre Production I

E4001A/B

Theatre Production II

E4002A/B

Theatre Production III

E4003A/B

Theatre Production IV

E4004A/B

Grade 9-12, 1 credit, On-Level weighted GPA

This course of study will provide a laboratory learning experience for the exploration, development, and synthesis of all elements and components of Theatre Arts, both performance and technical. The primary focus of these courses is participation in all school theatre productions and activities.

Prerequisite: Audition ONLY

Musical Theatre Arts I

E2021A/B

Grade 9-12, 1 credit, On-Level weighted GPA

This course of study is designed as an introduction to all of the fundamentals of Musical Theatre, including the role of the musical theatre performer, the interpretation of musical literature, the balance of acting, singing, and dancing, as well as the historical movements and trends of musical theatre. The primary focus of these courses is performance, evaluation, production, and college/career preparation, including portfolio building and auditioning techniques.

Prerequisite: None

Musical Theatre Arts II

E2022A/B

Musical Theatre Arts III

E2023A/B

Musical Theatre Arts IV

E2024A/B

Grade 10-12, 1 credit, On-Level weighted GPA

This course of study is designed as an introduction to all of the fundamentals of Musical Theatre, including the role of the musical theatre performer, the interpretation of musical literature, the balance of acting, singing, and dancing, as well as the historical movements and trends of musical theatre. The primary focus of these courses is performance, evaluation, production, and college/career preparation, including portfolio building and auditioning techniques.

Prerequisite: Director Approval

CTE Courses for Fine Arts credit

Floral Design

FLORDA/B

Grade 10-12, 1 credit, On-Level weighted GPA

Students will identify and demonstrate the principles and techniques related to floral design as well as an understanding of the management of floral enterprises. This course fulfills the fine arts credit required for graduation.

Prerequisite: None

Digital Art and Animation

T9703A/B

Grade 9-12, 1 credit, On-Level weighted GPA

This course consists of computer images and animations created with digital imaging software such as Adobe: Photoshop, Illustrator, and Animate. Digital Art and Animation has applications in many careers, such as graphic design, advertising, web design, animation, and magazine, film, television, and game industries. Students will learn the basic software skills while incorporating the design principles in their unique projects. This course satisfies the fine arts graduation requirement.

Prerequisite: None

3D Modeling and Animation

T9704A/B

Grade 10-12, 1 credit, On-Level weighted GPA

This course consists of computer images created in a virtual three-dimensional (3D) environment. Applications in careers, including criminal justice, crime scene and legal applications; construction and architecture; engineering and design; and the movie and game industries will be explored. Students in this course will produce various 3D models of real-world objects using software such as Maxon Cinema 4D and Blender. This course satisfies the fine arts graduation requirement.

Recommended Prerequisite: Digital Art and Animation

Physical Education and Athletics

Physical Education

Lifetime Fitness and Wellness

PELFWA/B

Grade 9-12, 1 credit, On-Level weighted GPA

This course introduces the student to basic fitness principles, physical activity and the relationship between these factors and developing a healthy lifestyle. Knowledge and skills acquired in this course include fitness and training, principles of weightlifting, interval training, circuit training, high intensity interval training, as well as nutrition, weight control, and stress management.

Prerequisite: None

Lifetime Recreation and Outdoor Pursuits

PELROA/B

Grade 9-12, 1 credit, On-Level weighted GPA

Students enrolled in this course are expected to develop competency in outdoor education activities that provide opportunities for enjoyment and challenge. Emphasis is placed upon student selection of activities that also promote a respect for the environment and that can be enjoyed for a lifetime.

Prerequisite: None

Skill-Based Lifetime Activities

PESBLA/B

Grade 9-12, 1 credit, On-Level weighted GPA

This course is designed to foster proficiencies, competition, and fitness in team and individual activities including but not limited to: soccer, softball, tennis, volleyball, basketball, flag football, pickleball, badminton, golf, and ultimate Frisbee. Students will develop strategies and skills for each activity with an emphasis on lifetime fitness.

Prerequisite: None

Partners Physical Education

PEPA1A/B

Grade 9-12, 1 credit, On-Level weighted GPA

The focus of the class is to provide individualized instruction and an expanded curriculum (i.e., community based instruction and lifetime leisure activities) to our students with disabilities, in order to maximize their opportunities for participation, skill acquisition, and meaningful social interactions. The class will utilize peer partners to aid in providing instruction to our students with disabilities.

Prerequisite: None

Cheer

Grade 9-12, 1 credit, On-Level weighted GPA

CHER1A/B
CHER2A/B
CHER3A/B
CHER4A/B

Students who make the cheer team will be placed in the cheer class by the counselors once the team roster has been provided by the cheer coach. Students can earn 1 credit for cheer and up to 3 credits for athletic substitution.

- Students participating in Prosper ISD Cheer are REQUIRED to have an annual physical and complete all appropriate paperwork prior to participation in tryouts, practices, and games.
- Physicals must be dated on or after April 1, 2024 for participation in athletics for the 2024-2025 school year. Physicals must be completed on the official UIL physical form. PISD athletics will provide an opportunity for students to receive a physical for a nominal fee in May each year. Student athletes meeting all of the free or reduced lunch requirements will be given the opportunity to receive a physical for free or at a reduced rate.
- Cheerleaders must be able to attend practices and games before school, after school, Saturdays and some Holidays - winter break, spring break, etc.
- All students involved in extracurricular activities follow co-curricular guidelines that hold students to a higher standard regarding personal conduct.
- According to UIL rules, students must maintain a 70 average in all of their classes to remain eligible for competition.

Prerequisite: Tryout

Junior Reserves Officers Corps I

ROTCPA/B

Grade 9-12, 1 credit, On-Level weighted GPA

The program is designed to teach high school students character education, student achievement, wellness, and leadership. The focus of all instruction is on the enhancement of responsible citizenship and leadership. Through the Corps of Cadets, students learn to take and respond to orders, prepare for higher positions of responsibility, develop self-discipline, pride, bearing, self-control, and teamwork. Students may participate in extracurricular activities such as color guard. Several extracurricular competitions and other activities involving all members of the Corps of Cadets are conducted throughout the school year. A student who successfully completes JROTC may receive a substitution for the state PE requirement (1 credit) through participation in two semesters of the JROTC. Students do not incur any military obligation by participating in JROTC courses. Uniforms are provided/fitted at no cost

Prerequisite: None

Off-Campus PE

Grade 9-12, 0.5 credit, No GPA credits

PE1OFA/B
PE2OFA/B
PE3OFA/B
PE4OFA/B

Students can earn up to 4 credits for Off-Campus PE during high school. Students must complete an Off-Campus PE application, pay a fee to participate, and report grades each nine weeks. Off-Campus PE is designed for students who participate in Olympic level, highly competitive and intense physical activity or performance more than 15 hours per week.

Prerequisite: Application and fee required

Athletics

Athletics is intended for students interested in playing competitive sports. Athletic participation is a privilege, not a right and student athletes are held to a higher standard of conduct. Any questions concerning participation should be addressed to the specific coach or campus athletic coordinator **after** you enroll in Prosper ISD. If you have questions **prior to** enrolling, you must contact the Assistant Athletic Director, Michael Sain, 469-219-2215 or masain@prosper-isd.net.

NOTE: UIL rules specifically prohibit students from being enrolled in more than one physical education, and/or athletic class; Exception: PE Class: Adventure/Outdoor Education; PE Substitute: Cheerleading, Drill Team, Marching Band.

The following sports are available at the high school level:

Baseball	Golf	Tennis
Basketball	Powerlifting	Track and Field
Cross Country	Soccer	Volleyball
Diving	Softball	Water Polo
Football	Swimming	Wrestling

Students should request the specific sport they wish to play rather than “Athletics”. Most sports are offered as year-long courses. Students that wish to participate in more than one sport must contact the Coach of each sport to discuss the request. Students must have a period of Athletics on their schedule in order to participate.

Course Number - Counselor will add students to the course after coach approval

Grade 9-12, .5 credit (up to a maximum of 4 credits), On-Level weighted GPA

Prerequisite: Coach’s approval and/or tryout process

- Students participating in Prosper ISD Athletics are REQUIRED to have an annual physical and complete all appropriate paperwork prior to participation in tryouts, practices, and games.
- Physicals must be dated on or after March 1, 2024 for participation in athletics for the 2024-2025 school year. Physicals must be completed on the official UIL physical form. PISD athletics will provide an opportunity for students to receive a physical for a nominal fee in May each year. Student athletes meeting all of the free or reduced lunch requirements will be given the opportunity to receive a physical for free or at a reduced rate.
- Athletes must be able to attend practices and games before school, after school, Saturdays and some Holidays - winter break, spring break, etc.
- All students involved in extracurricular activities follow co-curricular guidelines that hold students to a higher standard regarding personal conduct.
- According to UIL rules, student athletes must maintain a 70 average in all of their classes to remain eligible for competition.

General Electives

AP Seminar

APSEMA/B

Grade 10-12, 1 credit, AP/DC weighted GPA

AP Seminar is the first required course for AP Capstone. The Capstone program is an innovative college-level program. Students who earn scores of 3 or higher in AP Seminar and AP Research and on four additional AP exams of their choosing receive the AP Capstone Diploma. Seniors that elect to take this course will not be eligible for the AP Capstone Diploma as they are not eligible for the second year course AP Research.

AP Seminar is a foundational course that engages students in cross-curricular conversations where they can explore the complexities of academic real-world topics and issues by analyzing divergent perspectives. Using an inquiry framework, students practice reading and analyzing articles, research studies, and foundational, literary, and philosophical texts; listening to and viewing speeches, broadcasts, and personal accounts, and experiencing artistic works and performances. They synthesize information from multiple sources, develop their own perspectives in written essays, and design and deliver oral and visual presentations, both individually and as a team. Students will be assessed through two course performance tasks and one end-of-course exam. All three assessments are summative and used to calculate the AP score (using the 1-5 scale) for AP Seminar.

Prerequisite: None

AP Research

APRESA/B

Grade 11-12, 1 credit, AP/DC weighted GPA

AP Research is the second required course for AP Capstone. The Capstone program is an innovative college-level program. Students who earn scores of 3 or higher in AP Seminar and AP Research and on four additional AP exams of their choosing receive the AP Capstone Diploma.

AP Research, the second course in the AP Capstone experience, allows students to deeply explore an academic topic, problem, issue, or idea of individual interest. Students design, plan, and implement a yearlong investigation to address a research question. Through this inquiry, they further the skills they acquired in the AP Seminar course by learning research methodology, employing ethical research practices, and accessing, analyzing, and synthesizing information. Students reflect on their skill development, document their processes, and curate the artifacts of their scholarly work through a process and reflection portfolio. The course culminates in an academic paper of 4,000-5,000 words (accompanied by a performance, exhibit, or product where applicable) and a presentation with an oral defense.

Prerequisite: AP Seminar

Hope Squad

HOPE1A/B

Grade 9-12, 1 credit, On-Level weighted GPA

Hope Squads students are the eyes and ears of your school. Hope Squad students work with school advisors and students are trained to watch for at-risk peers, provide friendship, identify warning signs, and seek help from adults. Hope Squad students are identified by their classmates as trustworthy peers to serve as Hope Squad members.

Prerequisite: Nominated by peers at end of each year

Innovations in Instructional Technology Internship

INSTTA/B

Grade 11-12, 1 credit, On-Level weighted GPA

Interns learn the machinery and processes of Instructional Technology, and how it supports learning in the classroom and the makerspace environment. Interns work towards mastery by aiding students and supporting staff in implementing skills to be successful in various project enhancing technologies. Includes topics such as safety, design thinking, peer-to-peer instruction, and hands-on application.

Prerequisite: Application

Junior Reserves Officers Corps I

ROTC1A/B

Grade 9-12, 1 credit, On-Level weighted GPA

The program is designed to teach high school students character education, student achievement, wellness, and leadership. The focus of all instruction is on the enhancement of responsible citizenship and leadership. Through the Corps of Cadets, students learn to take and respond to orders, prepare for higher positions of responsibility, develop self-discipline, pride, bearing, self-control, and teamwork. Students may participate in extracurricular activities such as color guard. Several extracurricular competitions and other activities involving all members of the Corps of Cadets are conducted throughout the school year. A student who successfully completes JROTC may receive a substitution for the state PE requirement (1 credit) through participation in two semesters of the JROTC.

Students do not incur any military obligation by participating in JROTC courses. Uniforms are provided/fitted at no cost

Prerequisite: None

Junior Reserves Officers Corps II

ROTC2A/B

Grade 10-12, 1 credit, On-Level weighted GPA

The program is designed to teach high school students character education, student achievement, wellness, and leadership. Prerequisite: Junior Reserves Officers Corps II

Partners Physical Education- Peer Assistance

PEPARA/B

Grade 9-12, 1 credit, On-Level weighted GPA

The focus of the class is to provide individualized instruction and an expanded curriculum (i.e., community based instruction and lifetime leisure activities) to our students with disabilities, in order to maximize their opportunities for participation, skill acquisition, and meaningful social interactions. The class will utilize peer partners to aid in providing instruction to our students with disabilities.

*Students who have already taken and received credit for this course and want to continue to be a part of the program can apply to be a partner mentor. Partner mentors will receive local credit only.

Prerequisite: Application

Prosper Career Independent Study I

PRIS1A/B

Grade 11-12, 1 credit, AP/DC weighted GPA

Students focus their study on a career topic of their choice. Course expectations include the development of an extensive research portfolio and written assessments of interviews and/or observations of people who work in that career field. PCIS is an academically rigorous course that receives weighted credit.

Prerequisite: Application, teacher recommendations, interview

Prosper Career Independent Study II

PRIS2A/B

Grade 12, 1 credit, AP/DC weighted GPA

Enrollment in this course requires a portfolio application demonstrating a level of excellence earned in PCIS I and a rationale explaining why the student will benefit from taking the course a second time. The course skills and learning goals are identical to PCIS Study I.

Prerequisite: PCIS1A/B, application, teacher recommendations, interview

SAT/ACT Test Prep

SATCRS

Grade 10-12, .5 Local credit, NO GPA is awarded for the class

The SAT/ACT course will include the study of vocabulary, syntax and other writing skills, reading passage analysis, algebra, geometry, trigonometry, data analysis, and problem-solving as they relate to the type of questions asked on the SAT/ACT tests. Students will have many opportunities to take sample tests, discuss questions and answers with peers and instructors, and to correct answers they missed as this has proven to be one of the most effective methods for increasing test scores. Students will also be exposed to many helpful time-saving test-taking strategies. Local credits do not count towards graduation credits.

Prerequisite: None

Sports Medicine I
Sports Medicine II
Sports Medicine III

SPMD1A/B
SPMD2A/B
SPMD3A/B

Grade 9-12, 1 credit, On-Level weighted GPA

This general elective course provides an opportunity for the study and application of the components of sports medicine including but not limited to: sports medicine related careers, organizational and administrative considerations, prevention of athletic injuries, recognition, evaluation, and immediate care of athletic injuries, rehabilitation and management skills, taping and wrapping techniques, first aid/CPR/AED, emergency procedures, nutrition, sports psychology, human anatomy and physiology, therapeutic modalities, and therapeutic exercise. Enrollment in Sports Medicine requires a commitment to before and after school practice and evening and weekend athletic events.

Prerequisite: Application

Student Leadership

STULDA/B

Grade 11-12, 1 credit, On-Level weighted GPA

This course provides opportunities to study, to practice, and to develop group and individual leadership and organizational skills in decision-making, problem-solving, communication, leadership, human relations, and civic responsibility. Students enrolled in this course will apply these skills in dealing with peers, school administration, and the community. This is a project based class. Students may only earn one state credit for this course.

Prerequisite: Application

Team Sports Officiating

TEAMOA/B

Grade 9-12, 1 credit, On-Level weighted GPA

Students enrolled in Team Sport Officiating learn rules and regulations of selected team sports, developing skills in the area of communication, decision making, and conflict management which are needed to officiate team sport competitions. Working with coaches, players, other officials, and parents, the expectation is that by the end of the course students will have the ability to officiate at various levels and manage responsibilities that come with the role.

Prerequisite: None

Office Aide

Grade 12, No Credit

Juniors and seniors who are on track to earn the required number of credits to graduate on time, have achieved CCMR status, and have appropriate discipline may choose to be an office aide. No credit is awarded for release periods.

Prerequisite: Achieved CCMR status and have appropriate discipline

Release Period

Grade 11-12, No Credit

Juniors and seniors who are on track to earn the required number of credits to graduate on time, have achieved CCMR status or are enrolled in course(s) to achieve CCMR at the end of the school year, and have appropriate discipline may choose to have a release period. Juniors may choose only one off period (first period or last period of the day); they are only allowed an off period every other day (one period). Seniors may choose to be off the first period or the last period everyday (two periods) Students who select this option must provide their own transportation to arrive or leave campus. No credit is awarded for release periods.

Prerequisite: Achieved CCMR status or enrolled in course(s) to achieve CCMR at the end of the school year and have appropriate discipline

Career and Technical Education (CTE)

Mission & Purpose of Career and Technical Education

The mission of Prosper ISD's Career and Technical Education (CTE) is to provide students meaningful experiences in their program of study, provide a challenging academic and technical program, and give the tools necessary to compete in a global workforce and postsecondary education.

Career & Technical Education Programs

Prosper ISD houses CTE courses in all middle school and high school campuses. Students will remain on their home campus for all coursework with the exception of a few courses designated at specific campuses. If a course is not offered at their home campus then transportation will be provided on a case by case basis..

Prosper ISD CTE allows students to explore postsecondary and career options with an industry-standard learning experience. Students are able to pursue an interest rather than make a lifelong commitment. This allows an opportunity for students to choose courses that truly interest them, providing a meaningful connection to the curriculum and school. Due to limitations in some field site placements and the competitive nature of the programs, completing the prerequisites does not guarantee a position in some of the CTE Courses offered.

Programs may have fees associated with them for lab materials, supplies, student organization costs, industry-standard or professional certification examinations, and uniforms or standard dress requirements.

For more information, visit the Prosper ISD CTE website at <https://www.prosper-isd.net/Page/16865>

Public Notification of Nondiscrimination in Career and Technical Education Programs

Prosper ISD offers Career and Technical Education Programs in Agriculture, Food & Natural Resources, Architecture, Arts, A/V Technology & Communications, Business Management & Administration, Education & Training, Finance, Health Science, Hospitality & Tourism, Human Services, Law, Public Safety, Corrections & Security, Manufacturing, Marketing, STEM, and Transportation, Distribution & Logistics. Admission to these programs is based on interest and aptitude, age appropriateness, and class space available.

It is the policy of the Prosper Independent School District not to discriminate on the basis of race, color, national origin, sex, handicap, or age in its employment practices and/or its career and technical education programs, services or activities as required by Title VI of the Civil Rights Act of 1964, as amended; title IX of the Education Amendments of 1972, the Age Discrimination Act of 1975, as amended; and Section 504 of the Rehabilitation Act of 1973, as amended.

The Prosper Independent School District will take steps to ensure that lack of English language skills will not be a barrier to admission and participation in all educational and career and technical education programs. The Prosper Independent School District offers a free and appropriate education to eligible students.

For information about your rights or grievance procedures, contact the Title IX Coordinator, Jane Matthews, at (469)219-2000.

Prerequisite Acknowledgement

The following course(s) will need a CTE Program Qualification form submitted.

Advanced Culinary Arts	Practicum in Culinary Arts
Agricultural Structures Design, and Fabrication	Practicum in Digital Audio Technology
Automotive Technology I: Maintenance and Light Repair	Practicum in Education and Training (Ready, Set, Teach II)
Automotive Technology II: Automotive Service	Practicum in Entrepreneurship
Broadcast News Team - Audio Video Production II	Practicum in Entrepreneurship - Exercise Science
Broadcast Team- Audio/Video Production 1	Practicum in Entrepreneurship - Newspaper
Culinary Arts	Practicum in Entrepreneurship - Photography
Fashion Design II	Practicum in Entrepreneurship - Yearbook
Newspaper I Graphic Design and Illustration I	Practicum in Floral Design
Newspaper II Graphic Design and Illustration II	Practicum in Law, Public Safety, Corrections, and Security
Pharmacology	Practicum in Veterinary Medicine
Practicum in Agricultural Engineering	Retail Management - School Store
Practicum in Architectural Design	Yearbook I Graphic Design and Illustration I
Practicum in Audio Video Production	Yearbook II Graphic Design and Illustration II

Prosper ISD Career & Technical Education (CTE) Program Qualification Form

This form is required for all practicum, work-based learning courses, and some courses that require time outside of the classroom offered at Prosper ISD CTE. Most of these courses require complete prerequisite courses. Students are responsible for any prerequisite courses in their chosen program of study. The PISD High School course catalog contains information about grade level, credits, course descriptions, prerequisite courses, and if the course has fees associated for certifications, materials, and supplies. Because of site limitations and program seat availability, simply selecting the course and filling out the form does not guarantee actual enrollment in the desired course(s) for the upcoming school year. This form must be completed in entirety.

To access the CTE Program Qualification form, please click visit <https://bit.ly/CTEQUAL>, if applicable.

Agriculture, Food, and Natural Resources

- **Animal Science**
- **Agriculture Technology and Mechanical Systems**
- **Plant Science**

Animal Science

The Animal Science program of study focuses on the science, research, and business of animals and other living organisms. It teaches CTE learners how to apply biology and life science to real-world life processes of animals and wildlife, either in laboratories or in the field, which could include a veterinary office, a farm or ranch, or any outdoor area harboring animal life. Students may also research and analyze the growth and destruction of species and research or diagnose diseases and injuries of animals.

This program participates in the following organization: Future Farmers of America (FFA)

RECOMMENDED COURSE SEQUENCE

Principles of Agriculture, Food, and Natural Resources (PRAFNA/B)

Grade 9–12, 1 credit, Level 1, On-Level weighted GPA

This course is designed to develop student knowledge and skills of the agricultural industry as it relates to plant and animal systems, food production, mechanical systems, entrepreneurship, leadership, and environmental sciences. Students will be provided with hands-on opportunities to gain valuable experiences to prepare students for industry standards.

Small Animal Management (SMANMG)

Grade 10–12, 0.5 credit, Level 2, On-Level weighted GPA

This course covers small animals and the small animal management industry. Small Animal Management may address topics related to small mammals such as dogs and cats, amphibians, reptiles, and birds.

Equine Science (EQUISC)

Grade 10–12, 0.5 credit, Level 2, On-Level weighted GPA

Students will gain skills related to equine animal systems and the equine industry. Topics may include horses, donkeys, and mules.

AND

OR

Livestock Production * (LIVPRA/B)

Grade 10–12, 1 credit, Level 3, On-Level weighted GPA

This course provides knowledge and skills related to animal systems and the career opportunities, entry requirements and industry expectations in this field. Some animals included in the course of study are beef cattle, dairy cattle, sheep, goats, and poultry.

Veterinary Medical Applications * (VETMDA/B)

Grade 11–12, 1 credit, Level 4, On-Level weighted GPA

This course provides knowledge and skills related to large and small animal systems used in veterinary practices.

Prerequisite: *Small Animal Management (semester course), Equine Science (semester course), or Livestock Production.*

Practicum in Veterinary Medicine * (HPAVMA/B)

Grade 12, 2 credits, Level 4, Honors weighted GPA

This is an internship-based course that follows the coherent sequence of veterinary medical applications courses. Practicum experiences give students a supervised application of real world experiences in the animal industry, such as veterinary medicine or pet care, to develop a deeper knowledge and skill of the industry.

Prerequisite: *Veterinary Medical Applications and Program Qualification Form*

Certification: *Certified Veterinarian Assistant Level 1*

Agricultural Technology and Mechanical Systems

The Agricultural Technology and Mechanical Systems program of study explores the occupations and educational opportunities associated with applying knowledge of engineering technology and biological science to agricultural problems concerned with power and machinery, electrification, structures, soil and water conservation, and processing agricultural products. This program of study may also include exploration into diagnosing, repairing, or overhauling farm machinery and vehicles, such as tractors, harvesters, dairy equipment, and irrigation systems.

This program participates in the following organization: Future Farmers of America (FFA)

RECOMMENDED COURSE SEQUENCE

Principles of Agriculture, Food, and Natural Resources (PRAFNA/B)

Grade 9–12, 1 credit, Level 1, On-Level weighted GPA

This course is designed to develop student knowledge and skills of the agricultural industry as it relates to plant and animal systems, food production, mechanical systems, entrepreneurship, leadership, and environmental sciences. Students will be provided with hands-on opportunities to gain valuable experiences to prepare students for industry standards.

Agricultural Mechanics and Metal Technologies (AGMMTA/B)

Grade 10–12, 1 credit, Level 2, On-Level weighted GPA

This course prepares students for careers in agriculture power, structural, and technical systems by developing skills and understanding as it relates to safety in tool operation, electrical wiring, plumbing, carpentry, fencing, concrete, and metal techniques/welding. Not offered at all campuses, transportation provided.

Certification: AWS D1.1 & D9.1 – 2F Stick

Agricultural Structures Design, and Fabrication * (AGSTDA/B)

Grade 11–12, 2 credits, Level 3, On-Level weighted GPA

This course prepares students for careers in mechanized agriculture and technical systems by developing knowledge and skills related to agricultural facilities design and fabrication. Not offered at all campuses, transportation provided.

Prerequisite: Agriculture Mechanics and Metal Technologies and Program Qualification Form

Certification: AWS D1.1 & D9.1 – 2F MIG

Practicum in Agricultural Engineering * (HPAAGA/B)

Grade 12, 2 credits, Level 4, Honors weighted GPA

This is a capstone experience for students participating in a coherent sequence of courses in Agricultural Mechanics. Practicum experiences are designed to give students supervised practical application appropriate to the level and nature of skills acquired in their chosen sequence.

Not offered at all campuses, transportation provided.

Prerequisite: Agricultural Structures Design, and Fabrication and Program Qualification Form

Certification: AWS D1.1 & D9.1 – 4F MIG/Stick

Plant Science

The Plant Science program of study focuses on the science, research, and business of plants and other living organisms. It teaches students how to apply biology and life science to real-world life processes of plants and vegetation, either in laboratories or in the field.

This program participates in the following organization: Future Farmers of America (FFA)

RECOMMENDED COURSE SEQUENCE

Principles of Agriculture, Food, and Natural Resources (PRAFNA/B)

Grade 9–12, 1 credit, Level 1, On–Level weighted GPA

This course is designed to develop student knowledge and skills of the agricultural industry as it relates to plant and animal systems, food production, mechanical systems, entrepreneurship, leadership, and environmental sciences. Students will be provided with hands-on opportunities to gain valuable experiences to prepare students for industry standards.

Floral Design * (FLORDA/B)

Grade 10–12, 1 credit, Level 3, On–Level weighted GPA

Students will identify and demonstrate the principles and techniques related to floral design as well as an understanding of the management of floral enterprises. This course fulfills the fine arts credit required for graduation.

Recommend Prerequisite: *Principles of Agriculture, Food, and Natural Resources*

Certification: *Texas State Florist's Association Knowledge Based Floral*

Advanced Floral Design * (ADFLDA/B)

Grade 11–12, 1 credit, Level 4, On–Level weighted GPA

In this course, students build on knowledge gained from Floral Design and are introduced to more advanced concepts, with an emphasis on specialty designs and specific occasion planning.

Prerequisite: *Floral Design*

Certification: *Texas State Florist's Association Level I Floral Certification*

Practicum in Floral Design * (HPAHFA/B)

Grade 12, 2 credits, Level 4, Honors weighted GPA

This is a capstone experience for students participating in a coherent sequence of courses in Horticulture and Floral Design. Practicum experiences are designed to give students supervised practical application appropriate to the level and nature of skills acquired in their chosen sequence.

Prerequisite: *Advance Floral Design and Program Qualification Form*

Certification: *Texas State Florist's Association Level II Floral Certification*

A collage of architectural materials. In the top left, a color chart with various shades of brown and tan is visible, with the text 'PERLOME ACAPULCO' printed vertically. To its right is a technical drawing of a window or door frame with dimensions like '124', '25', '22', and '15'. Below the color chart, there are more color swatches, some labeled 'MANHATTAN' and 'SKA FLORYDA'. In the bottom left, a material sample labeled 'Crystal Nevada' is shown. The background is a light-colored surface with various architectural elements and a small white pin.

Architecture and Construction

- **Architectural Drafting and Design**
- **Carpentry**

ARCHITECTURE AND CONSTRUCTION TRACKS AND COUSE SEQUENCES

Architectural Drafting and Design Track 1

The Architectural Design program of study explores the occupations and educational opportunities associated with developing, engineering, and designing building structures and facilities. This program of study may also include exploration into collecting and interpreting geographic information, researching and preparing maps, and interior design.

RECOMMENDED COURSE SEQUENCE

Principles of Architecture (PRARCA/B)

Grade 9–12, 1 credit, Level 1, On-Level weighted GPA

Principles of Architecture provides an overview to the various fields of architecture, interior design, and construction management. Classroom studies include topics such as safety, work ethics, communication, information technology applications, systems, health, environment, leadership, teamwork, ethical and legal responsibility, employability, and career development and include skills such as problem solving, critical thinking, and reading technical drawings.

Architectural Design I (ARDNIA/B)

Grade 10–12, 1 credit, Level 2, On-Level weighted GPA

In Architectural Design I, students will gain knowledge and skills needed to enter a career in architecture or construction or prepare a foundation toward a postsecondary degree in architecture, construction science, drafting, interior design, or landscape architecture. Architectural Design I includes the knowledge of the design, design history, techniques, and tools related to the production of drawings, renderings, and scaled models for nonresidential or residential architectural purposes.

Prerequisite: *Algebra I and English I*

Recommended Prerequisite: *Principles of Architecture*

Architectural Design II * (ARDN2A/B)

Grade 11–12, 2 credits, Level 3, On Level weighted GPA

In Architectural Design II, students will gain advanced knowledge and skills needed to enter a career in architecture or construction or prepare a foundation toward a postsecondary degree in architecture, construction science, drafting, interior design, or landscape architecture. Architectural Design II includes the advanced knowledge of the design, design history, techniques, and tools related to the production of drawings, renderings, and scaled models for nonresidential or residential architectural purposes.

Prerequisite: *Architectural Design I*

Certification: *Autodesk Certified User*

Practicum in Architectural Design* (HPARDA/B)

Grade 12, 2 credits, Level 4, Honors weighted Credit

Students will continue to gain knowledge and skills in architecture or construction or prepare a foundation toward a postsecondary degree in architecture, construction science, drafting, interior design, or landscape architecture.

Prerequisite: *Architectural Design II and Program Qualification Form*

Certification: *Autodesk Certified User in Revit Architecture*

Architectural Drafting and Design Track 2

The Architectural Design program of study explores the occupations and educational opportunities associated with developing, engineering, and designing building structures and facilities. This program of study may also include exploration into collecting and interpreting geographic information, researching and preparing maps, and interior design.

RECOMMENDED COURSE SEQUENCE

Principles of Architecture (PRARCA/B)

Grade 9–12, 1 credit, Level 1, On-Level weighted GPA

Principles of Architecture provides an overview to the various fields of architecture, interior design, and construction management. Classroom studies include topics such as safety, work ethics, communication, information technology applications, systems, health, environment, leadership, teamwork, ethical and legal responsibility, employability, and career development and include skills such as problem solving, critical thinking, and reading technical drawings.

Interior Design I (INTDEA/B)

Grades 10–12, 1 credit, Level 2, On-level weighted GPA

Interior Design I is a technical course that addresses psychological, physiological, and sociological needs of individuals by enhancing the environments in which they live and work. Students will use knowledge and skills related to interior and exterior environments, construction, and furnishings to make wise consumer decisions, increase productivity, promote sustainability, and compete in industry. Not offered at all campuses, transportation provided.

Prerequisite: *Algebra I, English I*

Recommended Prerequisite: *Principles of Architecture*

Interior Design II* (INTD2A/B)

Grade 11–12, 2 credits, Level 3, On-Level weighted GPA

Interior Design II is a technical laboratory course that includes the application of the employability characteristics, principles, processes, technologies, communication, tools, equipment, and materials related to interior design to meet industry standards.

Prerequisite: *English II, Geometry, and Interior Design I.*

Certification: *Autodesk (720) 948 Autodesk Certified Professional in Revit for Architectural Design*

Practicum in Architectural Design* (HPARDA/B)

Grade 12, 2 credits, Level 4, Honors weighted GPA

Students will continue to gain knowledge and skills in architecture or construction or prepare a foundation toward a postsecondary degree in architecture, construction science, drafting, interior design, or landscape architecture.

Prerequisite: *Architectural Design II and Program Qualification Form*

Certification: *Autodesk Certified User in Revit Architecture*

Carpentry Track

The Carpentry program of study explores the occupations and educational opportunities related to constructing, installing, or repairing structures and fixtures made of wood, such as concrete forms (including frameworks, partitions, joists, studding, rafters, and stairways). This program of study may also include exploration into installing, dismantling, or moving machinery and heavy equipment according to layout plans, blueprints, or other drawings.

RECOMMENDED COURSE SEQUENCE

Principles of Architecture (PRARCA/B)

Grade 9–12, 1 credit, Level 1, On-level weighted GPA

Principles of Architecture provides an overview to the various fields of architecture, interior design, and construction management. Classroom studies include topics such as safety, work ethics, communication, information technology applications, systems, health, environment, leadership, teamwork, ethical and legal responsibility, employability, and career development and include skills such as problem solving, critical thinking, and reading technical drawings.

Construction Technology I (CONSTA/B)

Grades 10–12, 2 credits, Level 2, On-level weighted GPA

In Construction Technology I, students will gain knowledge and skills needed to enter the workforce as carpenters or building maintenance supervisors or to prepare for a postsecondary degree in construction management, architecture, or engineering. Students will acquire knowledge and skills in safety, tool usage, building materials, codes, and framing. Not offered at all campuses, transportation provided.

Recommended Prerequisite: *Principles of Architecture*

Certification: *NCCER Carpentry Level I*

Construction Technology II* (CNST2A/B)

Grade 11–12, 2 credits, Level 3, On-level weighted GPA

In Construction Technology II, students will gain advanced knowledge and skills needed to enter the workforce as carpenters, building maintenance technicians, or supervisors or to prepare for a postsecondary degree in construction management, architecture, or engineering. Students will build on the knowledge base from Construction Technology I and are introduced to exterior and interior finish out skills.

Recommended Prerequisite: *Construction Technology I*

Certification: *NCCER Carpentry Level II*

A professional video camera on a tripod is the central focus, positioned in a library. The camera's viewfinder and LCD screen are visible, showing a woman standing in front of bookshelves. The background is filled with rows of books on shelves, creating a sense of a quiet, intellectual environment. The lighting is soft, highlighting the camera's details and the texture of the book spines.

Arts, Audio/ Video Technology & Communications

- **Graphic Design and Interactive Media**
- **Digital Communications**

Communications

Professional Communication (PROCOM)

Grade 9–12, 0.5 credit, Level 1, On–Level weighted GPA

Professional Communications blends written, oral, and graphical communication in a career-based environment. Careers in the global economy require individuals to be creative and have a strong background in computer and technology applications, a strong and solid academic foundation, and a proficiency in professional oral and written communication. Within this context, students will be expected to develop and expand the ability to write, read, edit, speak, listen, apply software applications, manipulate computer graphics, and conduct internet research.

Dual Credit Courses

Dual Credit Business and Professional Communications (BUSPCM)

SPCH 1321 Dual Credit

Grade 11–12, .5 credit, AP/DC weighted GPA, 3 College Hours

This is the study and application of communication within business and professional contexts. Special emphasis will be given to communication competencies in presentations, dyads, teams, and technologically mediated formats. The course includes the relationship of communication to organizational conflict, management and international business, and practice in conducting and participating in business interviews and presentation.

Prerequisite: College acceptance and registration required. Note that this is a one semester course; students encouraged to take Dual Credit Art Appreciation for the alternate semester.

DIGITAL COMMUNICATION

The Digital Communications program of study explores the occupations and educational opportunities associated with the production of audio and visual media formats for various purposes, such as TV broadcasts, advertising, video production, or motion pictures. This program of study may also include exploration into operating machines and equipment to record sound and images, such as microphones, sound speakers, video screens, projectors, video monitors, sound and mixing boards, and related electronic equipment.

TRACKS AND COUSE SEQUENCES

Audio/Video Production Track

RECOMMENDED COURSE SEQUENCE

Principles of Arts, A/V Technology, and Communications (PAVTCA/B)

Grade 8–10, 1 credit, Level 1, On-Level weighted GPA

This course is designed to give students an introductory experience working with multimedia technology. Students will develop decision-making skills, use creative thinking, and obtain hands-on experience working with a variety of multimedia tools to create interactive multimedia presentations, graphics, photography, movies, and sounds. Students will explore careers in broadcast, video production, fashion, and graphic design.

Audio Video Production I (AVPRDA/B)

Grade 9–12, 1 credit, Level 2, On-Level weighted GPA

Students will explore the different aspects of visual filmmaking, study creative screenwriting, and learn the operation of various industry standard cameras, editing software, and audio equipment. This course will require time outside of school.

Recommended Prerequisite: *Principles of Arts, A/V Technology & Communications or Incoming freshmen – eighth grade video production/ broadcast journalism*

Certification: *Adobe Premiere Pro*

Audio Video Production II * (AVPR2A/B)

Grade 10–12, 2 credits, Level 3, On-Level weighted GPA

This course will give students a deeper understanding of careers in the A/V Technology and film production industries with a focus on pre-production, production, and post-production by using industry standard cinema equipment and software. This course requires significant time outside of school.

Prerequisite: *Audio Video Production I*

Certification: *Adobe After Effects*

Practicum in Audio Video Production * (HPCAVA/B)

Grade 11–12, 2 credits, Level 4, Honors weighted GPA

This course will give students real-world, client-based experience in the broadcast and filmmaking industries by using industry-standard equipment, methods, and software. This course will require significant time outside of school.

Prerequisite: *Audio Video Production II or Broadcast News Team – Audio Video Production II or Digital Audio Technology II and Program Qualification Form*

Broadcast Track

RECOMMENDED COURSE SEQUENCE

Principles of Arts, A/V Technology, and Communications (PAVTCA/B)

Grade 8–10, 1 credit, Level 1, On-Level weighted GPA

This course is designed to give students an introductory experience working with multimedia technology. Students will develop decision-making skills, use creative thinking, and obtain hands-on experience working with a variety of multimedia tools to create interactive multimedia presentations, graphics, photography, movies, and sounds. Students will explore careers in broadcast, video production, fashion, and graphic design.

Broadcast Team– Audio/Video Production I BRNT1A/B (1 Credit)

Grade 9–12, 1 or 2 credits, Level 2, On-Level weighted GPA

With gaining a deep understanding of journalism as a focus, students will use industry-standard equipment and studios to produce feature stories grounded in school and community events, activities and people. The highest quality work could be presented on a news broadcast. This course will require time outside of school.

Recommended Prerequisite: *Principles of Arts, A/V Technology and Communications or eighth grade video production/ broadcast journalism and Program Qualification Form*

Certification: *Adobe Premiere Pro*

Broadcast News Team – Audio Video Production II * (BRNT2A/B)

Grade 10–12, 2 credits, Level 3, On-Level weighted GPA

This course gives students a deeper understanding of careers in journalism and news industries. Students gain real-world experience by producing a news show for the campus and Prosper community using the school's television studio. This course requires significant time outside of school.

Prerequisite: *Broadcast News Team – Audio Video Production I and Program Qualification Form*

Practicum in Audio Video Production * (HPCAVA/B)

Grade 11–12, 2 credits, Level 4, Honors weighted GPA

This course will give students real-world, client-based experience in the broadcast and filmmaking industries by using industry-standard equipment, methods, and software. This course will require significant time outside of school.

Prerequisite: *Audio Video Production II or Broadcast News Team – Audio Video Production II or Digital Audio Technology II and Program Qualification Form*

Digital Audio Track

RECOMMENDED COURSE SEQUENCE

Principles of Arts, A/V Technology, and Communications (PAVTC A/B)

Grade 8–10, 1 credit, Level 1, On-Level weighted GPA

This course is designed to give students an introductory experience working with multimedia technology. Students will develop decision-making skills, use creative thinking, and obtain hands-on experience working with a variety of multimedia tools to create interactive multimedia presentations, graphics, photography, movies, and sounds. Students will explore careers in broadcast, video production, fashion, and graphic design.

Digital Audio Technology I (DAUT I A/B)

Grade 9–12, 1 credit, Level 2, On-Level weighted GPA

This class is designed for students interested in audio production careers such as audio for radio and television broadcasting, audio for video and film, audio for animation and game design, music production and live sound, and additional opportunities and skill sets. Students will work on the campus radio station.

Recommended Prerequisite: *Principles of Arts, A/V Technology and Communications*

Digital Audio Technology II * (DAUT II A/B)

Grade 10–12, 1 credit, Level 3, On-Level weighted GPA

Digital Audio Technology II builds on students interested in audio production careers such as audio for radio and television broadcasting, audio for video and film, audio for animation and game design, music production and live sound, and additional opportunities and skill sets. Students will work on the campus radio station.

Prerequisite: *Digital Audio Technology I*

Practicum in Digital Audio Technology * (HPRADA/B)

Grade 11–12, 2 credits, Level 4, Honors weighted GPA

Students will build on their interest in audio production careers such as audio for radio and television broadcasting, audio for video and film, audio for animation and game design, music production and live sound, and additional opportunities and skill sets. Students will work on the campus radio station.

Prerequisite: *Digital Audio Technology II and Program Qualification Form*

Fashion Design Track

RECOMMENDED COURSE SEQUENCE

Fashion Design I (FASHDA/B)

Grade 9–12, 1 credit, Level 2, On-Level weighted GPA

This course is designed to help students understand the fashion industry with an emphasis on design and construction. Students will be required to provide their own sewing supplies.

Fashion Design II * (FSD2A/B)

Grade 10–12, 2 credits, Level 3, On-Level weighted GPA

This course is intended for those interested in the fields of fashion design, retailing, and visual merchandising to create and construct apparel products. Students will practice skills required for customer service, business profitability, and career success and are responsible for the production of a fashion show. Students will be required to provide their own sewing supplies.

Prerequisite: *Fashion Design I and program qualification form*

Practicum in Entrepreneurship * (PRENTA/B)

Grade 11–12, 2 credits, Level 4, Honors weighted GPA

The Practicum in Entrepreneurship provides students the opportunity to apply classroom learnings and experiences to real-world business problems and opportunities, while expanding their skill sets and professional relationships as a real or simulated business owner versus the experience one would have as an employee. Students will prepare for an entrepreneurial career in their area of interest in their career cluster and build on and apply the knowledge and skills gained from courses taken in an array of career areas. Practicum experiences occur in a paid or unpaid arrangement and a variety of locations appropriate to the nature and level of the student's need for work-based learning experience. Students implement personal and interpersonal skills to strengthen individual performance in the workplace and in society and to make a successful transition to the workforce or postsecondary education. It is recommended that students are paired with local business owners or employers in their specific industry program of study.

Prerequisite: *Fashion Design II and Program Qualification Form*

GRAPHIC DESIGN & INTERACTIVE MEDIA

The Design and Multimedia Arts program of study explores the occupations and educational opportunities associated with designing or creating graphics to meet specific commercial or promotional needs, such as packaging, displays, or logos. This program of study may also include exploration into designing clothing and accessories, and creating special effects, animation, or other visual images using film, video, computers, or other electronic tools and media, for use in computer games, movies, music videos, and commercials.

TRACKS AND COUSE SEQUENCES

Animation Track

RECOMMENDED COURSE SEQUENCE

Digital Arts and Animation * (T9703A/B)

Grade 9–12, 1 credit, Level 3, On–Level weighted GPA

This course consists of computer images and animations created with digital imaging software such as Adobe Photoshop, Adobe Illustrator and Blender. Digital Art and Animation has applications in many careers, such as graphic design, advertising, web design, animation, and magazine, film, television, and game industries. Students will learn the basic software skills while incorporating the design principles in their unique projects. This course satisfies the fine arts graduation requirement.

Certification: *Adobe Photoshop and Adobe Illustrator*

3D Modeling and Animation * (T9704A/B)

Grade 10–12, 1 credit, Level 3, On–Level weighted GPA

This course consists of computer images created in a virtual three-dimensional (3D) environment. Applications in careers, including criminal justice, crime scene and legal applications; construction and architecture; engineering and design; and the movie and game industries will be explored. Students in this course will produce various 3D models of real-world objects using software such as Maxon Cinema 4D and Blender. This course satisfies the fine arts graduation requirement.

Recommended Prerequisite: *Digital Art and Animation or Video Game Design*

Animation I (ANIM1A/B)

Grade 11–12, 1 credit, Level 2, On–Level weighted GPA

Careers in animation span all aspects of motion graphics. Within this context, in addition to developing technical knowledge and skills needed for success, students will be expected to develop an understanding of the history and techniques of the animation industry.

Recommended Prerequisite: *3D Modeling and Animation*

Animation II * (HAN12A/B)

Grade 11–12, 2 credits, Level 3, Honor weighted GPA

Careers in animation span all aspects of motion graphics. Within this context, in addition to developing advanced knowledge and skills needed for success, students will be expected to create two and three-dimensional animations using software such as Cinema 4D, Blender, and AutoDesk products. The instruction also assists students seeking careers in the animation industry.

Prerequisite: *Animation I*

Graphic Design Track

RECOMMENDED COURSE SEQUENCE

Graphic Design and Illustration I (GRDS1A/B)

Grade 9–12, 1 credit, Level 2, On-Level weighted GPA

This course focuses on careers in designing, producing, exhibiting, performing, writing and publishing multimedia content such as logos, displays, and packaging.

Certification: *Adobe Illustrator*

Graphic Design and Illustration II * (GRDS2A/B)

Grade 11–12, 1 credit, Level 3, On-Level weighted GPA

This course continues in designing, producing, exhibiting, performing, writing and publishing multimedia content such as logos, displays, and packaging.

Prerequisite: *Graphic Design and Illustration I*

Certification: *Adobe InDesign*

Practicum in Entrepreneurship* (PRENTA/B)

Grade 12, 2 credits, Level 4, Honors weighted GPA

The Practicum in Entrepreneurship provides students the opportunity to apply classroom learnings and experiences to real-world business problems and opportunities, while expanding their skill sets and professional relationships as a real or simulated business owner versus the experience one would have as an employee. Students will prepare for an entrepreneurial career in their area of interest in their career cluster and build on and apply the knowledge and skills gained from courses taken in an array of career areas. Practicum experiences occur in a paid or unpaid arrangement and a variety of locations appropriate to the nature and level of the student's need for work-based learning experience. Students implement personal and interpersonal skills to strengthen individual performance in the workplace and in society and to make a successful transition to the workforce or postsecondary education. It is recommended that students are paired with local business owners or employers in their specific industry program of study.

Prerequisite: *Graphic Design and Illustration II and Program Qualification Form*

Printing and Imaging Track

RECOMMENDED COURSE SEQUENCE

Graphic Design and Illustration I (GRDS1A/B)

Grade 9–12, 1 credit, Level 2, On–Level weighted GPA

This course focuses on careers in designing, producing, exhibiting, performing, writing and publishing multimedia content such as logos, displays, and packaging.

Certification: Adobe Illustrator

OR

Digital Arts & Animation (T9703A/B)

Grade 9–12, 1 credit, Level 3, On–Level weighted GPA

This course consists of computer images and animations created with digital imaging software such as Adobe Photoshop, Adobe Illustrator and Blender. Digital Art and Animation has applications in many careers, such as graphic design, advertising, web design, animation, and magazine, film, television, and game industries. Students will learn the basic software skills while incorporating the design principles in their unique projects. This course satisfies the fine arts graduation requirement.

Certification: Adobe Photoshop and Adobe Illustrator

Printing and Imaging Technology I (PRMTA/B)

Grade 10–12, 1 credit, Level 2, On–Level weighted GPA

Careers in printing span all aspects of the industry, including prepress, press, and finishing and bindery operations. In addition to developing technical knowledge and skills needed for success in the Arts, Audio/Video Technology, and Communications Career Cluster, students will be expected to develop an understanding of the printing industry with a focus on digital prepress and digital publishing. Not offered at all campuses, transportation provided.

Recommended Prerequisite: Graphic Design and Illustration I or Digital Arts & Animation

Printing and Imaging Technology II * (PRMT2A/B)

Grade 11–12, 1 credit, Level 3, On–Level weighted GPA

Careers in printing span all aspects of the industry, including prepress, press, and finishing and bindery operations. In addition to developing advanced knowledge and skills needed for success in the Arts, Audio/Video Technology, and Communications Career Cluster, students will be expected to develop an advanced understanding of the printing industry with a focus on digital prepress and desktop digital publishing. Not offered at all campuses, transportation provided.

Prerequisite: Printing and Imaging Technology I

Video Game Design Track

RECOMMENDED COURSE SEQUENCE

Video Game Design (VIDGDA/B)

Grade 9–12, 1 credit, Level 1, On–Level weighted GPA

Video Game Design will allow students to explore one of the largest industries in the global marketplace and the new emerging careers it provides in the field of technology. Students will learn gaming, computerized gaming, evolution of gaming, artistic aspects of perspective, design, animation, technical concepts of collision theory, and programming logic. Students will participate in a simulation of a real video game design team while developing technical proficiency in constructing an original game design.

Video Game Programming (VIDPGA/B)

Grade 10–12, 1 credit, Level 2, On–Level weighted GPA

Video Game Programming expands on the foundation created in Video Game Design through programming languages such as: C# programming, XNA game studio, Java, and Android App. In this course, students will investigate the inner workings of a fully functional video game by building and customizing objects, methods, and scenes while developing games through guided lessons and of their own design.

Recommended prerequisite: *Video Game Design*

Certification: *Unity Certified User*

Advanced Video Game Programming * (HADVG A/B)

Grade 11–12, 1 credit, Level 3, Honors weighted GPA

Using Unity as an introduction to 3D game development, students will have exposure to and an understanding of: object-oriented programming concepts; game development skill and 3D modeling. Students will communicate and collaborate on group-based projects.

Prerequisite: *Video Game Programming*

Recommended Prerequisite: *Geometry*

Practicum in Entrepreneurship * (PRENTA/B)

Grade 12, 2 credits, Level 4, Honors weighted GPA

The Practicum in Entrepreneurship provides students the opportunity to apply classroom learnings and experiences to real-world business problems and opportunities, while expanding their skill sets and professional relationships as a real or simulated business owner versus the experience one would have as an employee. Students will prepare for an entrepreneurial career in their area of interest in their career cluster and build on and apply the knowledge and skills gained from courses taken in an array of career areas. Practicum experiences occur in a paid or unpaid arrangement and a variety of locations appropriate to the nature and level of the student's need for work-based learning experience. Students implement personal and interpersonal skills to strengthen individual performance in the workplace and in society and to make a successful transition to the workforce or postsecondary education. It is recommended that students are paired with local business owners or employers in their specific industry program of study.

Prerequisite: *Advance Video Game Programming and Program Qualification Form*

Commercial Photography Track

RECOMMENDED COURSE SEQUENCE

Commercial Photography I (COPH1A/B)

Grade 9–12, 1 credit, Level 2, On–Level weighted GPA

Students will learn camera operation, including how to capture intriguing photographs using the rules of composition and story–telling techniques. Students will be expected to photograph a variety of subjects that will require some out–of–school time including athletic events, practices, club activities, and student life. Students will learn how to use Adobe Photoshop to work with digital images.

Certification: *Adobe Photoshop*

Commercial Photography II * (COPH2A/B)

Grade 10–12, 1 credit, Level 3, On–Level weighted GPA

Students will further their experience in composition and artistic applications. Students will develop a portfolio of work in the studio and outside of the studio. Photographers are strongly encouraged to work for their campus yearbook or newspaper staff. Students will work with clients for completing projects with deadlines, expectations, and vision. There is out–of–school time will be required and transportation necessary to photography events, activities, and community scenes and clients.

Prerequisite: *Commercial Photography I*

Certification: *Adobe InDesign*

Practicum in Entrepreneurship – Photography * (PRENCA/B)

Grade 12, 2 credits, Level 4, Honors weighted GPA

The Practicum in Entrepreneurship provides students the opportunity to apply classroom learnings and experiences to real–world business problems and opportunities, while expanding their skill sets and professional relationships as a real or simulated business owner versus the experience one would have as an employee. Students will prepare for an entrepreneurial career in their area of interest in their career cluster and build on and apply the knowledge and skills gained from courses taken in an array of career areas. Practicum experiences occur in a paid or unpaid arrangement and a variety of locations appropriate to the nature and level of the student’s need for work–based learning experience. Students implement personal and interpersonal skills to strengthen individual performance in the workplace and in society and to make a successful transition to the workforce or postsecondary education. It is recommended that students are paired with local business owners or employers in their specific industry program of study.

Prerequisite: *Commercial Photography II and Program Qualification Form*

Newspaper Track

RECOMMENDED COURSE SEQUENCE

Digital Media in Journalism (DIGM1A/B)

Grade 9–11, 1 credit, Level 1, On-Level weighted GPA

Students will analyze and assess current and emerging technologies, while designing and creating multimedia projects that address customer needs and resolve a problem, especially in the field of journalism. Students will implement personal and interpersonal skills to prepare for a rapidly evolving workplace environment. Students will enhance reading, writing, computing, communication, and critical thinking.

Newspaper I Graphic Design and Illustration I (GRDN1A/B)

Grade 10–12, 1 credit, Level 2, On-Level weighted GPA

Students gain practical experience in the elements and processes of producing a student newspaper, including current industry standard desktop publishing software and online publishing. Assignment and deadlines will require attendance at several evening meetings prior to publication deadline. Summer workshop is encouraged and required for editors.

Recommended Prerequisite: Digital Media or Commercial Photography I

Prerequisite: Program Qualification Form

Certification: Adobe InDesign

Newspaper II Graphic Design and Illustration II * (GRDN2A/B)

Grade 11–12, 1 credit, Level 3, On-Level weighted GPA

Students gain practical experience in the elements and processes of producing a student newspaper, including current industry standard desktop publishing software and online publishing. Out-of-school-time will be required by attending outside of school events and community activities. Publication production schedules will require out of class staff work time. Summer workshop is encouraged and required for editors.

Prerequisite: Newspaper I and Program Qualification Form

Practicum in Entrepreneurship – Newspaper * (PRENNA/B)

Grade 12, 2 credits, Level 4, Honors weighted GPA

The Practicum in Entrepreneurship provides students the opportunity to apply classroom learnings and experiences to real-world business problems and opportunities, while expanding their skill sets and professional relationships as a real or simulated business owner versus the experience one would have as an employee. Students will prepare for an entrepreneurial career in their area of interest in their career cluster and build on and apply the knowledge and skills gained from courses taken in an array of career areas. Practicum experiences occur in a paid or unpaid arrangement and a variety of locations appropriate to the nature and level of the student's need for work-based learning experience. Students implement personal and interpersonal skills to strengthen individual performance in the workplace and in society and to make a successful transition to the workforce or postsecondary education. It is recommended that students are paired with local business owners or employers in their specific industry program of study.

Prerequisite: Newspaper II/Graphic Design and Illustration II and Program Qualification Form

Yearbook Track

RECOMMENDED COURSE SEQUENCE

Digital Media in Journalism (DIGM1A/B)

Grade 9–11, 1 credit, Level 1, On–Level weighted GPA

Students will analyze and assess current and emerging technologies, while designing and creating multimedia projects that address customer needs and resolve a problem, especially in the field of journalism. Students will implement personal and interpersonal skills to prepare for a rapidly evolving workplace environment. Students will enhance reading, writing, computing, communication, and critical thinking.

Yearbook I Graphic Design and Illustration I (GRDY1A/B)

Grade 10–12, 1 credit, Level 2, On–Level weighted GPA

Students will design, produce, exhibit, perform, write, and publish the campus yearbook. Students will be responsible for creating a story budget, making deadlines, and marketing and selling advertising to support the book's publication. Out-of-school time will be required by attending outside of school events and community activities. Summer workshop is highly encouraged and required for editors.

Recommended Prerequisite: *Digital Media or Commercial Photography*

Prerequisite: *Program Qualification Form*

Certification: *Adobe InDesign*

Yearbook II Graphic Design and Illustration II * (GRDY2A/B)

Grade 11–12, 1 credit, Level 3, On–Level weighted GPA

Students will design, produce, exhibit, perform, write, and publish the campus yearbook. Students will be responsible for creating a story budget, making deadlines, and marketing and selling advertising to support the book's publication. Out-of-school time will be required by attending outside of school events and community activities. Summer workshop is highly encouraged and required for editors.

Prerequisite: *Program Qualification Form, Yearbook I*

Practicum in Entrepreneurship – Yearbook * (PRENYA/B)

Grade 12, 2 credits, Level 4, Honors weighted GPA

The Practicum in Entrepreneurship provides students the opportunity to apply classroom learnings and experiences to real-world business problems and opportunities, while expanding their skill sets and professional relationships as a real or simulated business owner versus the experience one would have as an employee. Students will prepare for an entrepreneurial career in their area of interest in their career cluster and build on and apply the knowledge and skills gained from courses taken in an array of career areas. Practicum experiences occur in a paid or unpaid arrangement and a variety of locations appropriate to the nature and level of the student's need for work-based learning experience. Students implement personal and interpersonal skills to strengthen individual performance in the workplace and in society and to make a successful transition to the workforce or postsecondary education. It is recommended that students are paired with local business owners or employers in their specific industry program of study.

Prerequisite: *Yearbook II/Graphic Design and Illustration II and Program Qualification Form*

A hand holding a black pen points to a business chart. An orange sticky note is placed over the chart. The chart includes a line graph with red and green lines, a bar chart with red and green bars, and a pie chart in the bottom left corner. The text 'Business, Marketing, and Finance' is overlaid in large white letters.

Business, Marketing, and Finance

- **Account and Financial Services**
- **Business Management**
- **Entrepreneurship**
- **Marketing and Sales**

ACCOUNTING AND FINANCE

The Accounting and Financial Services program of study teaches CTE learners how to examine, analyze, and interpret financial records. Through this program of study, students will learn the skills necessary to perform financial services, prepare financial statements, interpret accounting records, give advice, or audit and evaluate statements prepared by others. This program of study will also introduce students to mathematical modeling tools.

This program participates in the following organization: Distributive Education Clubs of America (DECA)

BUSINESS MANAGEMENT

The Business Management program of study teaches CTE learners how to plan, direct, and coordinate the administrative services and operations of an organization. Through this program of study, students will learn the skills necessary to formulate policies, manage daily operations, and allocate the use of materials and human resources. This program of study will also introduce students to mathematical modeling tools and organizational evaluation methods.

This program participates in the following organization: Distributive Education Clubs of America (DECA)

MARKETING & SALES

The Marketing and Sales program of study teaches CTE learners how to collect information to determine potential sales of a product or service and/or create a marketing campaign to market or distribute goods and services. Through this program of study, students will learn the skills necessary to understand and apply data on customer demographics, preferences, needs, and buying habits.

This program participates in the following organization: Distributive Education Clubs of America (DECA)

TRACKS AND COUSE SEQUENCES

Finance and Accounting Track

RECOMMENDED COURSE SEQUENCE

Business Information

Management 1 (BUSM1A/B)

Grade 9–12, 1 credit, Level 1, On Level GPA

This is an introduction to business applications of emerging technologies, creating word-processing documents (Microsoft Word), developing spreadsheets (Microsoft Excel), formulating databases (Microsoft Access), and producing electronic presentations (Microsoft PowerPoint).

Certification: Microsoft Word and Excel Expert

OR

Principles of Business, Marketing, and Finance (PBMFA/B)

Grade 9–11, 1 credit, Level 1, On Level GPA

In Principles of Business, Marketing, and Finance, students gain knowledge and skills in economies and private enterprise systems, the impact of global business, the marketing of goods and services, advertising, and product pricing. Students analyze the sales process and financial management principles. This course allows students to reinforce, apply, and transfer academic knowledge and skills to a variety of interesting and relevant activities, problems, and settings in business, marketing, and finance.

Accounting I (ACCT1A/B)

Grade 10–12, 1 credit, Level 2, On Level GPA

Get an introduction to the field of accounting, including the accounting equation, journal entries, inventory, payroll, and financial statements. You will create, analyze, interpret financial statements and other financial information.

Prerequisite: Algebra I

OR

Banking & Financial Services (BANKFN)

Grade 10–12, 0.5 credit, Level 2, On Level GPA

An introduction to the roles of the banking industry from the perspectives of consumers, employees, entrepreneurs, and the government.

Accounting II * (HACT2 A/B)

Grade 11–12, 1 credit, Level 3, Honors weighted GPA

Students create, analyze, and interpret financial information including the creation of financial statements and financial ratios. Students will have opportunities to earn a certification in Microsoft Excel. This course fulfills the fourth math credit. Check with the university if this counts for admission requirements.

Prerequisite: Accounting I

OR

Financial Analysis * (FINANA/B)

Grade 11–12, 1 credit, Level 3, On Level GPA

Students gather, create, and evaluate various companies' financial information to be able to make recommendations for stakeholders.

Prerequisite: Accounting I

Securities and Investments * (SECINA/B)

Grade 10–12, 1 credit, Level 4, On Level GPA

Students learn about the securities industry by exploring its history and inner workings while becoming familiar with the stock market. Students analyze and decide on best investing strategies.

OR

Practicum in Entrepreneurship * (PRENTA/B)

Grade 12, 2 credits, Level 4, Honors weighted GPA

The Practicum in Entrepreneurship provides students the opportunity to apply classroom learnings and experiences to real-world business problems and opportunities, while expanding their skill sets and professional relationships as a real or simulated business owner versus the experience one would have as an employee. Students will prepare for an entrepreneurial career in their area of interest in their career cluster and build on and apply the knowledge and skills gained from courses taken in an array of career areas. Practicum experiences occur in a paid or unpaid arrangement and a variety of locations appropriate to the nature and level of the student's need for work-based learning experience. Students implement personal and interpersonal skills to strengthen individual performance in the workplace and in society and to make a successful transition to the workforce or postsecondary education. It is recommended that students are paired with local business owners or employers in their specific industry program of study.

Prerequisite: Must have taken at least two prior courses in the program of study and Program Qualification Form.

Business Management Track

RECOMMENDED COURSE SEQUENCE

Business Information Management 1 (BUSMIA/B)

Grade 9–12, 1 credit, Level 1, On Level GPA

This is an introduction to business applications of emerging technologies, creating word-processing documents (Microsoft Word), developing spreadsheets (Microsoft Excel), formulating databases (Microsoft Access), and producing electronic presentations (Microsoft PowerPoint).

Certification: *Microsoft Word and Excel Expert*

OR

Principles of Business, Marketing, and Finance (PBMFA/B)

Grade 9–11, 1 credit, Level 1, On Level GPA

In Principles of Business, Marketing, and Finance, students gain knowledge and skills in economies and private enterprise systems, the impact of global business, the marketing of goods and services, advertising, and product pricing. Students analyze the sales process and financial management principles. This course allows students to reinforce, apply, and transfer academic knowledge and skills to a variety of interesting and relevant activities, problems, and settings in business, marketing, and finance.

Virtual Business (VRTBUS)

Grade 10–12, .5 credit, Level 2, On Level GPA

Virtual Business is designed for students to start a virtual business by creating a web presence, conducting online and off-line marketing, examining contracts appropriate for an online business, and demonstrating project-management skills. Students will also demonstrate bookkeeping skills for a virtual business, maintain business records, and understand legal issues associated with a virtual business.

Esports Management (ESPRTA/B)

Grade 11–12, 1 credit, On-Level weighted GPA

Students gather, create, and evaluate various companies' financial information to be able to make recommendations for stakeholders.

Practicum in Entrepreneurship * (PRENTA/B)

Grade 12, 2 credits, Level 4; Honors weighted GPA

The Practicum in Entrepreneurship provides students the opportunity to apply classroom learnings and experiences to real-world business problems and opportunities, while expanding their skill sets and professional relationships as a real or simulated business owner versus the experience one would have as an employee. Students will prepare for an entrepreneurial career in their area of interest in their career cluster and build on and apply the knowledge and skills gained from courses taken in an array of career areas. Practicum experiences occur in a paid or unpaid arrangement and a variety of locations appropriate to the nature and level of the student's need for work-based learning experience. Students implement personal and interpersonal skills to strengthen individual performance in the workplace and in society and to make a successful transition to the workforce or postsecondary education. It is recommended that students are paired with local business owners or employers in their specific industry program of study.

Prerequisite: *Must have taken at least two prior courses in the program of study and Program Qualification Form.*

It is recommended that students are paired with local business owners or employers in their specific industry program of study.

Prerequisite: *Entrepreneurship I and must have taken at least one additional course in the program of study*

A collection of light-colored wooden letters in a lowercase, rounded font are scattered across a dark, textured background. Some letters are arranged to form words, while others are isolated. The word 'teach' is clearly visible at the bottom, and 'Education and Training' is written in white text above it.

Education and Training

• **Teaching & Training**

teach

Teaching and Training

The Teaching and Training program of study prepares CTE learners for careers related to teaching, instruction, and creation of instructional and enrichment materials. The program of study introduces CTE learners to a wide variety of student groups and their corresponding needs. It familiarizes them with the processes for developing curriculum, coordinating educational content, and coaching groups and individuals.

This program participates in the following organization: Texas Association of Future Educators

RECOMMENDED COURSE SEQUENCE

Principles of Human Services (PRHMSA/B)

Grade 9–11, 1 credit, Level 1, On-Level weighted GPA

Students investigate careers including counseling and mental health, early childhood development, family and community, personal care, and consumer services.

Human Growth and Development (HUGRDA/B)

Grade 10–12, 1 credit, Level 2, On-Level weighted GPA

Students will examine human development across the lifespan with emphasis on research, theoretical perspectives, and common developmental milestones. This course covers material generally taught in a postsecondary introductory developmental psychology or human development course.

Instructional Practices (Ready, Set, Teach 1) * (PRED1A/B)

Grade 11–12, 2 credits, Level 3, On-Level weighted GPA

Students will explore the teaching profession in class and in an elementary or middle school internship. Students will study child and adolescent development as it applies to the classroom as well as principles of effective teaching and training practices. Personal Transportation Required.

Prerequisite: *Human Growth and Development (can be taken during the same year as Instructional Practices)*

Practicum in Education and Training (Ready, Set, Teach II) * (HPRE2A/B)

Grade 12, 2 credits, Level 4, Honors weighted GPA

Students practice planning and directing instruction and complete other responsibilities of classroom teachers. Students work under joint supervision of the high school teacher and elementary or middle school teachers. Personal Transportation Required.

Prerequisite: *Instructional Practices and Program Qualification Form*

Certification: *Educational Aide I*

Health Science

- **Biomedical Science**
- **Exercise Science, Wellness, and Restoration**
- **Diagnostic and Therapeutic Services**

Dual Credit Courses

Dual Credit Medical Terminology (1st Semester) – (MEDTDC)

(HITT 1305)

Grade 10–12, 0.5 credit, AP/DC weighted GPA, 3 College Hours

This is the study of medical terms through word origin and structure with an introduction to abbreviations and symbols, surgical and diagnostic procedures, and medical specialties.

Prerequisite: College acceptance and registration required

Dual Credit Pathophysiology (2nd Semester)* – (PATHOD)

(HPRS 2301)

Grade 10–12, 0.5 credit, AP/DC weighted GPA, 3 College Hours

This is the study of the pathology and general health management of diseases and injuries across the lifespan. Topics include etiology, symptoms, and the physical and psychological reactions to diseases and injuries.

Prerequisite: College acceptance and registration required

Dual Credit Health Science Theory and Clinical * – (HSTHSA/B)

Certified Nurse Assistant

Grade 11–12, 2 credits, AP/DC Weighted GPA

Health Science Theory and Clinical provides for the development of advanced knowledge and skills related to a wide variety of health careers. Students will have hands-on experiences and exposure to different methodologies such as clinical rotations and career preparation learning. After successfully completing the required hours and grades, the student will take the Certified Nurse Assistant state exam.

Fall = NURA 1301 (Certified Nurse Aide), HPRS 1303 (End of Life Issues)

Spring = NURA 1160 (Clinical – Nurse Aide), HPRS 2310 (Basic Health Skills II – aka “PersonAbility”)

Fees for uniforms, insurance and testing are required for this course. Students must provide their own transportation to and from clinical locations.

Prerequisite: Principles of Health Science, program qualification form, interview, college acceptance, and registration required

Dual Credit Health Science Theory and Clinical Electrocardiography* – (HSTELA/B)

Grade 11–12, 2 credits, AP/DC Weighted GPA

Semester 1 DSAE 2303 Cardiovascular Concepts, DSAE 1340 Diagnostic Electrocardiography

Semester 2 DSAE 1315 Principles of Adult Electrocardiography, HPRS 1160 Clinical

Prerequisite: Principles of Health Science, program qualification form, interview, college acceptance, and registration required

Dual Credit Practicum in Health Science Patient Care Technician* – (EKG00A/B)

Grade 12, 2 credits, AP/DC weighted GPA, 8 College Hours

The Patient Care Technician (PCT) Health Science Practicum is designed to provide students with opportunities for practical application of previously studied knowledge and skills in a variety of locations appropriate to the nature and level of experience. Students will study EKG and phlebotomy principles in preparation for certification as a Patient Care Tech (PCT). Fees for uniforms, insurance and testing will be required. Students must provide their own transportation to and from clinical locations. DSAE 1340 – 3 hours, ECRD 1111 – 1 hour, PLAB 1323 – 3 hours, Prerequisite: CNA, program qualification form, interview, college acceptance, and registration required

Dual Credit Practicum in Health Science Patient Care Technician* – (EKG00A/B)

Grade 11–12, 2 credits, AP/DC weighted GPA, 11 college hours

HPRS 2232 Healthcare Communication, PTHA 1409 Introduction to Physical Therapy, PTHA 1431 Functional Anatomy, PTHA 1160 Clinical Experience

Prerequisite: Health science, program qualification form, interview, college acceptance and registration required

Dual Credit Emergency Medical Technician* – (EMTDCA/B)

Grade 12, 2 credits, AP/DC weighted GPA, 9 college hours

EMSP 1371 – Introduction to Emergency Medical Technician, EMSP 1501 – Emergency Medical Technician, EMSP 1160 – Clinical rotations EMT Basic

Prerequisite: Health science, program qualification form, interview, college acceptance and registration required

HEALTH SCIENCE TRACKS AND COUSE SEQUENCES

BIOMEDICAL SCIENCE

The Biomedical Science program of study focuses on the study of biology and medicine in order to introduce CTE learners to the knowledge and skills necessary to be successful in the healthcare field, such as researching and diagnosing diseases, pre-existing conditions, or other determinants of health. Students may also practice patient care and communication.

This program participates in the following organization: Health Occupation Students of America

RECOMMENDED COURSE SEQUENCE

Principles of Biomedical Science (PBIOSA/B)

Grade 9–12, 1 credit, Level 1, Honors weighted GPA

Determine what led to the death of a fictional person, and investigate lifestyle choices and medical treatments that might have prolonged their life. Through activities and projects you explore human physiology, medicine, research processes and bioinformatics. You will learn about homeostasis, metabolism, inheritance of traits, and defense against diseases.

Human Body Systems (HUMANA/B)

Grades 10–12, 1 credit, Level 2, Honors weighted GPA

Students examine the interactions of human body systems as they explore identity, power, movement, protection, and homeostasis in the body. Exploring science in action, students build organs and tissues on a skeletal system; use data acquisition software to monitor body functions such as muscle movement, reflex and voluntary action, and respiration; and take on the roles of biomedical professionals to solve real-world medical cases.

Recommended prerequisite: *Principles of Biomedical Science*

Medical Interventions * (MEDINA/B)

Grades 11–12, 1 credit, Level 3, Honors weighted GPA

Students investigate the variety of interventions involved in the prevention, diagnosis, and treatment of disease as they follow the lives of a fictitious family. Through these scenarios, students will be exposed to a wide range of interventions related to immunology, surgery, genetics, pharmacology, medical devices and diagnostics.

Recommended prerequisite: *Principles of Biomedical Science and Human Body Systems*

Biomedical Innovations * (BIOINA/B)

Grade 12, 2 credits, Level 4, Honors Weighted GPA

Students design innovative solutions for health challenges of the 21st century working through challenging open-ended problems, addressing topics such as clinical medicine, physiology, biomedical engineering, and public health. Students are presented with each problem in a mission file, a case brief, a list of completion tasks, links to resources, and a reflection section. This provides skills-based instruction in research and experimentation and tools students use to design innovative solutions to real-world problems. The student uses what they learn in these missions as they develop and implement their independent project at the end of the year, culminating in the creation of a project portfolio. Students are encouraged to work with a mentor from the biomedical industry and present their work to an audience from the health care community.

Recommended Prerequisites: *Principles of Biomedical Science, Human Body Systems, and Medical Interventions*

EXERCISE SCIENCE, WELLNESS, AND RESTORATION

The Exercise Science and Wellness program of study introduces CTE learners to the fields that assist patients with maintaining physical, mental, and emotional health. Students will research diet and exercise needed to maintain a healthy, balanced lifestyle and learn about and practice techniques to help patients recover from injury, illness, or disease.

This program participates in the following organization: Health Occupation Students of America

RECOMMENDED COURSE SEQUENCE

Principles of Exercise Science and Wellness (PREXSA/B)

Grades 9–10, 1 credit, Level 1, On-Level weighted GPA

The Principles of Exercise Science and Wellness course provides an overview of the knowledge and skills that assist patients with maintaining physical, mental, and emotional health. Students learn techniques to help patients recover from injury, illness, and disease.

Kinesiology I (KINESA/B)

Grades 10–12, 1 credit, Level 2, On-Level weighted GPA

Students will gain an understanding of body mechanics, anatomy and physiological functions of the skeletal and muscular systems, how to treat common sports injuries, the history of kinesiology, and the psychological impact of sports and athletic performance.

Recommended Prerequisite: *Principles of Exercise Science and Wellness*

Kinesiology II * (KINE2A/B)

Grades 11–12, 1 credit, Level 3, On-Level weighted GPA

The Kinesiology II course is designed to provide students an advanced level of knowledge, skills, and understanding of body composition and the effect on health, nutritional needs of physically active individuals, qualitative biomechanics, application of therapeutic modalities, appropriate rehabilitation services, and aerobic training intensity programs.

Prerequisite: *Kinesiology I*

Practicum in Entrepreneurship – Exercise Science * (PRENXA/B)

Grade 12, 2 credits, Level 4, Honors weighted GPA

The Practicum in Entrepreneurship provides students the opportunity to apply classroom learnings and experiences to real-world business problems and opportunities, while expanding their skill sets and professional relationships as a real or simulated business owner versus the experience one would have as an employee. Students will prepare for an entrepreneurial career in their area of interest in their career cluster and build on and apply the knowledge and skills gained from courses taken in an array of career areas. Practicum experiences occur in a paid or unpaid arrangement and a variety of locations appropriate to the nature and level of the student's need for work-based learning experience. Students implement personal and interpersonal skills to strengthen individual performance in the workplace and in society and to make a successful transition to the workforce or postsecondary education. It is recommended that students are paired with local business owners or employers in their specific industry program of study.

Prerequisite: *Kinesiology II or Rehab Aide with Kinesiology 1 and Program Qualification Form*

DIAGNOSTIC AND THERAPEUTIC SERVICES

The Diagnostic and Therapeutic Services program of study introduces students to occupations and educational opportunities related to diagnosing and treating acute, episodic, or chronic illness independently or as part of a healthcare team. This program of study also includes an introduction to the opportunities associated with providing treatment and counsel to patients as well as rehabilitative programs that help build or restore daily living skills to persons with disabilities or developmental delays.

This program participates in the following organization: Health Occupation Students of America

RECOMMENDED COURSE SEQUENCE

Principles of Health Science (PRHSCA/B)

Grade 9–11, 1 credit, Level 1, On–Level weighted GPA

Principles of Health Science provides an overview of the therapeutic, diagnostic, health informatics, support services, and biotechnology research and development systems of the healthcare industry. This course is articulated with Collin College. Fees for CPR may be required.

Recommended Prerequisite: Principles of Health Science or Principles of Exercise and Wellness

Medical Terminology (MEDITA/B)

Grade 10–12, 1 credit, Level 2, On–Level weighted GPA

Medical Terminology is designed to introduce students to the structure of medical terms, to include prefixes, suffixes, word roots, combining forms, singular and plural forms, medical abbreviations and acronyms. This course allows students to achieve comprehension of medical vocabulary appropriate to medical procedures, human anatomy and physiology, and pathophysiology.

Recommended Prerequisite: Principles of Health Science or Principles of Exercise and Wellness

Anatomy and Physiology* (ANPHYA/B)

Grade 11–12, 1 credit, Level 3, Honors weighted GPA

In Anatomy and Physiology, students conduct laboratory and field investigations and make informed decisions using critical thinking and scientific problem solving. Students study a variety of topics, including the structure and function of the human body and the interaction of body systems for maintaining homeostasis. This is a science credit course.

Prerequisite: Biology

OR

Health Science Theory* (HSTHEA/B)

Grade 11–12, 1 credit, Level 3, On–Level weighted GPA

This course is designed to provide for the development of advanced knowledge and skills related to a wide variety of health careers. Students will have hands-on experiences for continued knowledge and skill development. Students are expected to learn to reason, think critically, make decisions, solve problems, communicate effectively and employ professional integrity. Topics covered in this class will include, but not limited to, CPR & First Aid certification, safety guidelines, infection control, ethics/confidentiality/HIPAA, communication, vital signs, disease prevention, nutrition/wellness, anatomy/physiology, medical terminology, pathology, occupationally specific skills, and employability skills/professionalism.

Prerequisite: Medical Terminology

Certification: Basic Life Support (BLS)

Pharmacology* (PHARMA/B)

Grade 12, 1 credit, Level 4, Honors weighted GPA

This course is designed to study how natural and synthetic chemical agents such as drugs affect biological systems. Students will take the Pharmacy Tech exam. Fee required.

Prerequisite: one credit in biology, one credit in chemistry, and at least one credit in a Level 2 or higher course from the health science career cluster

Recommended prerequisite: Medical Terminology and program qualification form

OR

Pathophysiology* (PATHPA/B)

Grade 11–12, 1 credit, Level 4, Honors weighted GPA

Students study disease processes and how humans are affected. Emphasis is placed on prevention and treatment of disease. Students will differentiate between normal and abnormal physiology. This course counts as a 4th science credit.

Prerequisite: one credit in biology, one credit in chemistry, and at least one credit in a Level 2 or higher course from the health science career cluster.

Recommended Prerequisite: Anatomy and Physiology

Hospitality and Tourism

• Culinary Arts

CULINARY ARTS AND HOSPITALITY

The Culinary Arts program of study introduces CTE learners to occupations and educational opportunities related to the planning, directing, or coordinating activities of a food and beverage organization or department. This program of study also explores opportunities involved in directing and participating in the preparation and cooking of food.

RECOMMENDED COURSE SEQUENCE

Introduction to Culinary Arts (INTCAA/B)

Grade 9–11, 1 credit, Level 1, On–Level weighted GPA

Students will learn the principles of planning, organizing, staffing, directing, and controlling the management of a variety of food service operations. Fee

Certification: Food Handlers

OR

Principles of Hospitality and Tourism (PRHSPA/B)

Grade 9–11, 1 credit, Level 1, On–Level weighted GPA

Students will learn the industry that encompasses lodging, travel and tourism, recreation, amusements, attractions, and food/beverage operations.

Culinary Arts (CLAR1A/B)

Grade 10–12, 2 credits, Level 2, On–Level weighted GPA

Students will be certified in safety and sanitation through the ServSafe Managerial program. Major focuses will be on the art of cooking, science of baking, including management and production skills and professional etiquette. Fees for uniforms and testing may be required. This course is articulated with Collin College.

Prerequisite: Program qualification form

Recommended Prerequisite: Introduction to Culinary

Certification: Food Manager

Advanced Culinary Arts* (ADVCAA/B)

Grade 11–12, 2 credits, Level 3, On–Level weighted GPA

Students will extend content and enhance skills introduced in Culinary Arts including art of cooking, baking, management, production skills, and professional etiquette. Fees for uniforms and testing may be required.

Prerequisite: Culinary Arts and Program Qualification form

Practicum in Culinary Arts* (HPRCA A/B)

Grade 12, 2 credits, Level 4, Honors weighted GPA

This course is a unique practicum that provides occupationally specific opportunities for students to participate in a learning experience that combines classroom instruction with business and industry experience. Fees for uniforms and additional testing may be required.

Prerequisite: Advanced Culinary Arts and Program Qualification Form

Human Services

• **Family and Community Services**

FAMILY AND COMMUNITY SERVICES

The Family and Community Services program of study introduces students to knowledge and skills related to social services, including child and human development and consumer sciences. CTE learners may learn about or practice managing social and community services or teaching family and consumer sciences. Students may follow career paths in social work or therapy for children, families, or school communities

RECOMMENDED COURSE SEQUENCE

Principles of Human Services (PRHMSA/B)

Grade 9–11, 1 credit, Level 1, On-Level weighted GPA

Students investigate careers including counseling and mental health, early childhood development, family and community, personal care, and consumer services.

OR

Dollars and Sense (DOLLSN)

Grade 10–12, 0.5 credit, Level 1, On-Level weighted GPA

Students learn about money-management and decision making and how these choices impact them and the world/economy around them.

AND

Professional Communications (PROCOM)

Grade 9–12, 0.5 credit, Level 1, On-Level weighted GPA

Professional Communications blends written, oral, and graphical communication in a career-based environment. Careers in the global economy require individuals to be creative and have a strong background in computer and technology applications, a strong and solid academic foundation, and a proficiency in professional oral and written communication. Within this context, students will be expected to develop and expand the ability to write, read, edit, speak, listen, apply software applications, manipulate computer graphics, and conduct internet research.

Human Growth and Development (HUGRDA/B)

Grade 10–12, 1 credit, Level 2, On-Level weighted GPA

Students will examine human development across the lifespan with emphasis on research, theoretical perspectives, and common developmental milestones. This course covers material generally taught in a postsecondary introductory developmental psychology or human development course.

Counseling and Mental Health* (COUNSA/B)

Grade 11–12, 1 credit, Level 3, On-Level weighted GPA

In Counseling and Mental Health, students model the knowledge and skills necessary to pursue a counseling and mental health career through simulated environments. Students are expected to apply knowledge of ethical and legal responsibilities, limitations on their actions and responsibilities, and the implications of their actions. Students understand how professional integrity in counseling and mental health care is dependent on acceptance of ethical and legal responsibilities.

Practicum in Entrepreneurship * (PRENTA/B)

Grade 12, 2 credits, Level 4, Honors weighted GPA

The Practicum in Entrepreneurship provides students the opportunity to apply classroom learnings and experiences to real-world business problems and opportunities, while expanding their skill sets and professional relationships as a real or simulated business owner versus the experience one would have as an employee. Students will prepare for an entrepreneurial career in their area of interest in their career cluster and build on and apply the knowledge and skills gained from courses taken in an array of career areas. Practicum experiences occur in a paid or unpaid arrangement and a variety of locations appropriate to the nature and level of the student's need for work-based learning experience. Students implement personal and interpersonal skills to strengthen individual performance in the workplace and in society and to make a successful transition to the workforce or postsecondary education. It is recommended that students are paired with local business owners or employers in their specific industry program of study.

Prerequisite: Human Growth and Development and Counseling and Mental Health, Program Qualification Form

Information Technology

- **Networking Systems**
- **Programming and Software**

Dual Credit Courses

Network+* – (ITNWNP)

ITNW 1358 Dual Credit

Grade 11-12, 0.5 credit, AP/DC weighted GPA, 4 college hours

This course assists individuals in preparing for the Computing Technology Industry Association (CompTIA) Network+ certification exam and a career as a network professional. It prepares individuals for a career as a Network Engineer in the Information Technology support industry.

Network+ covers the various responsibilities and tasks required for service engineers to successfully perform in a specific environment. Lab required. ITNW 1358 Dual Credit

Prerequisite: College acceptance and registration required; Frisco Campus

ITSYIS Fundamentals of Information Security (Security +) – (ITNETW)

ITSY 1300 Dual Credit

Grade 11-12, 0.5 credit, AP/DC weighted GPA, 4 College Hours

Students receive an introduction to information security including vocabulary and terminology, ethics, the legal environment, and risk management. Identification of exposures and vulnerabilities and appropriate countermeasures are addressed. The importance of appropriate planning, policies and controls is also discussed. Lab required.

Prerequisite: ITNW 1358. 4 credit hours. (W) This course will be offered in the Spring, college acceptance and registration required; Frisco Campus

NETWORKING SYSTEMS

The Networking Systems program of study explores the occupations and educational opportunities associated with designing and implementing computer and information networks, such as local area networks (LAN), wide area networks (WAN), intranets, extranets, and other data communications networks. This program of study may also include exploration into analyzing science, engineering, and other data processing problems to implement and improve computer systems.

RECOMMENDED COURSE SEQUENCE

Fundamentals of Computer Science (T9706A/B)

Grade 8–12, 1 credit, Level 1, On-Level weighted GPA

This is a beginner's level approach to computer science. Students who enroll in this class are not expected to have any prior knowledge of programming, web design or game design. Students will be taught structured programming concepts and the use of algorithms for problem solving while using time management skills.

OR

Honors Computer Science A/B

Grade 9–12, 1 credit, Level 2, Honors weighted GPA

This is an introductory course to the fundamental concepts of Computer Science which leads into AP Computer Science. This object-oriented programming class uses the Python programming language to discuss basic concepts of programming.

Course Note: Two credits in computer programming which includes, Honors Computer Science I, II, AP Computer Science Principles, and AP Computer Science A may be used to satisfy the World Languages graduation requirements. Check with the college you plan on attending to see if this will count for admissions.

Prerequisite or Corequisite: Algebra I

AP Computer Science Principles (T9820A/B)

Grade 9–12, 1 credit, Level 2, AP/DC weighted GPA

AP Computer Science Principles introduces students to the breadth of the field of computer science. In this course, students will learn to design and evaluate solutions and to apply computer science to solve problems through the development of algorithms and programs. They will incorporate abstraction into programs and use data to discover new knowledge. Students will also explain how computing innovations and computing systems, including the Internet, work, explore their potential impacts, and contribute to a computing culture that is collaborative and ethical.

Course Note: Two credits in computer programming which includes, Computer Science I, II, AP Computer Science Principles, and AP Computer Science A may be used to satisfy the World Languages graduation requirements. Check with the college you plan on attending to see if this will count for admissions.

Recommended Prerequisite: Algebra I

Practicum in Entrepreneurship* (PRENTA/B)

Grade 12, 2 credits, Level 4, Honors weighted GPA

The Practicum in Entrepreneurship provides students the opportunity to apply classroom learnings and experiences to real-world business problems and opportunities, while expanding their skill sets and professional relationships as a real or simulated business owner versus the experience one would have as an employee. Students will prepare for an entrepreneurial career in their area of interest in their career cluster and build on and apply the knowledge and skills gained from courses taken in an array of career areas. Practicum experiences occur in a paid or unpaid arrangement and a variety of locations appropriate to the nature and level of the student's need for work-based learning experience. Students implement personal and interpersonal skills to strengthen individual performance in the workplace and in society and to make a successful transition to the workforce or postsecondary education. It is recommended that students are paired with local business owners or employers in their specific industry program of study.

Prerequisite: AP Computer Science Principles and Program Qualification Form

PROGRAMMING AND SOFTWARE

The Programming and Software Development program of study explores the occupations and education opportunities associated with researching, designing, developing, and testing operating systems-level software, compilers, and network distribution software for medical, industrial, military, communications, aerospace, business, scientific, and general computer applications. This program of study may also include exploration into creating, modifying, and testing the codes, forms, and script that allow computer applications to run.

RECOMMENDED COURSE SEQUENCE

Fundamentals of Computer Science (T9706A/B)

Grade 8–12, 1 credit, Level 1, On-Level weighted GPA

This is a beginner's level approach to computer science. Students who enroll in this class are not expected to have any prior knowledge of programming, web design or game design. Students will be taught structured programming concepts and the use of algorithms for problem solving while using time management skills.

Course Note: Two credits in computer programming which includes, Computer Science I, II, AP Computer Science Principles, and AP Computer Science A may be used to satisfy the World Languages graduation requirements. Check with the college you plan on attending to see if this will count for admissions.

COMPUTER SCIENCE TRACK

OR

AP COMPUTER SCIENCE TRACK

Honors Computer Science I (FC110A/B)

Grade 9–12, 1 credit, Level 2, Honors weighted GPA

This is an introductory course to the fundamental concepts of Computer Science which leads into AP Computer Science. This object-oriented programming class uses the Python programming language to discuss basic concepts of programming.

Prerequisite or Corequisite: Algebra I

AP Computer Science Principles (T9820A/B)

Grade 9–12, 1 credit, Level 2, AP/DC weighted GPA

AP Computer Science Principles introduces students to the breadth of the field of computer science. In this course, students will learn to design and evaluate solutions and to apply computer science to solve problems through the development of algorithms and programs. They will incorporate abstraction into programs and use data to discover new knowledge. Students will also explain how computing innovations and computing systems, including the Internet, work, explore their potential impacts, and contribute to a computing culture that is collaborative and ethical.

Recommended Prerequisite: Algebra I

Computer Science II* (FC210A/B)

Grade 10–12, 1 credit, Level 3, Honors weighted GPA

This course offers an emphasis on object-oriented programming methodology with a concentration on problem solving and algorithm development using Python programming language.

Prerequisite: Algebra I and Computer Science I

AP Computer Science A* (MA520A/B) (FCSAPA/B)

Grade 10–12, 2 credits, Level 3, AP/DC weighted GPA

This course offers an emphasis on object-oriented programming methodology with a concentration on problem solving and algorithm development, and is meant to be the equivalent of a first semester college-level course in Computer Science. The course includes the study of data structures, design, and abstraction using the Java programming language. Students who take AP courses should take the AP exam in May. This course fulfills the fourth credit of math.

Recommended Prerequisite: Honors Computer Science I

Prerequisite: Algebra I

Computer Science III* FC320A/B

Grade 11–12, 1 credit, Level 3, AP/DC weighted GPA

Computer Science III will foster students' creativity and innovation by presenting opportunities to design, implement, and present meaningful programs through a variety of media. Students will collaborate with one another, their instructor, and various electronic communities to solve the problems presented throughout the course. Through data analysis, students will identify task requirements, plan search strategies, and use computer science concepts to access, analyze, and evaluate information needed to solve problems.

Prerequisite: Computer Science II or Advanced Placement (AP) Computer Science A

Law and Public Service

- **Law Enforcement**
- **Legal Studies**

LAW ENFORCEMENT

The Law Enforcement program of study teaches CTE learners about the development of, adherence to, and protection of various branches of law. Students will learn how to appropriately and legally respond to breaches in the law according to statutory rules and regulations as well as investigate how and why the breaches occurred.

RECOMMENDED COURSE SEQUENCE

Principles of Law, Public Safety, Corrections & Security

(PRLPSA/B)

Grade 9–12, 1 credit, Level 1, On-level weighted GPA

Students are introduced to professions in law enforcement, security, corrections, and fire department/emergency management services. Students examine the roles and responsibilities of police officers, court systems, corrections, private security, and protective agencies of fire and emergency services. The course provides students with an overview of the skills necessary for careers in law enforcement, fire service, security, and corrections.

Law Enforcement I

(LAWELA/B)

Grade 10–12, 1 credit, Level 2, On-Level weighted GPA

Law Enforcement I is an overview of the history, organization, and functions of local, state, and federal law enforcement. This course includes the role of constitutional law, the United States legal system, criminal law, law enforcement terminology, and the classification and elements of crime.

Recommended Prerequisite: *Principles of Law, Public Safety, Corrections & Security*

OR

Criminal Investigation

(CRINVA/B)

Grade 10–12, 1 credit, Level 2, On-Level weighted GPA

Students will understand basic functions of criminal investigations and procedures and will learn how to investigate or follow up during investigations. Students will learn terminology and investigative procedures related to criminal investigation, crime scene processing, evidence collection, fingerprinting, and courtroom presentation.

Recommended Prerequisite: *Principles of Law, Public Safety, Corrections & Security*

Forensic Science*

(FORSCA/B)

Grade 11–12, 1 credit, Level 4, On-Level weighted GPA

Forensic science is the application of multiple scientific disciplines to the investigation of criminal or civil law. Students use scientific inquiry and the process of forensic investigation and apply knowledge of investigation to the analysis of trace evidence (hair, fiber, etc.), fingerprints, DNA, and blood.

Prerequisite: *Biology and Chemistry*

AND/OR

Forensic Psychology *

(FRPSYA/B)

Grade 11–12, 1 credit, Level 3, On-Level weighted GPA

Forensic psychology is found at the intersection between psychology and the criminal justice system. It involves understanding criminal law in the relevant jurisdictions in order to be able to interact within the criminal justice system. It utilizes and applies basic skills developed in psychology and criminal scenarios resulting in a structured and scientific approach to investigative analysis; thereby, enabling police and law enforcement officials to predict criminal activity via scientific analysis rather than intuition.

Practicum in Law, Public Safety, Corrections, and Security*

(HPLAW A/B)

Grade 11–12, 2 credits, Level 4, Honors weighted GPA

Students participate in supervised practical application of previously studied knowledge and skills.

Prerequisite: *Law course, program qualification form*

Manufacturing

- **Advance
Manufacturing and
Machinery Mechanics**

ADVANCE MANUFACTURING AND MACHINERY MECHANICS

The Advanced Manufacturing and Machinery Mechanics program of study focuses on the assembly, operation, maintenance, and repair of electromechanical equipment or devices. CTE learners may work in a variety of mechanical fields, gaining knowledge and experience in robotics, refinery and pipeline systems, deep ocean exploration, or hazardous waste removal. CTE concentrators may work in a variety of fields of engineering.

RECOMMENDED COURSE SEQUENCE

Principles of Applied Engineering (PRAPEA/B)

Grade 8–10, 1 credit, Level 1, On-Level weighted GPA

Students develop engineering communication skills, which include computer graphics, modeling, and presentations, by using a variety of computer hardware and software applications to complete assignments and projects. Upon completing this course, students will have an understanding of the various fields of engineering and be able to make informed career decisions.

Manufacturing Engineering Technology I (MENT1 A/B)

Grade 10–12, 1 credit, Level 2, On-Level weighted GPA

The study of manufacturing engineering will allow students to reinforce, apply, and transfer academic knowledge and skills to a variety of interesting and relevant activities, problems, and settings in a manufacturing setting. Students will have hands-on experience and will use a 3D printer, wood machinery, and a metal lathe.

Not offered at all campuses, transportation provided.

Recommended prerequisites: *Principles of Applied Engineering, Algebra I*

Manufacturing Engineering Technology II * (MENT2A/B)

Grade 11–12, 1 credit, Level 3, On-Level weighted GPA

The study of Manufacturing Engineering Technology II will allow students to reinforce, apply, and transfer academic knowledge and skills to a variety of interesting and relevant activities, problems, and settings. Students will use metal lathe, CNC vertical milling machines. This course fulfills the fourth math credit

Not offered at all campuses, transportation provided.

Prerequisite: *Manufacturing Engineering Technology I*

Practicum in Entrepreneurship* (PRENTA/B)

Grade 12, 2 credits, Honors weighted GPA

The Practicum in Entrepreneurship provides students the opportunity to apply classroom learnings and experiences to real-world business problems and opportunities, while expanding their skill sets and professional relationships as a real or simulated business owner versus the experience one would have as an employee. Students will prepare for an entrepreneurial career in their area of interest in their career cluster and build on and apply the knowledge and skills gained from courses taken in an array of career areas. Practicum experiences occur in a paid or unpaid arrangement and a variety of locations appropriate to the nature and level of the student's need for work-based learning experience. Students implement personal and interpersonal skills to strengthen individual performance in the workplace and in society and to make a successful transition to the workforce or postsecondary education. It is recommended that students are paired with local business owners or employers in their specific industry program of study.

Prerequisite: *Must have taken at least two prior courses in the program of study*

Engineering

- **Electrical Engineering**
- **Engineering Foundation**
- **Mechanical and Aerospace Engineering**

ENGINEERING TRACKS AND COUSE SEQUENCES

ELECTRICAL ENGINEERING

The Electrical Engineering program of study focuses on the design, development, testing, and supervision of electrical equipment and systems. Students will design, test, and evaluate projects related to electrical motors, radar, navigation systems, and communication systems. CTE learners will apply scientific, mathematical, and empirical evidence to solve problems in electrical systems, associated with instruments, facilities, components and equipment.

RECOMMENDED COURSE SEQUENCE

Principles of Applied Engineering (PRAPE A/B)

Grade 8–10, 1 credit, Level 1, On-Level weighted GPA

Students develop engineering communication skills, which include computer graphics, modeling, and presentations, by using a variety of computer hardware and software applications to complete assignments and projects. Upon completing this course, students will have an understanding of the various fields of engineering and be able to make informed career decisions.

Robotics I (RBOT1 A/B)

Grade 10, 1 credit, Level 2, On-Level weighted GPA

Students will build prototypes or use simulation software to test their designs. Additionally, students will explore career opportunities, employer expectations, and educational needs in the robotic and automation industry.

Recommend Prerequisite: *Principles of Applied Engineering*

Engineering Science* (PRENG A/B)

Grade 10–12, 1 credit, Level 3, Honors weighted GPA

Students will have an opportunity to investigate engineering and high-tech careers. In Engineering Science, students will employ science, technology, engineering, and mathematical concepts in the solution of real-world challenge situations. Students will develop problem-solving skills and apply their knowledge of research and design to create solutions to various challenges. Students will also learn how to document their work and communicate their solutions to their peers and members of the professional community.

Prerequisite: *Algebra I, Biology, Chemistry and either Integrated Physics (IPC) or Physics, and at least one credit in a course from the Engineering career cluster*

Engineering Design and Problem Solving* (ESPS A/B)

Grade 11–12, 1 credits, Level 4, AP/DC weighted GPA

This course emphasizes solving problems, moving from well-defined toward more open-ended, with real-world application. Students will apply critical-thinking skills to justify a solution from multiple design options. Additionally, the course promotes interest in and understanding of career opportunities in engineering. This course is intended to stimulate students' ingenuity, intellectual talents, and practical skills in devising solutions to engineering design problems. Students use the engineering design process cycle to investigate, design, plan, create, and evaluate solutions. At the same time, this course fosters awareness of the social and ethical implications of technological development.

Prerequisite: *Algebra I and Geometry; two engineering courses*

ENGINEERING FOUNDATIONS

The Engineering Foundations program of study focuses on a wide range of skills applied in the Engineering industry. Students will design, test, and evaluate projects related to engines, machines, and structures. CTE learners will apply scientific, mathematical, and empirical evidence to solve problems through innovation, design, construction, operation and maintenance of different engineering systems.

RECOMMENDED COURSE SEQUENCE

Principles of Applied Engineering (PRAPE A/B)

Grade 8–10, 1 credit, Level 1, On–Level weighted GPA

Students develop engineering communication skills, which include computer graphics, modeling, and presentations, by using a variety of computer hardware and software applications to complete assignments and projects. Upon completing this course, students will have an understanding of the various fields of engineering and be able to make informed career decisions.

Engineering Design and Presentation I* (ENDSP A/B)

Grade 9–10, 1 credit, Level 3, Honors weighted GPA

Students enrolled in Engineering Design and Presentation I will demonstrate knowledge and skills of the design process as it applies to engineering fields and project management using multiple software applications and tools necessary to produce and present working drawings, solid model renderings, and prototypes. Through implementation of the design process, students will transfer advanced academic skills to component designs. Additionally, students will explore career opportunities in engineering, technology, and drafting and what is required to gain and maintain employment in these areas.

Prerequisite: *Algebra 1*

Engineering Science* (PRENG A/B)

Grade 10–12, 1 credit, Level 3, Honors weighted GPA

Students will have an opportunity to investigate engineering and high-tech careers. In Engineering Science, students will employ science, technology, engineering, and mathematical concepts in the solution of real-world challenge situations. Students will develop problem-solving skills and apply their knowledge of research and design to create solutions to various challenges. Students will also learn how to document their work and communicate their solutions to their peers and members of the professional community.

Prerequisite: *Algebra I, Biology, Chemistry and either Integrated Physics (IPC) or Physics, and at least one credit in a course from the Engineering career cluster*

Engineering Design and Problem Solving* (ESPSA/B)

Grade 11–12, 1 credit, Level 4, AP/DC weighted GPA

This course emphasizes solving problems, moving from well-defined toward more open-ended, with real-world application. Students will apply critical-thinking skills to justify a solution from multiple design options. Additionally, the course promotes interest in and understanding of career opportunities in engineering. This course is intended to stimulate students' ingenuity, intellectual talents, and practical skills in devising solutions to engineering design problems. Students use the engineering design process cycle to investigate, design, plan, create, and evaluate solutions. At the same time, this course fosters awareness of the social and ethical implications of technological development.

Prerequisite: *Algebra I and Geometry, two engineering courses*

MECHANICAL AND AEROSPACE ENGINEERING

The Mechanical and Aerospace Engineering program of study focuses on the design, development, maintenance, and testing of engines, machines, and structures related to aircraft and spacecraft. Students will design, test and evaluate projects related to aerodynamics, structural, and mechanical design. CTE learners will apply scientific, mathematical, and empirical evidence to solve problems for navigation, mechanics, robotics, propulsion and combustion.

RECOMMENDED COURSE SEQUENCE

Principles of Applied Engineering (PRAPE A/B)

Grade 8–10, 1 credit, Level 1, On-Level weighted GPA

Students develop engineering communication skills, which include computer graphics, modeling, and presentations, by using a variety of computer hardware and software applications to complete assignments and projects. Upon completing this course, students will have an understanding of the various fields of engineering and be able to make informed career decisions

Aerospace Engineering* (AEROSA/B)

Grade 10–12, 1 credit, Level 3, Honors weighted GPA

Students explore the physics of flight and bring what they're learning to life through hands-on projects

Prerequisite: *Principles of Applied Engineering*

Engineering Science* (PRENGA/B)

Grade 10–12, 1 credit, Level 3, Honors weighted GPA

Students will have an opportunity to investigate engineering and high-tech careers. In Engineering Science, students will employ science, technology, engineering, and mathematical concepts in the solution of real-world challenge situations. Students will develop problem-solving skills and apply their knowledge of research and design to create solutions to various challenges. Students will also learn how to document their work and communicate their solutions to their peers and members of the professional community.

Prerequisite: *Algebra I, Biology, Chemistry and either Integrated Physics (IPC) or Physics, and at least one credit in a course from the Engineering career cluster*

Engineering Design and Problem Solving* (ESPSA/B)

Grade 11–12, 1 credit, Level 4, AP/DC weighted GPA

This course emphasizes solving problems, moving from well-defined toward more open-ended, with real-world application. Students will apply critical-thinking skills to justify a solution from multiple design options. Additionally, the course promotes interest in and understanding of career opportunities in engineering. This course is intended to stimulate students' ingenuity, intellectual talents, and practical skills in devising solutions to engineering design problems. Students use the engineering design process cycle to investigate, design, plan, create, and evaluate solutions. At the same time, this course fosters awareness of the social and ethical implications of technological development.

Prerequisite: *Algebra I and Geometry, two engineering courses*

Transportation, Distribution, and Logistics

- **Automotive and Collision Repair**

TRANSPORTATION, DISTRIBUTION, AND LOGISTICS

The Automotive program of study teaches CTE learners how to repair and refinish automobiles and service various types of vehicles. CTE learners may learn to collect payment for services or supplies and perform typical vehicle maintenance procedures such as lubrication, oil changes, installation of antifreeze, or replacement of accessories like wiper blades or tires.

RECOMMENDED COURSE SEQUENCE

Automotive Technology I: Maintenance and Light Repair * (AUTO1A/B)

Grade 10–12, credits 2, Level 3, On-Level weighted GPA

This course includes knowledge of the function of the major automotive systems, history of the automobile, and the principles of diagnosing and servicing all major automotive systems. Students will participate in the shop after successful classroom curriculum is completed.

This course meets at Prosper High School

Prerequisite: Program Qualification Form

Certification: ASE Automotive Test

Automotive Technology II: Automotive Service * (AUTO2A/B)

Grade 11–12, 2 credits, Level 4, On-Level weighted GPA

This course includes knowledge of the function of the major automotive systems, history of the automobile, and the principles of diagnosing and servicing all major automotive systems. Students are required to take an ASE student certification exam and the S/P2 (Safety and Environmental certification exams).

This course meets at Prosper High School

Prerequisite: Automotive Technology I and Program Qualification Form

Certification: ASE Automotive Test

Practicum in Entrepreneurship * (PRENTA/B)

Grade 11–12, 2 credits, Level 4, Honors weighted GPA

The Practicum in Entrepreneurship provides students the opportunity to apply classroom learnings and experiences to real-world business problems and opportunities, while expanding their skill sets and professional relationships as a real or simulated business owner versus the experience one would have as an employee. Students will prepare for an entrepreneurial career in their area of interest in their career cluster and build on and apply the knowledge and skills gained from courses taken in an array of career areas. Practicum experiences occur in a paid or unpaid arrangement and a variety of locations appropriate to the nature and level of the student's need for work-based learning experience. Students implement personal and interpersonal skills to strengthen individual performance in the workplace and in society and to make a successful transition to the workforce or postsecondary education. It is recommended that students are paired with local business owners or employers in their specific industry program of study.

Prerequisite: Must have taken at least two prior courses in the program of study and Program Qualification Form
